

CLOSED CARS TO BE EMPHASIZED IN BIG EXHIBIT

Forty Per Cent of Passenger Models Are Said to be Enclosed Types

ALL STYLES PROMISED Exposition of Trucks Is Special Feature to be Shown at Armory

PORTLAND, Feb. 9.—One of the features of the coming big Portland automobile show, to be held in the Ice palace, will be the display of closed car models. At least one-third perhaps even one-half of the 176 models to be shown, will be of the enclosed type.

It doesn't require a very long memory to remember back to the days when the only closed automobiles in this part of the country were taxicabs or costly limousines, ownership of which automatically rated a man as a millionaire. In those days folks on the street used to speculate as to how much he paid his chauffeur when the great man rolled by in his limousine.

But times have changed. Nowadays there are closed cars within reach of the purse of even the very moderate income. And the day when such a vehicle could be driven only by a paid chauffeur in uniform also is past. In these times the closed car driver drives his own.

They make 'em in all sizes and styles now—coupe, brougham, victoria, sedan and variations thereof, all of which will be on exhibition at the Portland show in many different makes of cars. And today the closed type of automobile is pushing the open car hard in popularity, so hard that approximately 40 per cent of the entire output of automobiles are now closed cars, with the tendency to build even more of that type.

The reason for this trend to the closed car is easy to diagnose. The closed automobile combines comfort with utility in a manner with which the open car can never compete. Modern engineering methods have reduced the weight of automobile chassis and body to such an extent that it is no longer necessary to make a closed car weigh half as much as a locomotive. In fact, the latest models weigh surprisingly little more than the open cars and can go anywhere that an open car goes, with infinitely more comfort in disagreeable weather.

The number of entries of closed cars already made for the Portland automobile show emphasizes the trend of the present day. The visitor to the big show will see, however, not only all the very latest types of closed cars, but the latest models of open cars as well.

In all 69 different make of passenger automobiles will be on display, and 176 different models.

Still another feature of the Portland show is the truck show held in connection with it. For the first time on the Pacific coast a show will be devoted exclusively to trucks. The truck section of the show will be held in the Portland armory, only a few blocks from the Ice palace, and one ticket will admit the bearer to both shows without additional cost. There will be 50 different makes of trucks on display, and approximately 100 different models.

"SYRUP OF FIGS" CHILD'S LAXATIVE

Look at Tongue! Remove Poisons From Stomach, Liver and Bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear.

Mother! You must say "California."

CITY COMBED BY WORKERS OF SCOUTDOM

Salem Business Men Are Backing Local Boys to the Last Trench

BIG BUDGET IS OBJECT Worker Appeals to Public to Come up to Date in Support of Work

At 9 o'clock Monday morning at the Commercial club rooms, a score of business men gathered and started out to comb the city for the required fund to put Salem on the map in boys' welfare work. These were men of many personal interests—men who are making great sacrifices in order to put the scout program at the disposal of Salem leadership.

These men have studied the situation carefully, know the crying need of proper programs and methods for the training of a real citizenship and they are sworn to put this proposition over the top. Salem must have the scout program. At the present time there is no other institution caring directly for the needs of Salem boys, and Scouting offers the one solution of an immense problem. Results yesterday were not yet ascertained late last night.

Do your duty by your civic interests today. Subscribe your Scout budget, and assure your city of a clean, virile, community loving citizenship when you drop off the line.

The Boy Scouts of America is a paying proposition for Salem. To every citizen who invests in the boyhood of his community, there comes back 100 per cent dividends. This is true because Boy Scouts learn how, through a wonderfully constructive program, to build civic interests, because Boy Scouts have an abiding passion for law and order, and because scouting marshals in the virtues of manhood that guarantee a civic interest and pride that can do no other but make future citizenship of a Salem home-grown product.

And more than that! The citizenry of Salem will, through Scouting, have been trained under expert, patriotic, broad-minded leadership who know the value of the investment.

Thousand Boys Eligible

At the present time there are nearly 1000 boys in this community who are eligible for Scouting. Boys who are the making of men—kinds who will become men in a very few years—and the city of Salem must awake to the fact that now is the time to prepare for the future.

To put a method that will work, a program broad enough to cover all abilities and equipment which will attract, in the harnessing of the possibilities of Salem youth is the biggest job that any civic community has ever had to face. Scouting offers a program already put to the test. Scouting does work, and it is Salem's task to fire the boilers that produce the steam where by 1000 of Salem's boys are fed to the machine that will produce clean, virile manhood. Scouting is not a passing whim. It has come to stay, if Salem will only play the good host.

