### District Sealers Limited in Money for Expenses

District deputy sealers of weights and measures who work under the direction of W. A. Dalziel, deputy state sealer of weights and measures, are limited by law to \$850 a year each for expense money, says an opinion of Attorney General Brown written in reply to an inquiry from Mr. Dalziel.

### BOYS FROLIC AT Y. M. C. A.

More Than Two Hundred Play, Swim, Sing and Eat Everything in Sight

As an inauguration of a membership campaign to bring Salem boys into the Young Men's Christian association, more than 200 boys gathered at the association building, South Commercial and Chemeketa streets, yesterday after school hours where the biggest event of its kind in years took place.

Upon arriving at the building the boys were escorted to the floor of the gymnasium where they worked out in squads under the direction of O. J. Hull, physical director, and then taken to the tank in the basement where they enjoyed a plunge. This was followed by athletic games in the gymnasium for half an hour and then the dinner call was sounded. The menu was elaborate—very elaborate—and nothing was left for a second table when they got through.

Rev. H. N. Aldrich led the youngsters in singing popular songs, Miss Bertha Clark contributed several whistling solos, E. Cooke Patton performed several stunts in the mystic art of legerdemain and addresses were given by Harold Cook, Salem Boy Scout executive, and by Dr. E. E. Fisher. Mr. Cook encouraged the boys to affiliate with the Y. M. C. A. and Dr. Fisher spoke on the care of the body. Among other things he told them that on a recent visit to the famous institution of the Mayo brothers, world famous surgeons of Rochester, Minn., he was told by the doctors that cigarette smoking is causing rapid increase of cancer in the United States.

Clifford Smart, recently discharged from the United States navy after a good record in the sea service, has come to the association as director of boys' work and will organize classes and clubs and otherwise have charge of the boys' interests.

### FEAT PERFORMED BY AGED WOMAN

Mrs. William Upton Drives Ford Runabout from Frisco to Gotham

On her return trip, Mrs. William Upton, the 70-year-old woman, who drove a Ford runabout from San Francisco to New York city visited the Ford Motor company's main office. She was introduced to the officials of the company, was photographed, held in her hands a Ford check worth two figures of millions, recounted the experiences she had encountered on her trip, and before leaving made arrangements for securing a new Ford car immediately upon her return to her home in Bakersfield, Cal.

Mrs. Upton has already driven her present Ford more than 22,000 miles, 7,000 of which were driven since she left San Francisco, May 11, the longest day's drive being 160 miles. At Springfield, Ill., Mrs. Upton's birthplace, she plans to dispose of the car and after visiting her many friends there, will return home via rail.

When commenting on her trip, she said that in making the drive from the Atlantic to the Pacific, it had not been her purpose to follow a direct line of travel, but to visit the most cities and places of inter-

est. She visited the petrified forest, spent several days in the national capital, drove to Mount Vernon, visited the site of the battle of Gettysburg, and then after touring to some of the Atlantic coast cities, made her way to New York.

She experienced practically no

trouble with her car, although she pointed out the fact that she understands the Ford motor and made her own adjustments. Before leaving the Ford company, Mrs. Upton expressed a hope that her next Ford, probably another runabout, will be equipped with a Ford starter.
