

# SCHOOLS SHOW IMPROVEMENT

## Virile American Citizenship Is Being Taught in Marion County

The Rosedale school has the posts set for a new fence around the school grounds. One new room has been built and equipped. A new Watterman heating system has been installed besides many other minor improvements.

At Liberty school a large bak tree has had become dangerous by age and has been removed from the school grounds. The blackboards have been refinished and a new table for the convenience of the teacher and pupils in serving hot lunch has been added. Two sets of supplementary readers have been supplied. Also two new toilets have lately been constructed.

Also two new toilets have lately been constructed.

Nothing will restore your strength, renew your health and revive your spirits like this master body builder. It reconstructs the decaying tissues by enriching the blood and tones up and invigorates the entire system by stimulating the sluggish organs into normal activity. Fine for over-wrought nerves, headache, loss of appetite and indigestion.

Get a bottle of this splendid tonic today. Don't put it off. It's a mild laxative and keeps the bowels in fine condition. Your druggist will supply you.

The Great General Tonic

LYKO MEDICINE COMPANY  
New York Kansas City, Mo.

For sale by all Druggist. Always in stock at Perry's Drug Store

organized with Charles Stevenson grounds. A baseball team has been as captain and is working out as the weather will permit. China painting is being taught by Miss Parkhurst, the primary teacher in connection with her other work.

At Fruitland school a good live club was organized by the pupils. The purpose is to promote the general welfare of the school. Some of the committees are: a committee on baseball, one on sanitation, one to purchase curtains, one to purchase two extra chairs for the room and a committee to assist in club work. Other improvements are a new well, the reshingling of the outbuilding and the removal of some trees that obstructed the playground.

A few of the many things being done by the Witzel school under the supervision of the teacher, Miss Dorothy Taylor, have come to light. Healthy bodies, practical training and wholesome enjoyment of the school life, are being emphasized in the Witzel school. The 20 minutes of physical training required by law is divided into three periods. Windows are thrown open and the time spent in active exercise, drills, games and races. When the weather permits these are carried on out doors. Daily reports on clean teeth are made and are marked on monthly report cards. Fresh air at home and school, day and night, is enjoyed. Talks on personal cleanliness are given.

The school organization consists of a health doctor, secretary, state and school librarians and two flag bearers lieutenants who have charge of the children marching in and out. The school grounds free from trash, prohibit rough language and assist the teachers in supervising the play.

A grocery store open during the arithmetic period, once a week gives some very practical training. Some pupils are clerks, others give out funds at the bank, while the rest of the school goes purchasing. All bills must be O. K. by the bank and the teacher and correct change returned.

The school by putting in wood secured money to purchase a volley ball. Noons and recesses the school room, windows wide open, is left vacant and everyone is outside engaged in some game.

ACHES AND PAINS of rheumatism are not permanent, but only temporarily, relieved by external remedies. Why not use an internal remedy—Hood's Sarsaparilla, which corrects the acidity of the blood on which rheumatism depends and cures the disease?

of, English or American, since Irving's time. "The Master of Ballantrae," in which Mr. Whiteside will appear at the Grand Opera house tonight, February 3rd, will be played by him in London. A cablegram was received at Christmas time, asking for the English rights, but Mr. Whiteside purposes going the play overseas himself.

# WHITESIDE IS HERE TONIGHT

## Notable Actor Still Remembered Here For His Work in "The Typhoon"

Walker Whiteside was last seen in Salem in "The Typhoon" at which time he impersonated a Japanese diplomat. Since that time he was won great success in London in the character of David Quixano in "The Meeting Pot." Whiteside played this piece for six months at the Queen's theatre in the British capital, and the critics of that metropolis accorded him the honor of having achieved the greatest hit of any ac-

tor, English or American, since Irving's time. "The Master of Ballantrae," in which Mr. Whiteside will appear at the Grand Opera house tonight, February 3rd, will be played by him in London. A cablegram was received at Christmas time, asking for the English rights, but Mr. Whiteside purposes going the play overseas himself. "The Master of Ballantrae" was first revealed in America at the Royal Alexandra theatre in Toronto, Canada, where the lovers of Robert Louis Stevenson thronged the playhouse to see the piece. Since that time Mr. Whiteside has presented it in many of the eastern cities, and after the coast tour, a long run in New York will be entered upon, at which time the same cast which will be seen in Salem will appear on Broadway. This is the ideal company which the star assembled for the Gotham debut, and is probably the finest acting organization that has ever toured the Pacific coast.

