

EXPANSION OF NAVY URGED BY GENERAL BOARD

United States Fleet Should be Best in World by 1925 Is Recommendation

UNIFORMITY BIG ITEM

Program Includes Two Battleships, Cruisers, Destroyers and Submarines

WASHINGTON, Dec. 9.—Recommendations of the navy general board for the building program for 1921 include two battleships, one battle cruiser, ten scout cruisers, five destroyer flotilla leaders and six submarines.

The navy of the United States should ultimately be equal to the most powerful maintained by any nation of the world, not later than 1925 the report adds. The statement of policy as to the ultimate strength of the navy and the time when it should be achieved is a reiteration of the board's position as carried in its report to Secretary Daniels each year since 1915.

Contrary to his custom for the last year, Mr. Daniels did not make public the board's recommendations when his own annual report was released, although it was attached to that document as it went to the president. Mr. Daniels did not himself recommend any building program, withholding this for later presentation.

Naval Expansion Urged.

In its recommendations, made public today at the department, the general board urged a policy of naval expansion that will guarantee protection of coast lines and the rapidly expanding merchant marine against any naval power in the world. Such protection, the board declared, can be had only by increasing American sea power to a point where it "resends to none" and maintaining it at that level.

The board further asserted that the war having demonstrated that possession of a fleet powerful enough to protect its commerce is vital to any nation in time of hostilities, the main tenance of such a navy by the United States would be a "great present" and a "great future" for the nation.

The necessary future strength of the American navy, there fore, must depend, the board said, upon the naval strength of the "powers in a position to challenge our legitimate commercial expansion upon the high seas."

Lesson of War Cited.

Declaring the greatest naval lesson of the war was the immense advantage of uniformity in speed and armament of first line ships, the board asserted it already was evident that first line ships of the American navy must have heavier armament than the 12 inch guns of the first dreadnaughts. These ships, the board said, were rapidly assuming

Attendance Is Heavy—

The average attendance of all the county schools for the month ending October 31 was 96 per cent. The average number of pupils attending was 6896. Of this sum the daily attendance was 6623 or 96 per cent. County School Superintendent Smith and staff are exerting every effort in an attempt to raise the average and results are reassuring.

Deckebach and Wise for Vice.

Nominated for vice president are F. G. Deckebach and Roy R. Wise. C. B. Clancey was placed in nomination by the committee, but his recent election as King King of the Cherrians automatically eliminates him from the race as he becomes director of tourists, conventions and publicity in the club board by virtue of his office.

TWO ANARCHISTS GO TO BRANDEIS

Berkman-Goldman Deportation to Come Before Justice and Possibly Court

NEW YORK, Dec. 9.—Application will be made to Supreme Court Justice Brandeis in Washington tomorrow for a writ of error to bring the cases of Alexander Berkman and Emma Goldman, anarchists fighting deportation, before the highest judicial tribunal. This announcement was made today by Harry Weinberg, their counsel. The application will appeal from the action of Federal Judge Mayer in dismissing writs of habeas corpus.

If the writ is granted, Weinberg said, he will apply to the full bench of the supreme court to release Berkman and Miss Goldman on bail pending argument and final decision. Judge Mayer declined to grant them bail and they are held at Ellis Island awaiting deportation.

Situation Needs Relief

Mr. Dalziel says he is willing to see the law changed at the special session in such a way as to relieve the shortage and prevent the increase in price which is threatened by the fuel companies. At the present time Mr. Dalziel says that as far as he knows no gasoline of less than 6 degrees is being sold in the state and that there will be no letting down of the bars until authorized by the state legislature. His department was severely criticized on the previous occasion.

MANY BILLS ARE HINTED

There is a defect in the constitutional amendment adopted by the people at the special election last June providing for state guarantee of interest on irrigation and drainage district bonds and an effort will be made to have this remedied. The amendment provides that that state approval of a request made by the residents of a district after they have voted on the question, shall guarantee interest on the district bonds for one or more of the first five years. It is provided that the state issue bonds for the purpose, but no provision is made whereby the state shall derive the money to pay interest on the bonds it issues.

Olcott Suggests Bills

Governor Olcott in his statement announcing that he would call a special session pointed out among other things the demand for an increase in the rate of compensation allowed injured workmen under the compensation act and the need of an appropriation to cover an estimated \$300,000 or more deficiency under the educational aid bill for soldiers, sailors and marines, also the question of national punishment and ratification of the national woman suffrage amendment. The capital punishment measure would have to be a constitutional amendment referred to the people.

