

More miles per gallon
More miles on tires

Steels Make the Maxwell Thrifty

SEVERAL million dollars have been expended to provide more elegance, more refinement, more comfort to the current Maxwells. It is in ever so many ways a superior appearing car; superior, too, in action.

But not a single pound of weight has been added to burden the work of its great engine!

Therefore, despite the many processes of improvement, it doesn't cost a penny more to run a Maxwell than it did a year ago.

The underlying principle of every Maxwell is to give economic transportation.

This means light weight.

But it means strong steels, as well.

It is no easy trick to provide both lightness and strength in metal. Such a rare combination means high cost steels.

And you would find, if you compared a Maxwell with any car, that it equaled that car pound for pound in fine metals.

How such steels affect your pocketbook is obvious.

1. They are light in weight and hence give more mileage on a gallon of gasoline.

2. As they are fine steels they give long and uninterrupted wear.

Which are but two of many reasons for that definite tendency of world-wide friendship towards Maxwell.

In six years nearly 400,000 have found their answer to the motor car question in a Maxwell.

This year 100,000 Maxwells are being produced.

This will supply but 60% of the demand.

GREAT PLAN FOR OLYMPIC MEET

Preparation Going on for Seventh Event at Antwerp

ANTWERP, March 22.—Rapid progress is being made in the preparations for the seventh Olympiad and the organizers feel confident that everything will be in readiness before the opening of the stadium on August 15. When the Belgian delegates appeared before the international Olympic committee a few months after the armistice, to claim for Antwerp the honor of being chosen as the seat of the seventh Olympic games, much doubt was expressed as to the possibility of organizing in less than a year a sporting carnival the preparation of which at Athens and Stockholm had taken several years. A little more than six months after the laying of its cornerstone the executive committee of the seventh Olympiad invited the newspaper correspondents to visit the stadium, which is practically completed.

Situated at the gates of Antwerp, just outside the fortifications, in the little suburb of Heerschoot-Kiel, easily accessible from the city. The stadium covers an area of some 10 square acres. The principal entrance is situated at the southwest angle. On either side of this monumental entrance the athletes' dressing rooms, shower baths, are being erected. At the northeast angle another entrance, supported by a triumphal arch 60 feet high, has been cut through the cement structure. Through that gate will pass the king of the Belgians, Prince Leopold and other members of the royal family of Belgium when they choose to honor the games with their presence.

On the summit of the triumphal arch above the latter entrance will be a vast platform, where buglers, trumpets, heralds will announce to the attendance the arrival of the competitors of the road races as they enter the stadium for the final turn around the track.

An enormous blackboard facing inside the stadium will be hung down from the top of the triumphal arch, whereupon will be recorded by electrical apparatus the results of various competitions being contested.

On either side of the stadium is a row of box stalls, 48 in all, each accommodating eight spectators. Moreover, eight "boxes of honor" in the center of which stands the "royal box" are inserted between the ordinary boxes on the southern side of the structure. Immediately behind the royal box stands the diplomatic box. The public stand on the southern side has a seating capacity of 6,400, while the stand on the north can accommodate 3,800. There will be standing room for 19,000 more, thus enabling 20,000 people to attend Olympic games daily.

Pavilion, wherein dressing rooms of the athletes are being put up, measures 80 yards and contains six dressing rooms of 14 yards by 7.

Diplomat's Wife Who Is Now a Movie Actress

Senora Dona Ann de Diaz. Dropping her social activities in Washington, Senora Dona Ann de Diaz, wife of the Charge d'Affaires of the Honduran Legation, has gone into the movies. She is now in New York, taking a prominent role in a big production.

Scientific Wrinkle Remover Easily Made

A few dermatologists long have held the secret that a certain product known to the drug trade as salolite, had the property when used in solution, of almost instantly reducing wrinkles and furrows. Anyone can readily make this same solution by dissolving an ounce of powdered salolite in a half-pint of witch hazel. Bathe the face in this—and note the quick transformation! The skin tightens, becomes firmer—deepest wrinkles and crowfeet at once begin to smooth out. This action will of course also reduce hanging cheeks or double chin. When the hands show signs of aging, the skin becomes coarse, crossed or bathed them in the solution at publication. Women who have advanced over the age of 30 will find this a most valuable remedy.

"Sporting Parson" Who Believes Boxing Makes Men Better Christians

Rev. Everard Digby

It is probable that the Rev. Everard Digby, known in England as the "Sporting Parson," will come to America. He is a keen follower of boxing and actively participates in the sport. He is a member of the National Guard and was in the 1st to 17th—Oregon give a National Guard—Stevens. and 20—National gypsy—cycle events in Salem. Mitchell Lewis, a member of the Children of Banishment, is at the Oregon.

Thus Ended the Bloodless "Rum Rebellion" at Iron River, Mich.

The "rum revolt" at Iron River, Mich., ended without bloodshed, although Major A. V. Dalrymple, prohibition enforcement officer, went to Iron River from Chicago with armed men and the avowed intention of arresting local officials who were accused of hindering the enforcement of the Volstead law. This photograph shows one of the most exciting incidents of the "rebellion"—Major Dalrymple smashing the heads of barrels of seized wine. The nearest approach to bloodshed was the reddening of the snow as the wine gushed out. Major Dalrymple is seen smashing the casks, while a battery of movie cameras clicked. At the right, wearing a Stetson hat, is Leo Grove, local prohibition officer, who is watching the proceedings with evident enjoyment.