Plea to Public Made

The Salem business men who are trying to put this program over the top need \$5000 worth of Salem grit courage and stick-to-it-iveness in order to put the machine in proper motion. The future manhood of an entire community is waiting the outcome. Will Salem face the situation squarely upon a sound foundation, or must we still linger in the backwoods of civilization regarding our boys' organizations and their training and education?

ALL EYES ARE ON ARMS (Continued from page 1)

After more than an hour spent in introducing evidence tending to prove ownership of the guns, defense counsel stipulated to admit the states' contention of ownership of all with the exception of a 38-55 rifle which the state alleges was owned by Eugene Barnett, and which rifle, on the motion to suspend the rules and another on suspending the vice president when he overruled Senator Norris' point of order against the motion to reconsider the ratification vote. The latter resulted in a count of 62 to 10, the irreconcilables alone refusing to back up the ruling of the chair. Later Senator Norris made a speech bitterly criticizing the parliamentary methods by which the treaty's reconsideration was accomplished.

ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a teaspoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the ras-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithium and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.

MITCHELL LEWIS "CODE OF THE YUKON" SELECTED PICTURES

YE LIBERTY

It is claimed, was fired by Barnett and killed Grimm.

Attorney Vanderveer attempted to work the automatic rifle, but without success, until advised by Barnett how to release the catch. It was the first time any of the defendants has spoken aloud in court. A. C. Hughes, chief of police of Centralia, also was called to identify the weapons. Efforts to trace the sale of the 38-55 rifle have not been completed, the testimony indicated.

Witnesses Are Excluded.

All witnesses were ordered excluded from the court room late today by Judge John M. Wilson.

Attorney Vanderveer was notified today that Dr. Donald Nicholson of Seattle would not be able to examine Loren Roberts, one of the 11 defendants, in an effort to determine his sanity, and it is understood the court will be asked to authorize some other alienist to make the examination.

A Portland physician will be requested to make the examination, Vanderveer intimated.

The prosecution will continue the introduction of exhibits tomorrow, it was said today. It was thought that this phase of the case would be completed during the day and the taking of evidence which would detail the shooting started.

Witness is Quizzed.

Sheriff **BERRY** in his testimony today relative to the rifle, revolver and pistol exhibits, said that Bert Bland had in effect admitted taking his (Bland's) rifle to Seminary hill and that O. C. Bland had admitted taking his rifle to the Arnold hotel.

A 32-20 rifle was produced.

"Did you ever show that rifle to Bert Brand?" Prosecutor C. D. Cunningham asked.

"Yes sir," answered the sheriff.

"What did he say?"

"He claimed ownership of the gun."

"When did he say he saw it last?"

"He told me he threw it away on the railroad track near Galvin."

"And before that?"

"He said it was the gun he had on the hill."

"What hill?"

"Seminary hill."

A similar answer was given when the rifle of O. C. Bland was produced.

CUT THIS OUT—IT IS WORTH MONEY

DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup, Foley's Kidney Pills, and Foley's Cathartic Tablets. J. C. Perry.

PEACE TREATY ONCE MORE IN COLD STORAGE

(Continued from page 1)

In asking that the committee be instructed to return to Republican reservations along with the treaty, Senator Lodge declared the stipulation would bind no one and was requested merely to get the reservations back before the senate for possible revision. When that has been done, he is expected to propose modifications agreed on by the disbanded bi-partisan compromise conference, thus opening again the whole field of compromise discussion.

Both Parties with Differences.

In all quarters it was emphasized tonight that smoothness of the day's proceedings was not to be taken as assuring any agreement between the parties on reservations. Although many senators professed to be hopeful of ratification, it was conceded everywhere that many differences still stood in the way. There were evidences also that the irreconcilable group had plans of its own to magnify these differences as much as possible.

BLANTON AND NOLAN CLASH ON GOMPERS

Texan Declares Labor Program Greatest Menace Ever Sounded in Nation

CALIFORNIAN COUNTERS "Congress of Serfs," Says Southerner, Threatens Life of Country

WASHINGTON, Feb. 9.—The first reaction in congress to plans of organized labor for intervention in the coming political campaign came today in the house. Attacking the labor announcement as a "pronouncement against congress," Representative Blanton, Democrat, Texas, said it was "the greatest menace ever sounded in this country."

Representative Nolan, Republican, California, defended labor's program and charged that Blanton, in a previous extension of remarks in the congressional record, had "stolen in as a thief in the night." Mr. Blanton cut the defense short by objecting to Mr. Nolan's remarks.

