By RUTH LENORE FISHER

MISS Ann Lang, Mrs. Francis V. Galloway, Mrs. John Gavis and daughter, Miss Grace Gavis, formed a party who returned to their homes in The Dalles after a several days' sojourn in Salem as the house guests of Mrs. A. S. Bennett.

The friends of Mrs. U. G. Holt will be glad to hear that she has left the Salem hospital, where she underwent a serious operation a few weeks ago and is now at her Oak street home.

Mr. and Mrs. Elmer Daue were happily surprised at their home Saturday evening when a group of friends formed a party to help them celebrate their eighth wedding anniversary. Dancing and music made the evening most enjoyable and afterward the guests opened their baskets and a dainty supper was enjoyed. Those who made up the party were Dr. and Mrs. O. A. Olson, Mr. and Mrs. L. W. Gleason, Mr. and Mrs. P. E. Fullerton, Mr. and Mrs. J. C. Perry, Mr. and Mrs. Lester Davis, Mr. and Mrs. Herbert Stiff, Mr.

and Mrs. Lee Canfield and Mr. and Mrs. Elmer Daue.

Mrs. D. C. Burton will entertain the North Salem Woman's club at her home, 965 North Church street, this afternoon for the regular monthly meeting.

Miss Lena Smith of Astoria has left for her home after a short stay in Salem as the guest of Mrs. A. J. Gragg. Miss Smith was a delegate from Astoria to the state Daughters of the American Revolution conference in Albany.

Mrs. J. B. Littler is entertaining as her house guest Mrs. S. G. Drake of Drain who will spend the week in Salem.

The many friends of Mrs. Robert Kinney of Astoria will be happy to hear that she will arrive in Salem today for a visit at the home of her parents, Mr. and Mrs. A. N. Moores.

Mr. and Mrs. George Hurst of Silverton have returned to their home after a few days visit in Sa-

lem at the home of Mr. and Mrs. L. M. Reeder.

Miss Clara Smith has returned from a short sojourn with friends in Portland. She attended the funeral services of Miss Etta Mulvey Sunday at the Portland crematorium.

Miss Marian Cummins, Mrs. E. L. Harrington, Mr. and Mrs. C. M. Wickham and O. A. Steel of Portland formed a party who spent Sunday in Salem paying social calls upon their friends.

The many friends of Mrs. Mary Howell, who has been passing the winter in California, will be glad to learn that she left the south yesterday and will arrive home Friday.

The miscellaneous program arranged by the Kimball School of Theology for the concert to be given tonight in the basement of the First Methodist church will be a very pleasing one. Some of Salem's best artists will appear and the proceeds will be used for the expenses of the endowment fund.

Friends are happy to welcome back again to the social life of the city, Mrs. Joseph McAllister, who has been ill with influenza.

A group of Portland young men who were house guests of Mr. and Mrs. Theodore Barr for a short sojourn have returned to their school at the Columbia university in Portland. In the party were Henry Barr, Patrick Fitzpatrick, Raymond Cud-

## Alkali in Shampoos Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified coconut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, flidly, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

hayee, James Johnson, William McCarthy, Clarence Dawson, John Agee.

Mr. and Mrs. Clifford Armstrong of Laurel avenue announce the birth yesterday of a son, who has been named James Elmer.

They are still holding weddings at "high noon," but, at that, the noon is no higher than the coat of the wedding.

## "HONOR ROLL" IS PUBLISHED BY DEPARTMENT

Red Book Is Issued After Preparation by N. C. Maris, State Leader

CLUB WORK FEATURED Work of Boys and Girls of Schools Inspires Annual Publication

There has just been issued from the office of J. A. Churchill, state superintendent of schools, the "1920 Red Book," prepared by N. C. Maris and issued annually as a treatise on industrial club work of the boys and girls of Oregon schools. Mr. Maris is industrial club leader of the state department of education.

Sometimes the book is known as the "annual honor roll," for the reason that it is largely made up of pictures and stories of boys and girls who are winners in club work at the state fair.

Contentment Is Need. "The paramount need of the day is efficient, contented, producing citizenship, especially in the rural

districts," says Mr. Churchill in the foreword. "The fundamental object of industrial club work is the making of that kind of citizenry. Self reliance and a realization of personal responsibility are among the most important traits that compose that kind of citizenry, and the boys and girls who do club work are developing these traits. Especially are you, who win in the statewide contest and write your stories for this booklet, getting good lessons. I want you to feel that this is your book, and that in writing your story you are bearing your part of the responsibility of encouraging others to take up this work.