**DON'T NEGLECT THE LITTLE ONES**  
Mrs. J. S. Pitson, 376 E. 156th St., Cleveland, O., writes: "I can't speak too highly of Foley's Honey and Tar. When my little girl has a cold I give her Foley's Honey and Tar and that stops her coughing in a little while. Children like it. It contains no opiates. It is healing, soothing, prompt in action. J. C. Perry."

# PRIZE PIGGIES COME TO TOWN

## Blooded Stock Began to Arrive Yesterday and Owners Are Gathering

Duroc Day is not until Wednesday and no activities among the "hogs" were expected until today but all day yesterday the prize porkers were arriving at the fair grounds. By

# MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry, Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry, eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid. Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities. Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

night there was a pretty good sized orange show already on the grounds and a number of men interested in the show are in the city. E. A. Rhoten, manager of the event, said there had been a tremendous call for catalogs that gives the details regarding the Durocs to be sold. Earlier these came by mail, but now they are coming by wire. Among such was a telegram from Sunnyside, Wash., asking regarding the sale, the sender expecting to attend.

Special films showing views of the National Swine show and views on the leading breeding farms in the middle west have been secured by the Oregon theatre and will be shown in addition to the regular program at the close of the last show tonight. The showing of Durocs will start 1:30 p. m. at the fair grounds, Wednesday at 9:30 a. m., and the sale will start at 1 p. m.

# Desert Land Board Adopts Recommendation of Cupper

The state desert land board yesterday adopted a recommendation of Percy A. Cupper, state engineer, by withholding for a period of 90 days approval of a contract with the Central Oregon Irrigation company of Deschutes for the sale of 1600 acres of lands of the Lone Pine Irrigation district lying north of Crooked river in Crook county. The Central Oregon company's project is in Crook and Deschutes counties.

Mr. Cupper made this recommendation because of the many complications affecting the Central Oregon project. An attempt will be made by the state to perfect an agreement whereby the control and operation of the Central Oregon project will be taken over by the Central Oregon Irrigation district, which was recently organized and which embraces 43,000 acres of sold lands in the vicinities of Bend, Redmond and Powell Buttes.

# BAD SPRAINS OR MUSCLE STRAIN

Rub Pain, Ache, Soreness and Swelling Right out with "St. Jacobs Liniment."

Rub it on a sprained ankle, wrist, shoulder, back or a sprain or strain anywhere, that's when you realize the magic in old, honest "St. Jacobs Liniment" because the moment it is applied out comes the pain, ache, soreness and swelling. It penetrates right into the injured muscles, nerves, ligaments, tendons and bones and relief comes instantly. It not merely kills pain, but soothes and heals the injury so a quick recovery is effected.

# Nunn Finds Roads Good in Eastern Part of State

Herbert Nunn, state highway engineer, has returned from an automobile trip over the Columbia river highway as far as the Washington line in Umatilla county, and reports all improved sections of the highway in excellent condition. He mentions especially a 50-mile stretch of gravelled road between Echo and Willows which he says is a very fast road. Mr. Nunn found the John Day river bridge completed. The bridge cost \$28,000, and when the highway at that point is opened will eliminate the necessity of ferrying across the river at the mouth of the John Day river at Goff station 30 miles east of The Dalles. The bridge has two spans of 126 feet each with approaches 200 feet in length. The Deschutes river bridge is nearing completion.