Home Druggists and Doctors Take and Recommend Number 40 For The Blood

Mr. Theodore Gerke of The Gerke Drug Co., states: "A year or so ago my wife came into the drug store and said she was going to take a blood medicine. She looked over the kinds we had on the shelf and decided to try Number 40. After taking it a while she gave it to our son and one day I was complaining of that tired feeling and she said, 'I will dose you on Number 40,' and she did, and it helped me so much that I have been recommending it to my customers and buy in gross lots." With scarcely an exception, druggists in Evansville and this vicinity unanimously endorse and recommend Number 40. An old and very successful physician remarked to me a short time ago on the street, "I am taking Number 40. I will prolong a man's life." Made by J. C. Mendenhall, 49 years a druggist, Evansville, Ind. Sold by Perry's Drug Store.

OLCOTT TO BE SUED BY NELSON

Former Pilot Commissioner to Test Legality of Ousting

ASTORIA, Or., Dec. 9.—A suit to test the legality of Governor Olcott's action in removing Thomas Nelson as a member of the state board of pilot commissioners and appointing Frank M. Sweet to fill the vacancy will be filed in the local circuit court tomorrow. The complaint avers that the governor appointed Nelson as a pilot commissioner for the term ending March 15, 1921, but on September 22, last, the governor removed Nelson without cause and appointed Sweet.

Nelson was removed following complaint by American Legion men that he would not discharge an alien in his employ.

If convicted on all counts, Major William E. Kelly of New York, judge advocate, declared he faced a maximum sentence of life imprisonment. The offenses with which Detzer is charged are alleged to have been committed over a period of several months, beginning last February.

MOSS TO HAVE NEW HEARING

Prison May Yet Get Wealthy Stockman of High Oregon Deserts

W. Z. Moss, wealthy Lake county stockman and alleged cattle rustler will yet have to suffer the penalty prescribed by law if he fails to win in a rehearing of the case of the state against Moss which has been granted by the supreme court and set for next Monday, Dec. 15.

Moss was convicted in the lower court for Lake county, but the decree was reversed by the supreme court because of lack of evidence. At the rehearing next Monday Attorney General Brown will give a portion of his time to R. J. Keator, district attorney of Umatilla county, who will represent the other district attorneys of eastern Oregon.

Upon reversal of the case by the supreme court Attorney General Brown filed a petition for rehearing and the district attorneys supported this by filing a brief amicus curiae and joining in the request for a rehearing. The rehearing was granted.

Since the district attorneys by filing a brief amicus curiae do not have the right to appear and make an oral argument Attorney General Brown invited Mr. Keator to appear and offered him a part or all of his own time, so that he might present the case orally and assist in representing the state. Mr. Keator accepted the invitation. Granting a rehearing by the supreme court amounts to a demand for proof of Moss' alleged thefts.

In the lower court Moss was sentenced to serve in the state penitentiary.

HEAVIEST SNOW IN YEARS FALLS

Trains Stalled and Street Cars Slowed by Drifts—Farmers Not Worried

The heaviest snow which Salem has seen in December for many years fell yesterday beginning about midnight Monday and by midnight last night was 10 inches deep. Temperatures during the day ranged from 24 to 28 degrees above zero though some thermometers registered down to 20 degrees.

Train Stalled.

The Oregon Electric train due in Salem at 6:40 p. m. became stalled in the snow between Marion and Center streets and was not out at midnight. Passengers for Salem left the train at once but many of those for other points stayed aboard the cars. The 5:40 northbound train stuck in the snow at West Woodburn and was delayed for an hour. Other trains on the Oregon Electric and Southern Pacific were 40 minutes to over two hours late. The Falls City motor was supplanted by a steam train.

Car Service Crippled.

Street car service was crippled but all lines were kept running on a slow schedule. The company officers made every effort to maintain a 20-minute schedule but in many instances delays were near an hour.

No Damage Anticipated.

Farmers and orchardists are not anticipating injury unless a sharp freeze comes.

The snow has given Salem children one of their rare opportunities for winter sports and the various hills of the city were alive with sleds yesterday.

Signs That Say: "Wear Glasses"

Are you troubled with imperfect sight?—letters blurred or running into each other—skipping of words or letters in reading—seeing objects double—floating specks—aversion to light—confusion of objects which is relieved by closing the eyes—a tired feeling in and behind the eyes—a necessity for bringing the light between the eyes and the object looked at—for holding the book or work further away than formerly in order to see clearly—or an inability to see distant objects as well as your friends see them. If So, It Is Quite Time Your Eyes Received Attention.

Eyestrain and eye defects yield only to perfectly fitted glasses and a disregard of the above mentioned symptoms only means a growth of the trouble and a greater and greater difficulty in overcoming it when the time comes that you are compelled to seek their aid. Think this matter over well, and if your eyes tell you they are needing aid, let there be no hesitation. Do it now.

Do not imagine that you can preserve your present good sight if you disregard the call of your eyes for aid when help IS necessary.

Consult us at once if you have the least reason to believe your sight is not all it ought to be.
