Everett, Wash. and Scott High of Toledo, O., Play to Huge Crowd

FIELD IS SEA OF MUD

Home Team Rushes First Quarter—Match Ends With Ball 6 Inches From Goal

EVERETT, Wash., Jan. 1.—Everett high school and Scott high school, Toledo, football eleven, played a 7 to 7 tie game here today, contesting for the national preparatory school championship. The field was hard and firm when the game began but a warm sun melting the frost, developed slippery going, and the third and fourth quarters were played in a sea of mud. The largest crowd ever gathered at a football game in this section, estimated at over 8000 persons, witnessed the contest.

Everett Rushes First Quarter The Everett team played the easterners off their feet in the first quarter, rushing the ball down the field with Toledo's line falling to hold. Hickey carried the ball over for a touchdown. A try for a goal failed, but Toledo was offside, and a second attempt by Sherman sent the ball between the posts. Score Everett 7, Toledo 0.

Toledo retaliated in the second quarter. After a series of criss cross and line plays down the field, Andrews scored on a modification of the old criss cross, and Scherer kicked goal, tying the score 7 to 7.

Whistle Saves Game Exchanges of kicks and line bucks featured the third and fourth quarters, the muddy field making open football almost impossible. Toledo brought the spectators to their feet a few minutes before the game ended, pushing the ball to within six inches of the Everett goal. The Everett team held solidly twice, the signal whistle quashing the hopes of the eastern team of winning the game.

SALEM WATCHES GAME AT ARMORY

Crowd Yells and Jokes as Plays Are Announced and Shown on Stage

Salem football fans at the armory yesterday to "watch" the big game at Pasadena, manifested almost as much noise and enthusiasm as if the game were actually in progress before them. There was all the shouting and joking back and forth among the three hundred present that attends a real game and when Oregon scores were announced the crowd came to its feet and yelled lustily.

The Oregon students in charge of the special service had details carefully worked out. A special western Union wire was run to the armory and a megaphone man announced the plays as fast as they came. The spectators sat in the balcony and on the floor of the armory was a stage chalked in replica of a football field. A cardboard football on strings operated by students at the ends of the stage showed at all times the location of the ball. A score board showed lineups, weights, yardage and other data.

\$80 for Building. The students cleared \$80 on admissions which will be turned in the fund for the women's building at university of Oregon. In addition the group of students has secured about \$100 in personal contributions.

MILK SURVEY TO BE MADE

County and City School Officers, Teachers and Pupils to Aid Work

W. M. Smith, county school superintendent, J. W. Todd, city school superintendent, of Salem, their principals and the teachers of the local schools have been asked to cooperate in making a milk survey to ascertain how many children are getting no milk in their diet. The work is simple but is regarded as important in that it calls attention to the great food value of milk and dairy products. The plan is that of the Oregon Dairy Council, an educational organization that has the cooperation of the state agricultural college and the endorsement of the bureau of health, the state superintendent of schools, the Oregon Parent-Teachers club, the Oregon Federation of Women's clubs, the State Chamber of Commerce and other organizations and persons of prominence. In Portland it was found that when the survey was made there 5702 children under 14 years of age getting no milk in their diet. Follow up work teaching the food value of dairy products, lectures at meetings and talks by the teachers, all voluntarily done, increased the use and raised the health standards wonderfully.

The returns will be sent to the Oregon Dairy Council's educational director, Edith Knight HHL, 1006 Broadway building, Portland, who will compile and publish them.

FATHER KIDNAPS CHILD, BELIEVED

Marvel Hill, 14, Said to Have Been Lured From School on Pretext

That Marvel Hill, 14 years old, was kidnapped by her father, E. L. Hill, is believed from information which has been given to Salem police. It is believed that the girl was enticed away from school on the story that her grandfather was ill and wanted to see her.

According to the police E. L. Hill, father of the girl, has been staying with his father, Lyman Hill, at the home of S. Armstrong who lives at High and Jackson streets. Mrs. Hill, another of the girl, who lives at Chemsawa, reported to the police that at about 9 a. m. Wednesday her husband came to her home and while she was away got the girl's clothes. He then went to the Adventist's school, North Fifth and Gaines avenue, according to the story and told the girl that her grandfather was ill and wanted to see her.

Mr. and Mrs. Hill have been living apart for some time, it is said. Investigation by Officer Morelock showed that the girl was not at the home of her grandfather, the officer being told that she had been taken back to the school by her father. The girl was not returned to the school, however. No word of her whereabouts has been received by her mother and it is thought she may have been taken to Seattle.