The Texas member declared "the showing of Samuel Gompers' hand is going to wake up the people of this country."

"Whenever Samuel Gompers puts his hand on a representative and says 'elect him' the people will keep that man at home," said he.

"For once I heartily agree with Gompers and his associate leaders when they say 'a national crisis is threatening the institutions of the country,'" Blanton continued.

"When an organized minority of less than 5 per cent of the people can control legislation and now threaten to elect a congress of serfs, it is indeed 'a national crisis,' threatening the institutions of the country."

Declaring Mr. Gompers wanted to elect a congress "pledged to carry out his orders," Blanton said it behooved "all Americans who love their country to find out the names of the candidates Gompers is trying to elect and elect the other man in behalf of the people."

Be Young for Your Years

You were taught at school that your body undergoes a complete change of structure every seven years.

This tearing down and building up process of body tissue continues without a moment's pause throughout life.

And when a man gets into a physical condition that the tissues keep breaking down and wasting away faster than Nature can replace them, right then he begins to grow "old."

This doesn't necessarily mean, however, that he has reached an advanced age. Thousands upon thousands of people begin to break down, their vital organs giving evidence of fast approaching decay, long before they reach middle age simply because they fail to give Nature, at the proper time, the needed help to rebuild.

If you are beginning to show the slightest sign of a physical "let-down"—if you are losing your old time "pep" vim and vigor—if high tension energy and nervous strain are beginning to tell on you—it's a sure sign that you are growing "old"—too old for your years. You've reached that stage where your vital forces need rebuilding. Don't make the serious mistake

of postponing until too late the assistance Nature requires; commence today to take

LYKO

The Great General Tonic

LYKO enriches the blood, thereby helping Nature replace worn-out tissues, and tends to tone up the system generally by keeping the liver, kidneys and bowels clean, healthy and active. It creates hearty appetite, assists digestion, promotes your capacity for real living and helps to keep you young in feeling, vigor and action.

If your system requires a tonic, take LYKO. It will give you just the help you need. Get a bottle from your druggist today.

Sole Manufacturers **LYKO MEDICINE COMPANY** Kansas City, Mo. New York

For sale by all Druggist. Always in stock at Perry's Drug Store

Albany Teachers Quit Because of Short Pay

ALBANY, Ore., Feb. 9.—As a result of the recent violation agitation on the part of Albany school teachers for increased salary and a refusal of the school board to grant the increase, 400 teachers have resigned. The teachers have already been granted a 15 per cent raise over their contracts but in a recent petition to the board, signed by all but five of the instructors they request-

ed another raise of 20 per cent. In a special meeting of the school board Saturday night this request was refused and the resignation of four teachers was accepted.

LEONARD BEATS DUNDEE.

JERSEY CITY, N. J., Feb. 9.—Benny Leonard, world's lightweight boxing champion, outfought Johnny Dundee of New York in every round of an eight round bout here tonight. Dundee put up a stiff battle but the champion outpunched him throughout. Leonard weighed 136 3/4 pounds and Dundee 131 1/2.

BLIGN THEATRE

SIGHT Is Most Precious Faculty

We can ill spare any one of the faculties with which we are endowed but of the five senses we can least afford to lose that of eyesight; which, after all, is but another way of saying that vision is our most precious gift.

The total loss of vision is justly regarded as a dire calamity. The terror of which is diminished by the consoling reflection that very few ever go blind.

Ignorance and Injury

The people of today are inflicting grave injury upon their eyesight, simply because they do not understand it until too late. Neglect is robbing us of good vision.

Eyesight changes constantly, but so slowly that it is not until the harm is done that suspicion is aroused.

Town Dwellers' Eyes

Most modern occupations entail excessive use of the eyes at close range—and a few years of such concentration is sufficient to render most eyes almost incapable of seeing anything distinctly at a greater distance than that to which they have grown accustomed.

Reading, needlework, and all similar "close work" inevitably affects the eyes more or less seriously, according to their natural strength or otherwise.

Fine Metals Make a Fine Car

As a car is 98% metal you can readily imagine how great a part metals play in its quality. A Maxwell is made of fine metals—extra fine metals; otherwise it never could have survived those 1,500,000,000 miles that owners are estimated to have driven it.

These metals had to be of the finer grades in a Maxwell. For a Maxwell is light—2130 pounds. Lighter metals had to be used but lighter in weight only—not in strength.

Such metals are the extra fine metals that the great science of metallurgy has produced. They are high priced. But they have won countless friendships for Maxwell, developed a great family of owners approaching 400,000 in number.

This vast number is growing daily at the rate of 100,000 per year.
