SALEM IS THE DEHYDRATION CENTER OF THE WORLD

Do you realize what that means?

It means that there is a market, and a growing market, for every vegetable and fruit that can be raised on the land in this territory.

And that means more than is apparent to the stranger at first glance; for a greater variety of fruits and vegetables can be successfully grown here than in any other part of this country or the world.

Dehydration is the greatest thing in the world, in food conservation.

It takes out the water; the consumer puts it back, at any time in the future, anywhere under the shining sun—and then he has the fruit or the vegetable as good as fresh, in every nutritive quality, and in every other way.

The saving will be billions, annually. And all the money comes to Salem excepting what is expended for the nails in the shipping boxes.

Better than a gold mine; for it will never "pinch out."

SALEM SLOGAN PAGE

On this page are some of the outstanding concerns which and men who have put Salem on the map and are helping to keep it there

THE SALEM DISTRICT A POTENTIAL GREAT POTATO COUNTRY

The potato is the most important of all vegetables. It is the world's greatest crop. Will always be. The farmers in the Salem territory can lead the United States in potato growing. They can double the price by growing seed stock. Nature has done its part; man should do his. Loganberries, Prunes, Dairying, Flax, Filberts, Walnuts, Strawberries, Apples, Raspberries, Mint, Great Cows, Blackberries, Cherries, Pears, Gooseberries, Corn, Celery, Spinach, Onions—nineteen of them; with thirty-three or more yet to follow. It will be bee keeping next week. Our great fruit districts must have more and more bees.

Again: This is YOUR Slogan campaign. Help. Suggest a slogan.

DID YOU KNOW that Salem is the market and manufacturing center of a great potato industry; that we can grow here at a big profit the seed stock for neighboring states; that, with proper seed selection, planting, cultivation, grading and packing, we can compete with any market in the United States; that all the surplus will be taken for dehydration here; that no farmer can make a mistake in growing in this territory the right kind of potatoes?

The only way to determine what a thing is worth is to figure its value in profit. Have you ever figured to find the value of a bookkeeping or stenographic course? If not, you should. Nothing could pay you better dividends throughout life.
