The Middle Ground

Between the positive and the negative there is a middle ground—a point where price and quality combine to make greater value.

Bethlehem Motor Trucks are examples of that middle ground. They are not built up to an uneconomic value nor down to a price.

The enormous Bethlehem output, the production of quality trucks on a quantity basis, means a lower overhead per truck, a lower margin of profit and a lower market price. Judge a Motor Truck on facts.

HISTORY OF NUMBER 40

40 years ago an old doctor was putting up a medicine for diseases of the blood, that cured the worst cases of specific blood poison, and time proved that the cures were permanent. After many years I secured the prescription (being a druggist), and took each ingredient separately and referred to my U. S. Dispensary and other authoritative books on medicine and found the medicinal properties set down as follows: "Employed in diseases of the glandular system, in blood poison, scrofula, eczema, constipation, stomach and liver troubles, chronic rheumatism, catarrh, in sores, ulcers, pimples, skin eruptions, mercurial and lead poisoning. Under its use nodes, tumors and scrofulous swellings that have withstood all other treatment disappear as if by magic." To commemorate my fortieth year as a druggist, I named this medicine "Number 40 For the Blood." J. C. Mendenhall, Evansville, Ind. Perry Drug store.
