

BOYS AND THE BOY SCOUTS

(Continued from last Sunday).

Normal or Sub-Normal.
Grown up people are interested in the youngsters. We speak of the mentally grown up people. If an adult is not interested in youngsters, we earnestly advise such a one not to advertise the fact. It really suggests to boast about. It really suggests some sub-normal condition. Rest and zone of quiet, are the best prescription.
"I accept most cheerfully your invitation to serve on the national executive committee for national-wide recognition and development of the Boy Scouts of America."
So wrote Byron R. Newton, col-

lector of customs at the port of New York to Hon. William G. McAdoo, chairman of the executive committee of the citizens' national committee. Hon. William Howard Taft, former president of the United States, is on that committee. The governors of many of the states are working on committees under the executive committee.
This is the normal reaction to the needs of our boys whose training rests in our hands. This will be Salem's response. Salem is not sub-normal.

The Boy and the Ten Spot.
The Salem Council of Boy Scouts is made up of representative citizens who have been giving a good deal

of time to the careful consideration of what other cities are planning to do in the scout movement. They have been meeting once a month to hear reports of various committees, appointed to investigate along different lines.

After long and careful consideration of these reports and a conservative weighing of how certain experiments undertaken quietly here, are working out, the Salem council decided to present the great opportunity which Salem now has to her citizens and recommend that this city get into the campaign with the goal of making Salem the first city of her size in scouting.

To do it we must reckon that Salem will invest a ten spot in every boy. There isn't a Salem boy that isn't worth that and a good deal more.

Twelve full months of scout training for \$10.
If it were \$10 a month it would be a reasonable tuition. What will be given could only be obtained at this low price by the unpaid service of many men who are volunteering their time, effort and energy.

About Three Per Cent of What Salem Did.

When our older boys went across the sea to fight for the things which America means in the world, it was our pride that Salem tied up with the nation. Salem was a first-class American city according to her size. That was something to be proud of. It will always be something to be proud of. Salem wrote a record of which no citizen need ever feel ashamed.

That record was only possible because many of Salem's representative

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING

The experience of Mr. E. J. Toupalik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief."

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins, bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

citizens gave freely of their time, their effort, and their energy. But the record is written in terms of money. Money flowed from Salem's pockets. Bank accounts were tapped. We did these things for the fighting boys.

The price of progress is to do something bigger for America's growing boys than has ever been done before. This is a national movement. It is approved by a presidential proclamation. It is backed by the leading citizens of the country. Salem must tie up with America in this campaign.

What Salem did for her fighting boys was done through the Patriot's Fund. We subscribed \$30,000 a year for the period of the war for our fighting boys.

We are now asked to subscribe about 3 per cent of that sum for Salem's growing boys to tie Salem up with America in the Boy Scout movement.

A Nickel a Month.
If you keep the \$10 you will probably blow it on yourself and have nothing to show for it. If you put it in the scout slot you will have a full year's development of a boy to show for it.

But suppose you keep the \$10 and invest it. Ten dollars in capital on an average investment might bring you clear a 50 cent profit. Sixty cents a year. That is a nickel a month. What is that in your own estimation compared with a full year of scouting for a boy?

It Looks Like Thirty Cents.
Salem has about 25,000 people within her city limits. One thousand of these are boys eligible in age for scouting. One thousand boys who are under scout training will be "physically strong, mentally awake, morally straight." Ten dollars per boy if we enroll half of them. Five dollars per boy if we get them all.

Thirty cents per capita for the residents of Salem will do the job. Two and a half cents a month per person. That is what 30 cents means.

The total means a thousand to two thousand boys given a full year of training in physical strength, mental alertness, and moral cleanliness.

Salem never had such an opportunity to get big character dividends on an investment.

Salem never had such an opportunity to be the first city of her size in the land in a great moral and educational movement.

Salem is as interested in her growing boys as she has been and is in her fighting boys.

Salem will give her growing boys what they need as she gave her fighting boys what they needed.

Salem will do this job because she is intelligent.

Salem is not sub-normal.

(To be continued next Sunday).

SALEM MEN BUY GROCERY STORE

New Firm of Carl & Bowersox Plan Thorough Service for Patrons

The No-Vary Grocery at 283 Court street was purchased February 27 by August Carl and F. G. Bowersox, both well known Salem men who have lived here for many years. The purchasers took immediate possession and will conduct the store under the name of the "Carl & Bowersox Grocery."

The front of the store will be remodeled and slight changes will be made in the interior. A first class line of goods will be carried and the new owners who are familiar with every line of the grocery business, will render as perfect service as is possible.

They will operate an auto delivery service which will make regular systematic trips to different sections of the city. They will buy farm produce such as eggs, butter, etc., paying the full market price therefor.

The proprietors are substantial Salem citizens and property owners. Mr. Bowersox was born in Salem and has been in the grocery business for a number of years as proprietor of the New Park grocery. During the last five years he has been traveling salesman for Gile & Co. He lives at Twelfth and Leslie streets.

Mr. Carl has lived in Salem for 17 years. The last 13 years he has acted as head clerk at the R. D. Gilbert & Co. Grocery. Previous to that time he was for four years at the state hospital. He and his fam-
