Swift & Company's 1919 Earnings

How They Affected You

During the twelve months ended November 1, 1919, (its fiscal year), Swift & Company transacted its large volume of business on the smallest margin of profit in its history.

Sales over \$1,200,000,000.00

Net earnings \$13,870,181.34

Our shipments were in excess of 5,500,000,000 lbs.

This means that our earnings were less than 11/6 cents on each dollar of sales, or a quarter of a cent on each pound shipped.

Consumer-

The average consumer eats about 1/2 lb. of meat per day-180 lbs. per year. If he purchased only Swift & Company products he would have contributed only 45 cents (180 lbs. @ 1/4 cent a pound)—a year profit to Swift & Company for its investment and service, less than one cent per week.

Our earnings were so small as to have practically no effect on the family meat bill.

Live Stock Raiser-

Swift & Company handled in 1919 over 16,000,000 head of live stock. You can figure for yourself that our earnings of 11/6 cents on each dollar of sales are too small to affect the price you received for your stock.

We paid all it was humanly possible to pay considering what the meat and by-products could be sold for.

Swift & Company, U. S. A.

was due to her continued illness.

Mrs. J. M. Reid and daughter. Doris, who have been the houseguests for several days of Mr. and Mrs. A. E. Huckestein have left for their home in San Jose, Calif. They have been in Seattle with Mrs. Reid's son for several weeks.
