THE presence in Salem over the week-end of the young folk from the University of Oregon and from Oregon Agricultural college has caused a large number of informal affairs for the younger set. The O. A. C. students will return tonight to their studies at Corvallis but the Eugene folk will remain during the week and help to stimulate society from its pre-Easter lull which has been evident recently. Miss Marjory Kay is one of the popular young maids of the city who is spending the spring vacation with her parents. Miss Ethel McGilchrist is also here for the week, as is Miss Doris Churchill. Miss Josephine Baumgartner arrived home Friday for the week at home.

One of the very delightful assemblages of the week was Wednesday evening when the Daughters of Veterans entertained at the armory members of the G. A. R. and their wives, and the Sons of Veterans and their wives.

The evening's entertainment consisted of a program which opened with a community sing of "America." J. Fred McGrew of Willamette university gave a reading, the Salem high school orchestra gave "Love's

Old Sweet Song" and "Mighty Like a Rose." A community sing of all the old war songs was a feature of the evening. Mrs. Ronald C. Glover gave a reading and Miss Elizabeth Waters gave a group of vocal solos. Singing the "Star Spangled Banner" by all, accompanied by the Salem high school orchestra, closed the evening's program. Cards and dancing were enjoyed later.

A light repast was served by the committee to about 60 guests. For the evening the rooms were decorated with ferns and rose poppies, while in another room yellow spring flowers and ferns were used.

The many friends of Mrs. Henry J. Bean will be glad to know that she is improving well, following a major operation at the Portland Surgical hospital, the first of the week. Judge Bean and Miss Grace Bean left yesterday for Portland to spend a few days with her.

Taking her guests back to the old school days, Mrs. E. E. Carlton entertained a company of friends on Tuesday evening for a "country school dinner," which preceded the Tillium dancing party at Moose hall. Preceding the dinner each guest recited a "piece" or sang a song. A good old fashioned chicken dinner was served in lunch baskets to the guests who were seated at dinner school desks. The guests were Mr. and Mrs. Herbert L. Stiff, Dr. and Mrs. Fred Ellis, Mr. and Mrs. Claire Vibbert, Mr. and Mrs. C. J. Green, and Edward and Blondell Carlton.

Monday she visited the Lincoln junior high school where 25 girls joined the club. At the Grant junior high school Tuesday 60 girls gave their names and received the little blue G. R. triangle. its Girl Reserves. Each club will meet during this week to complete the organizations and to elect officers.

The Aftermath of Flu

This is No. 1 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vicks' Vapo-Rub may be of value in this condition.

Your doctor will impress upon you that following recovery from the active stage of influenza, there often remains an inflamed, congested condition of the air passages—throat, larynx, bronchial tubes and lungs.

Frequently the cough hangs on—soreness of the chest persists—you take cold easily and there may be obstinate catarrh. This condition is slow to clear up and if neglected may favor the development of pneumonia, or later on, serious disease of the lungs.

Such cases should continue under the care of their physician—should exercise moderately in the open air—eat plenty of wholesome food—avoid overwork and sudden chills.

Nightly applications of Vicks' VapoRub may help nature to complete the process of repair. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vicks Chemical Company, 231 Broad Street, Greensboro, N. C.