# Mrs. Fannie Harvey Was Pioneer of Early Days

A recent issue of the Portland Journal gave the following account of the death of Mrs. Fannie Harvey, pioneer of the early days, who was widely known in Marion and Polk counties. Mrs. Fannie Harvey, one of the earliest pioneers of Oregon, died at her home, 1563 Stanton street, Tuesday evening. Mrs. Harvey came to Oregon in 1844 with her parents, William and Sarah Ann Case, from Missouri. She was, in fact, born en route and Indians tried several times to steal her. Coming down the Columbia river on a flatboat, Mrs. Case and her baby girl were swept overboard, but rescued. The family settled in Marion county. Mrs. Harvey was one of the earliest graduates of Willamette university, receiving her diploma in 1866. Her first husband was Samuel Moreland, one of the well known newspaper writers of his day. Mrs. Harvey traveled extensively and was an enthusiast for Oregon plants, woods, scenery and birds. Her home was beautiful with Oregon trees and plants and birds were encouraged to nest and feed in her grounds. Mrs. Harvey is survived by two daughters, Mrs. Horace Thielson of this city and Mrs. Walter Tyler of Los Angeles. Two brothers are George W. Case of Marion county and John N. Case of Omaha, Neb. Five sisters are: Mrs. Alice Bothwell and Mrs. L. H. Maxwell of this city; Mrs. Nell Gibbons of Los Angeles; Mrs. Ella Granstone of Buena Vista, Ariz.; Mrs. S. A. and Mrs. Jennie E. Garrow of Victoria, B. C. The most of the folks with weak hearts died during the war and the reduction in the number of those so afflicted should be shown in the census reports.

The largest electric sign in the world advertises

# WRIGLEY'S

on Times Square, New York City: It is 250 feet long, 70 feet high. Made up of 17,286 electric lamps.

The fountains play, the trade mark changes, reading alternately WRIGLEY'S SPEARMINT, DOUBLEMINT, and JUICY FRUIT, and the Spearmen "do a turn."

This sign is seen nightly by about 500,000 people from all over the world.

Sealed Tight Kept Right A7

### Ruth St. Denis and Her Troupe Tomorrow Night

Ruth St. Denis, with her concert dancers will appear at the Grand Opera house Wednesday, February 4 under the management of Lawrence A. Lambert of the Western Musical bureau. Miss St. Denis will be supported by a cast of nine beautiful dancers, a dramatic tenor, Ellis Rhodes, and pianist, Pauline Lawrence. The attraction is equipped with special costumes and scenery in Miss St. Denis' usual lavish style. Special electrical effects are also carried. Miss St. Denis has been seen here as a theatrical attraction, but her present production is totally different. It features Miss St. Denis in several solo dances in addition to ensemble and solo dances of her nine American girls, portraying the relation of the dance to vocal and piano music, as illustrated by Mr. Rhodes and Miss Lawrence. Don't sleep at miracles; every time you get the high number on a telephone the first time it is a miracle.

Fairbanks-Morse "Z" Engine with Bosch Magneto

## The Supreme Farm Engine

THE famous "Z" Engine and the Bosch high tension, oscillating magneto combine to make the one SUPREME farm engine. Call on us and see the result of this newest combination—FAIRBANKS-MORSE "Z" WITH BOSCH MAGNETO. We are substantially assisted in delivering maximum engine service by a nearby Bosch Service Station. Prices—1 1/2 H. P., \$75.00—3 H. P., \$105.00—6 H. P., \$140.00—all F. O. B. Factory.

LOT L. PEARCE & SON, Salem, Oregon

# Maxwell

Extra Fine in Metals  
Extra Fine in Mileage

A Maxwell car weighs 2130 pounds. It is made of the finest materials that may be obtained.

You cannot find in any car a better crankshaft, better bearings, better axles or better gears.

Neither science nor money can produce them better.

Do you know why such fine materials are used in a car like Maxwell?

We had to.

Keeping its weight down and yet maintaining strength mean the use of only those extra fine steels and metals.

For a metal that is light in weight and yet strong, as any user of metals knows, is a high priced metal.

The use of these fine grades of steel has been the foundation of the business. Maxwell has grown in numbers and friends. The latter countless; the former well on the road to 400,000.
