## NASAL CATARRH

Though Very Common It is a Serious Disease—Worse at This Season.

It is an inflammation of the mucous membrane, causing a discharge, and is aggravated by colds and sudden changes of weather, but depends on an impure condition of the blood. When chronic it may develop into consumption by breaking down the delicate lung tissues and impairing the general health.

Begin treatment with Hood's Sarsaparilla at once. This medicine purifies the blood, removes the cause of the disease, and gives permanent relief. It has been entirely satisfactory to three generations.

If a cathartic is needed take Hood's Pills—they are gentle and thorough, enliven the liver, regulate the bowels.

In talking with the secretary he stated that when his boy was enroute to France his ship was submarine and the boy was hurled into the sea. So far as he was able to discover the boy remained in the icy water for at least 15 minutes before he was rescued. He had learned to swim in the Y.M.C.A. pool and had become an expert so that when the crisis came the boy was ready for it. The man declared "I know of no wiser and beneficial investment that a father can make than to take out a membership for his boys in the Y.M.C.A."
