

IN A SOCIAL WAY

By RUTH LENORE FISHER

Mr. and Mrs. T. A. Livesley are home again after several weeks sojourn in California. The first few weeks were spent in San Francisco where Mrs. Livesley was quite ill with pneumonia but later on when she was able to travel they went south and spent the remainder of the time.

Mr. and Mrs. W. D. Clarke entertained as their guests for dinner Sunday evening Mr. and Mrs. C. J. Green and children.

Mr. and Mrs. F. A. Elliott will go this morning to Newport to pass several days.

R. A. Cox of San Francisco, where he is superintendent of the American Railway Express company has gone to Seattle after passing a short time in Salem as the guest of Mr. and Mrs. F. B. Southwick.

Society folk will be interested to know that David Eyre and Harry Hawkins who recently exchanged residences, have moved into their newly purchased homes. The Eyres are now domiciled in the former Hawkins home at Twelfth and Oak streets and the Hawkins are in the former Eyre home at 1635 State street.

The many friends of Mrs. Zadoc Riggs, who has been ill with the grip at her home on State street will be glad to learn that she is recovering nicely.

Miss Pearl Carson and Miss Helen McInturf have returned from a few weeks' visit at Grants Pass with Miss McInturf's parents.

The many friends of Miss Helen Hoover, a Willamette university student of Portland, will be sorry to learn that she is quite ill at her home on State street with influenza.

Friends will be glad to learn that Dr. John Wilson of Reno, Nevada, who has been visiting in Salem for a time is recovering from the serious operation which he underwent Sunday evening at the Willamette Sanitarium. Mrs. Wilson arrived Tuesday night from her home in Reno and is with her husband.

Flowers and cheery notes are finding their way to Mrs. H. Craig Marvin who is quite ill at her home with influenza.

The many Salem friends will be glad to hear from Mrs. R. J. Fleming, who was a well known Salem woman a number of years ago and who is now living in Omaha, Neb., that she contemplates a visit to Salem in the near future.

Miss Marjory Fiegel, a student at Willamette university has gone to her home in Portland.

The Ladies Aid society of the First Presbyterian church will be entertained Friday afternoon at the home Court street. Mrs. Alice H. Dodd's address will be the feature of the afternoon. The assisting hostesses will be Mesdames R. A. Klein, F. L. Klein, W. W. Moore, H. J. Clements, and George M. Brown.

The many friends of Mrs. C. W. Niemeyer are sorry to learn that she is ill at her home with influenza.

Mrs. B. L. Steeves has gone to Portland where she will visit with her son and daughter-in-law, Mr. and Mrs. Laban Steeves.

The many friends of the Mark McCallister family will be glad to learn that they are recovering from influenza.

The many friends of Miss Virginia Mason will be glad to learn that she is recovering from the influenza.

The friends especially in the college set where she is popular will be sorry to learn that Mrs. Mary Spalding is ill with influenza.

JURORS DRAWN FOR COURT TERM

Two of 31 Names Selected by Clerk Are Eliminated by Officials

Names of the men that are to serve as jurors during the March term of the circuit court of Marion county were drawn yesterday. Of the 31 names drawn, one man is deceased and another has moved outside the state. The March venire for the circuit court includes:

H. F. Craig, Henry Keene, J. K. Mount, George N. Thompson, J. Fred Palmer, Anthony Gregson, W. E. Warr, S. L. Frezier, John B. Craig, Frank F. LaBare, Malcolm Ramp, E. E. Gilliam, Gideon Stolz, Harry Roland, N. S. Scollard, John A. Gearin, E. E. Keene, Florian Von Eschen, Mark Skiff, E. N. Gillingham, Joseph Calvert, J. W. Harriet, John F. Manning, Fred J. Miller, Harvey Smith, William McGilchrist, Christ Paulus, C. A. Roberts and Roma C. Hunter.

YOU CAN'T BE TOO CAREFUL. Elsie O'Brien, R.F.D. 7, Vincennes, Ind., writes: "One bottle of Foley's Honey and Tar Broke up my cold right away." It relieves coughs, colds, croup and whooping cough; clears the passages, soothes irritated membranes and stops tickling in the throat. Foley's is the original and genuine Honey and Tar. J. C. Perry.

HERE IS DIXIE'S REMEDY For COLDS And "FLU"

Where Vicks Began

The Drug Store in which O. Henry Spent His Boyhood

This is the drug store in Greensboro, N. C., purchased by Mr. Lunsford Richardson in 1838 from Dr. Porter. Dr. Porter was the uncle of "Will" Porter, the author of the pseudo-plume of O. Henry, because America's greatest short story writer, O. Henry, practically grew up in this store and learned here the profession of pharmacy.

It was during his years behind the prescription counter of this drug store that Mr. Richardson worked out the formula for Vicks.

