reached a layer of dense rock of shale it may be held in check for ages, or until the stratum is broken by an earthquake or pierced by the iron drill of a prospector.

When gas is found it naturally follows that there is a deposit of crude oil somewhere in that region. But just where it may be located; yesterday, has set a number of local how deep below the surface it may lie; and, if discovered, does it exist in paying quantities? These are Their curiosity is intensified by questions that naturally come to us the fact that not so very far north, when we are confronted by the disat Amity, a prospect oil well is be- covery of natural gas, such as is now ing put down and from which nat- attracting attention in Polk and Yamhill counties.

"Several very productive oil fields oil, that is, it arises out of a deposit have been discovered through indiof petroleum," said an easterner yes- cations less encouraging than those terday, who has had several years on the west side of the river. I am of experience in oil fields in eastern told that at Amity traces of petrole-"Natural gas is volatile and um have been observed escaping, satfinds its way upward through crev- urating leaves and twigs which burn ices and porous strata above the oil freely when touched with a lighted match. That cetrainly is encourag-

> Oil Traces Are Found. "It may be of interest to know that it was surface indications that led to the discovery of the great oil fields in Mexico. Oil had been com-

before Columbus discovered America. "Not so many years ago several nervy American prospectors for oil wanted to find out the significance of these oil exudations. They drilled down to find out. And they did find

ing to the surface down there even

"The industrial world now stands amazed at the enormous output of he oil wells in the Mexican field. One well they call Cerro Azual No. 4 is the biggest producer of oil that has ever been discovered. When the drill was sent down in that well it punctured the oil pool at a depth of 1752 feet. The rush of oil and gas was so terrific that the derrick was blown away, the iron drill, weighing two tons. was thrown high into the air and the rushing torrest of oil shot upward 600 feet where, for a week, it stood like a great, black swaying columnt, drenching, with oil Oil Output is Large.

"Engineers estimate that over a million barrels of oil escaped from this gusher during the seven days may be possible to keep up the exbefore the flow was gotten under

"Of course, we may be hoping too much to expect such a startling discovery in this territory. But who knows? Who can tell? There is but one way to find out, and that is by sending a drill down to where C the oil deposit lies.

"To do this requires faith, resolution and money. These are the trin-ity with which a real oil prospector must be endowed. Of these three, Best shortening, No. 5 pail money is the most important. Who has got the faith and nerve to spend enough money to find the oil field west of Salem?"

300 Fordsons To Be Released for Oregon, Report

The Valley Motor company are in receipt of advices from Ford Motor Co. to the effect that the Fordson factory has promised 300 Fordson ractors for Oregon next month.

This promise of the Fordson fac-tory is based on their understanding

Corps of Organizers Will Come West Early in June to Start Big Drive

Echo of the convention held here recently to organize the United Land and Labor party is contained in a dispatch received from Non-Partisan headquarters at St. Paul to the effect that organizers of that body will come to Oregon next June to "fifrther the interests" of the farmers of

this state. J. C. Dorman, a worker in the league, was in Portland this week from the east, and will assist in the

"Dormand declared that the program of the United Land and Labor party of Oregon was even more practical than that of the league in North Dakota," said Mr. Coulter of Portland.

The executive board of the United Land and Labor party of Oregon will meet Saturday to lay plans for working out the program planned by the convention at Salem, according to Coulter. No move will be made to place candidates in the field this year, Coulter said, but immediate steps will be taken to get at least two measures before the people. These would provide for the initiative and referendum applying to the primaries and for a scheme of voting

o ftractors must be allowed this state to permit its steady growth and development.

The Ford Motor company insist, however that on the receipt of the tractors they must be delivered immediately and the Oregon agents have gone on record that they will

With the wonderful soil and climate of the Willamette valley and the national advertising now being done we can at least feel that Oregon is coming into its own. Land values are steadily increasing, because of the wonderful opportunities in farming and the growing demand for Oregon products. Power farming has solved the question of our great state, and evidently the Ford Motor company has caught the vision of the future of this state and is doing their part to materialize that vision.

It now rests with the Oregon farmer to back his own project and justify the Ford Motor company's action of making these extra allot-ments of farm tractors. With an insistent demand for tractors from every state in the union, Oregon has been favored, and if the response of the farmer is what it should be, it tra shipments and our great state unfold and develop beyond even our greatest expectations.

YOU CAN'T BE TOO CAREFUL. Elsie O'Brien, R.F.D. 7, Vincennes, Ind., writes: "One bottle of Foluy's Honey and Tar Broke up my cold right away." It relieves coughs, colds croup and whooping cough; clears the passages, soothes irritated mem-branes and stops tickling in the throat. Foley's is the original and genuine Honey and Tar. J. C. Perry.

PIONEER WOMAN

Mrs. Eliza Zieber McIntosh Was Daughter of Early Sheriff of Multnomah

Coming as a shock has the an-nouncement of the death Thursday of Mrs. Eliza Zieber McIntosh, member of the well known pioneer family of Oregon, and a cousin of Miss Sally Bush, and A. N. Bush of this city. Mrs. McIntosh had been in poor health for some time but her death came sudden and unexpected. Death came at 2:30 yesterday afternoon at

her home in the Court apartments. Eliza Zieber was born at Wheatland, Oregon, and spent her childhood days in Salem and Portland, where her father, Albert Zieber, was a prominent hotel owner, and at one time sheriff of Multnomah county. She attended St. Helens hall. After her marriage to Mr. McIntosh she lived in Tagoma for a number of years and later in Eugene for a time She came to Salem about two years She was a member of the Episcopal church, and was 62 years old.

Wally Rhodes Escapes Injury But Is Badly Frightened As Result of Smash

Wally Rhodes, driver of the Saem Steam laundry delivery car No. miraculously escaped serious injury yesterday evening, when the car he was driving was struck by a northbound Oregon Electric train at North Commercial and South streets. The auto was practically demolished and Rhodes escaped free of injury whatsoever.

Mr. Rhodes was driving south on Commercial street and turned to cross the track, when the train struck the delivery car and swept it across the street to the curb. Rhodes clung to the steering wheel of the machine and did not receive even a
