Worn Out In Mind and Body

Your child is quick to observe disturbances in your mental attitude or physical condition. And when he asks: "What's the matter, Daddy?" there's a tone of solemn anxiety in his little voice. The depression stamped upon you reflects intensely upon him because of his profound solicitude. He at once drops his playthings and rushes to your side, but his happy smile has disappeared and his buoyant spirits are gone—replaced by a countenance of worry and a bearing of hopelessness.

You owe it to the happiness and welfare of your family to keep trim in body and keen in intellect. You are the sun and the inspiration of their lives. Dark, threatening clouds hover over their heads the instant you show signs of being "out of sorts" or "under the weather." Don't imperil their future by neglecting your health.

A very enjoyable time was had by the Marion County Veterans' association which held a meeting Saturday in the McCormack hall. F. A. Elliott, president of the Daughters of Veterans spoke. Daniel Webster, department commander of the G. A. R. spoke and Captain E. Ward of the world war told of his experiences.

MINISTER WANTS TO HELP. It is only natural that one who has been relieved from suffering should feel grateful and want to help others. Rev. W. F. M. HOW TO SELECT CORN IS TOLD

Instructions Out for Competitors in Annual Exhibition Dec. 15-20

Instructions for selecting corn for entrance for competition at the sixth annual Marion county corn show December 15 to 20 were given out yesterday by Luther J. Chapin who is in charge of arrangements. The classes include 50 prizes for adult growers and special prizes for boys who grow their own corn. The judging of the boys' exhibits will be a feature of the show and will be held on Saturday, December 20.

Following are instructions for selecting ears for competition:

"Maturity.—This is an index of the adaptability of the variety or strain. Corn may have reached full maturity but if it is not thoroughly dry it will appear immature. Exhibits should, therefore, be thoroughly dried.

"Uniformity.—All the ears in an exhibit should be uniform in size and color and conform to a given type. Look at the exhibit as a whole and take out any ears that attract the eye or stand out conspicuously. It is well even to remove the best ear from an exhibit if it destroys the uniformity by its outstanding merit.

"Color of Cob.—A yellow variety should not have a white cob and a white variety should not have a red cob. This is an indication of impurity or mixture and disqualifies the entire exhibit. Remove one or two kernels if necessary to make sure of this point.

"Soundness of Kernel.—Dent varieties should show a marked dent or roughness of kernel. Smooth kernels indicate a reversion to flint varieties and score against the exhibit.

"Competence.—The rows should be straight and the furrows between rows narrow. Wide furrows indicate a small percentage of corn to cob. It is usually true that a rounded kernel which causes the furrows between the rows has a corresponding furrow next the cob. Kernels should be approximately rectangular instead of rounded or markedly pointed at the inner end.

Under the charity provision of the state corporation laws, the Levi Anderson home of Portland filed articles of incorporation here yesterday. The home is to be established under the terms of the will of the late Emma H. Anderson, and is organized for the benefit of orphan boys who will be taught the fundamentals of Christian and secular education, including vocational branches. Archbishop Alexander Christie is president of the home, William A. Daley vice president and Father James H. Black secretary-treasurer. Archbishop Christie and Father Black serve in the same capacity for St. Mary's home of Portland, established for the care of neglected and abandoned children, for which articles also were filed yesterday. Joseph Haesacker is vice president. Resolutions of dissolution were filed for the St. Mary's home association of Portland and Grace hospital of Pilot Rock, Umatilla county.