"The lessons and experiences you are getting in this work will serve you well in future life. Let the feeling of personal responsibility become a well established trait of your character. Whether you are to be a farmer, a stockraiser, a carpenter, a lawyer, a school teacher or a housekeeper, ever bear in mind that you are a part of the government just as much as any other citizen in any other walk in life.

Influence Important. "As such, do not shirk your responsibility, realizing that to a certain extent you are responsible for conditions as they exist in your district, in your county, in your state and in your government. No man can live unto himself alone. You exert an influence either for good or evil and whether your specialty is the production of better corn, better potatoes, better pigs, better poultry, or the preparing of better meals or the building of better homes, realize that your work is as important as any other. Always strive to do your best and the world will be better from your having lived it."

### Influenza No Bar to Cupid's Darts

VINCENNES, Ind., March 6.—The fact that he was confined to bed with influenza and the minister would not enter the room did not keep William G. Isaac from marrying Mrs. Nellie Farrar here recently.

The minister stood on the porch, while the bed-ridden groom and his bride were in the second room beyond. The family witnessing the ceremony sat in the living-room between the minister and the couple being married.

The bride, following the ceremony, established herself as nurse and immediately took charge of Mr. Isaac.

### Toledo, Ohio and Charlotte, N. C. Grow Some

WASHINGTON, March 6.—Population announcements for 1920 issued by the census bureau tonight were Toledo, Ohio, 243,109, an increase of 74,612, or 44.3 per cent over 1910.

Charlotte, N. C., 46,318, an increase of 12,304, or 26.2 per cent.

### No Sun Bakes For English Bathers

BOURNEMOUTH, Eng., Feb. 19.—Bathers at this famous holiday resort will not be allowed to loiter on the sands or bask in the sun during the coming season, for the corporation has drawn up the new following by-law:

When intending to bathe persons are to proceed direct from their bungalows, tents or bathing screens to the water; and after bathing to return direct without loitering on the sands.

### YOUNGSTERS!

Need "Cascarets" when Sick, Bilious, Constipated.

When your child is bilious, constipated, sick or full of cold, when the little tongue is coated, breath bad and stomach sour, get a box of Cascarets and straighten the little one right up. Children gladly take this harmless candy cathartic and it cleanses the little liver and bowels without griping. Cascarets contain no calomel or dangerous drugs and can be depended upon to move the sour bile, gases and indigestible waste right out of the bowels. Best family cathartic because it never cramps, sickens or causes inconvenience.

### Luther Burbank Tends Garden at 71 Years

SANTA ROSA, Cal., March 6.—Luther Burbank, horticulturist was "too busy" today at his home here to devote much attention to celebrating the seventy-first anniversary of his birth.

"Never busier in my life," was his comment as he paused for a moment from working in the gardens which enclose his vine-clad home.

"I find I can accomplish much more at 71 than I did at 25," he said. "But my strongest wish is that a hungry, war-torn world may find peace and plenty."

He expressed the opinion that his major discovery of the past year was "quality wheat, which has found much favor in Australia, Canada and the great wheat growing sections of this country and other parts of the world. It undoubtedly was the most useful of all my year's work to the world."

Mr. Burbank was born in 1849 at Lancaster, Mass. He came to California when he was 23 years old.

### Low Necks and Bad Movies Hit in Helena

HELENA, Mont., March 5.—Suppression of immodest dress, indecent dances and suggestive motion pictures and theatrical attractions is the object of a movement that has become apparent in several cities of Montana. Bozeman is discussing an ordinance to bar the "shimmy" and similar dances. There is a movement of like nature in Great Falls, while the Helena Woman's club not only would bar such exhibitions, but would employ a chaperone for public dances generally.

Bishop J. P. Carroll of the Roman Catholic diocese of Helena, has inaugurated a movement of a like nature in organizing the League of Catholic Women. The chapter formed here signs 600 members in a short time. It is expected that every city in the diocese soon will have its league.

### Dance Bid Brings Hot Answer From Preacher

BRILL, Ind., March 6.—The "town wag" mailed an invitation to the Rev. Edward Rosier, to attend a "select dance" at Clay City recently. The minister caused a sensation by accepting and including in the program much more than was expected. Accompanied by his wife, the Rev. Mr. Rosier paid his dollar entrance fee and passed into the dance hall. He then attacked dancing, and after his address said he would offer a prayer for the "sinners" if they would kneel. Several did kneel and the minister prayed.

Following the prayer Rev. Mr. Rosier gave the dancers another short sermon and declared it an insult to send a minister an invitation to a dance. After the service the dance went on, but it was admitted not with the customary merriment.