Directions for the Use of Vicks

VICKS VapoRub comes in salve form. When applied to the body its action is two-fold.

1st.—INTERNAL. The heat of the body releases the ingredients in the form of vapors. These vapors are inhaled with each breath, carrying the medication through the air passages to the lungs.

2nd.—EXTERNAL. In addition, Vicks is absorbed thru and stimulates the skin, attracting the blood to the surface and aiding the vapors inhaled to relieve the congestion.

For Deep Chest Colds, Sore Throat, Bronchitis, Coughs, Hoarseness

For severe cases, hot, wet towels should be applied over the throat and chest to open the pores of the skin. Then Vicks should be rubbed well in, spread on thickly and covered with two thicknesses of hot, flannel cloths. The clothing should be left loose around the neck and the bed clothes arranged in the form of a funnel, so that the vapors arising may be freely inhaled.

For Head Colds, Asthma, Croup, Hay Fever, Whooping Cough

For these troubles, Vicks can be used as for chest colds or can be inhaled in a

succin and the vapors inhaled in a little applied up the nostrils and snuffed back into the air passages.

For Spasmodic Croup and Children's Colds

Vicks is particularly recommended for children's colds, since it is externally applied and can, therefore, be used often and freely with perfect safety. For spasmodic croup, rub Vicks over the throat and chest until the difficult breathing is relieved; then spread on thickly and cover with a hot flannel cloth. An application at bedtime usually prevents a night attack of croup.

For Use as a Liniment, Poultice or Plaster

On account of its penetrative and rubefacient effect on the skin, Vicks has been found excellent for many minor ailments, such as Bites, Boils, Burns, Bruises, Cuts, Frost bite, Itchings, Muscular Soreness, Poison oak, Sunburn, Headache.

Vicks is Not Meant to Replace the Physician

At the first symptoms of a serious illness, such as pneumonia, a physician should always be called. Many other troubles, such as chronic catarrh or continued headache, call for the diagnosis of a good doctor. Vicks is simply an emergency remedy, which can be kept

"An 'out-side' treatment that comes in salve form. Applied over throat and chest the body heat releases the ingredients in the form of vapors. These vapors inhaled with each breath carry the medication direct to the lungs and air passages."

How the Use of this External Treatment for Cold Troubles Has Grown

MORE than a score of years ago, Lunsford Richardson, a druggist in a little North Carolina town, was trying to find a new way to treat spasmodic croup and colds. He had been trying to find it for years—he needed such a treatment in his own home—he knew that epicac and internal medicines disturbed the delicate digestions of children—that the only way to get medication directly to the air passages and lungs was in vapor form. So he was searching for an effective vapor treatment which would be economical, convenient, and which could be used without the necessity of closing up the sick room and thus excluding the fresh air, so important in the treatment of colds.

At last, this druggist found a process by which he could combine in salve form the standard, time-tested remedies—Camphor, Menthol, Eucalyptus, Thymol and Turpentine—with other volatile oils so that when this salve was spread over the throat and chest the ingredients would be vaporized by the body heat. These vapors, inhaled with each breath all night long, carried the medication directly to the parts affected and at the same time the

salve was absorbed thru and stimulated the skin, aiding the vapors inhaled to relieve the congestion. This product was named Vicks' VapoRub.

Now over 17 Million Jars are used yearly

Vicks was found to be good for a great many troubles besides spasmodic croup, and as time went on, its sale increased county by county and state by state, until now over 17 million jars are used each year—almost one jar for every family in the United States. And this in spite of the fact that Vicks is still a new form of treatment to many people in the North and far West.

The best testimony to the value of Vicks is the increasing number of families who, each year, are converted to the use of this real "Little Bodyguard in the Home."

Here is the record of the number of jars used annually for the last few years:

1910	347,748 Jars
1911	523,152 Jars
1912	1,027,068 Jars
1913	1,357,590 Jars
1914	1,402,220 Jars
1915	2,110,112 Jars
1916	2,322,704 Jars
1917	2,703,541 Jars
1918	2,377,408 Jars

Physician should always be called. Many other troubles, such as chronic catarrh or continued headache, call for the diagnosis of a good doctor. Vicks is simply an emergency remedy, which can be kept

in the home ready for instant use and which can be used freely, with perfect safety, on the youngest member of the family.

Samples Free

If you have never tried Vicks, we will be glad to send samples free to you and any

of your friends whom you would like to address you will send us.

Address THE VICKS CHEMICAL COMPANY, 100 Milton Avenue Greensboro N. C.

Where Vicks Is Now Made

This is the present plant of the Vick Chemical Company, Greensboro, N. C., employing a force of 297 people engaged exclusively in the manufacture and marketing of one preparation only, Vicks' VapoRub.