Bars, cafes, restaurants are being arranged for the benefit of spectators.

The arena itself measures 190x102 yards. The Stockholm stadium was 116 yards long by 77 yards wide. The width of the running track circling the stadium is 10 yards. For the 100-yard and the 100-meter dash, however, a straightaway chute directly in front of the principal stand, the southern one, measuring 120 yards in length with a width of 14 yards, is being prepared. The circular track measures 410 meters or about 450 yards. The football field is 116 yards long by 44 yards wide.

HAD A COLD ALL WINTER

Colds that "hang on," coughs that rack your body and wear you down, the weakening that comes from loss of sleep—these are afflictions from which relief is a blessing. Nick J. Whres, Zahl, N. D., writes: "Had a cold all winter, but since taking Foley's Honey and Tar it has entirely disappeared." J. C. Perry.

Evidence Disappears Through Extra Bang as Court Waits

PORTLAND, Or., March 22.—When the police last Saturday arrested Peretti on a charge of violating the prohibition law they sealed and left in the basement of Peretti's home a cask of wine which they found there. When they returned today to get the wine the seal on the cask was still intact, but a neat auger hole near the bottom of the cask revealed an ingenious scheme whereby somebody had salvaged the greater part of what had been intended to form Exhibit A at the trial.

MARION NEWS

MARION, Or., March 22.—J. V. Dencer is in the Willamette Sanitarium in Salem where he underwent an operation on his hips.

The Marion school is in operation now with a full attendance.

The loganberry growers are busy fixing up their yards, taking out the old vines and training up the new ones.

John Palmer, Jr. is improving his farm, with a new wire fence.

One More Portland Man Begins a Long Sleep

PORTLAND, Or., March 22.—Herbert Yost, 23, was reported to the city health bureau today to be suffering from sleeping sickness. His is the 14th case of the malady reported here since it made its appearance last fall.

Petrograd Shop-Keeper Using Pictures Instead of Signs to Advertise His Wares to the Illiterate Russians

Because of the illiteracy among the Russian people, shop-keepers have pictures instead of signs painted to advertise their wares. In many cases a specimen of every article for sale is placed in the window. The photograph shows a cheese store in Petrograd, with tempting pictures in the show window.

SELL IT TO THE FARMERS

No matter what it is, from a threshing machine, horse, or cow, to a paper of pins. The farmer is the best buyer.

THE GREAT WESTERN FARM PAPER

Published in Salem, Oregon, will place your advertisement in the hands of 20,000 farmers and they read it.

Bargain Column ads cost only 3 cents a word, or 2 1/2 cents a word for four or more insertions.

Read The Pacific Homestead, Weekly, \$1 a year. You'll find it well worth while.

Salmon Declared Greatly Decimated in Washington

OLYMPIA, Wash., March 22.—Washington's salmon industry, once among the leaders in the state's activities, has been almost depleted by intensive fishing of the past six years. L. H. Darwin, state fish commissioner, declared in his annual report filed with Governor Louis F. Hart.

SYRUP OF FIGS CHILD'S LAXATIVE

Book at Tongue! Remove Poisons From Stomach, Liver and Bowels

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's use on each bottle. Give it without hesitation. Mother! You must say "California" then, but they are all—

ington waters was recommended by Mr. Darwin.

He urged that foreigners be barred from fishing in the state waters, because, he said the destruction, in a large part, has been accomplished by persons not citizens of the United States. During the war, he said, foreign fishermen banded themselves together, took the lead in the industry and increased the prices.

Sockeye salmon runs of the Puget Sound have almost been wiped out by the heavy fishing, the report stated. The Silverside and Chum or Dog salmon have also been reduced in number. The Humpback salmon runs probably will be attacked by the fishermen next and, in a few years, the commissioner predicted they, too, probably will be depleted.

Columbia River, Grays Harbor and Willapa Harbor waters of Washington have not suffered to the extent of Puget Sound, Mr. Darwin said, largely because of the greatly increased hatchery work. But as the fishermen are beginning to take immature salmon and are preventing the fish from reaching their spawning grounds, it is probable these waters will suffer more soon.

Grand Jury Resumes Its Probe Into Bond Deals

Investigation of bonding deals transacted between the office of O. P. Hoff, state treasurer, and the firm of Morris Brothers, Inc., of Portland, were resumed by the Marion county grand jury yesterday morning. The jury was in recess since Saturday.

Practically all witnesses scheduled to appear yesterday were Portland men, who are ore have been connected with bonding houses.

Witnesses who were subpoenaed for yesterday were Ralph H. Schneck, John A. Keating, Henry Teal, Edward Geary, Lynn A. Eastham, F. B. Fenton and Paul R. Dunbar, but it is said not all of these appeared.

AURORA BOREALIS

The Northern lights which are noted by visitors of the far north for their dazzling splendor were a evidence here last night. The sky in the north was illuminated with rippling lights, which were visible in the clear night. The first time a lone pole star has been photographed in Oregon.