### Fair Co-Eds Learn Mystery of Automobile Insides

MOSCOW, Idaho, March 5.—Home demonstration workers of the University of Idaho extension department, 15 young women are taking a brief but intensive course in automobile technique under the direction of J. C. Wooley, professor of agricultural engineering at the university.

Demonstrations in adjustment, suggestions and advice for the use of their cars and approved methods for making ordinary repairs are all being taught. The engine and chassis of a popular car comprise the laboratory materials used.

### Whole Race to Be Extinguished by Influenza

PAPEETE, Tahiti, Dec. 23.—(By mail)—Influenza threatens annihilation of the natives of the Marquesas Islands, the most northerly of the French holdings on Oceania, according to reports just received here.

Only a few of the Marquesans, once a numerous race of splendidly formed, handsome Polynesians, who were feared because of their cannibalistic practices, remain and these,

# VICK'S VAPORUB

## offers a new way to treat croup and cold troubles

THE OLD WAY

Treatment by internal dosing, which does not reach direct to the affected parts and which frequently does derange the digestion.

COLDS are simply inflammation or congestion of the mucous membrane or lining of the respiratory organs—air passages and lungs. They should be treated just as surface inflammations, such as Burns or Bruises are treated—that is, the medication should be applied directly to the inflamed parts. Internal medication going to the stomach does not reach directly the affected parts. But medication cannot be applied directly to the air passages and lungs except in the form of vapors that can be inhaled; and, until the discovery of Vick's VapoRub, there was no efficient, economical method of supplying these vapors.

THE NEW WAY

Treatment by Vick's VapoRub, which is applied externally—relieving by inhalation as a vapor and by absorption and stimulation through the skin.

### DIRECTIONS FOR THE USE OF VICKS

**Vapors Important**—For diseases of the respiratory organs, such as colds, a large part of the value of Vicks lies in its vaporizing qualities. Therefore, whenever Vicks is applied over the throat and chest, care should be taken to leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel, so that the vapors arising may be freely inhaled.

**Hot Wet Cloths**—In cases of very severe colds, sore throat, coughs, incipient pneumonia, etc., hot, wet towels should be applied over the throat and chest to open the pores of the skin before applying Vicks.

**Fresh Air**—Plenty of fresh air in the bed room is the best way to prevent colds and lung troubles. Fresh air does not cause colds; it strengthens the lungs, enabling the system to throw off colds.

**Asthma**—Vicks is not a "cure" for asthma—so far as we know, there is no cure. In many cases, however, Vicks does give relief. Rub it well over the spinal column, from the neck to the hips to relieve the nervous tension. Then apply freely over throat and chest at bed time and cover with hot flannels. Renew frequently and always have the covers loose, so that the vapors may be freely inhaled. Also melt Vicks in a spoon and inhale the vapors and apply a little up the nostrils.

**Bronchitis, Sore Throat, Colds in the Chest**—If a severe case, first apply hot, wet towels over the throat and chest. Then rub Vicks in well until the skin is red, spread on thickly and cover with two thicknesses of hot, flannel cloths.

**Catarrh, Colds in the Head**—Melt a little Vicks in a spoon and inhale the vapors. Also apply well up the nostrils. There are so many varieties of catarrh that a competent physician should always be consulted. For many forms, however, Vicks is excellent. Dissolve a half teaspoonful of salt in a pint of warm water and snuff up the nostrils night and morning. Then insert Vicks freely up the nostrils as far as possible, snuffing well back into the air passages.

**Children's Colds**—Vicks is particularly valuable in treating children's colds, since it is an external treatment, and therefore, does not disturb the delicate digestions of children. The best plan is to keep Vicks constantly on hand and apply freely and often at the first sign of "sniffles."

Growing children require plenty of fresh air and exercise and should be

## Vicks Acts Both Externally and Internally

VICK'S VAPORUB is the discovery of a North Carolina druggist, L. Richardson, who found a way to combine the standard, time-tested remedies—Menthol, Camphor, Turpentine, Eucalyptus, Thyme, Juniper, etc.—in salve form, so that when Vicks is applied to the body, these ingredients are vaporized by the body heat.

INTERNALLY, these vapors, inhaled with each breath all night long, carry the medication direct to the air passages and lungs

EXTERNALLY, Vicks is absorbed through and stimulates the skin, attracting the blood to the affected parts and aiding the vapors inhaled to relieve the inflammation or congestion.

### How the Use of Vicks Has Grown

Starting with the customers of Mr. Richardson's retail drug store, the use of Vicks has increased county by county, state by state, until now more than 17 million jars are used annually—practically one jar for every family in the United States—and this in spite of the fact that Vicks is still a new treatment to many people in the North and West. Once used, Vicks is a friend for life—it is so easily applied—so quick in its results.
