Sure, Harmless Way To Remove Hair Roots
You who are annoyed with embarrassing growths of superfluous hair have waited long for something that would do more than merely take off the surface hair temporarily—something that would really remove the hair roots. And now—at last—your wish is realized.

The new pelachene process is far different from, far better than electrical, depilatory or other methods because it actually removes the hair entire, roots and all—before your very eyes—easily, quickly, harmlessly! Get a stick of pelachene from your druggist, follow the simple directions, and you will be surprised and pleased beyond words. It has no odor, no irritating elements, and is so non-injurious a child could safely use it. It leaves the skin so soft, smooth, hairless, that not the least sign of your former trouble remains.

BITS FOR BREAKFAST
Legumes give life.
They take nitrogen from the air and put it in the soil.
They put humus in the soil, too, and make it friable and fruitful.
They are good for live stock as soiling crops, as hay, as silage.
They will make the soil and the farmers rich and the city great and prosperous.
And raise bokhara for bees.
It is the best bee pasture known, and the fruit growers have got to have bees, for pollination of their fruit blossoms.
Fruit growing can not be made a sure thing without bees.
So, every fruit grower must sow some bokhara, and do it now.
The legumes cannot be overdone here. The more legumes the more plant life, and the more life of all kinds. VIVE LES LEGUMES!

LABOR EDITOR LEAGUE'S MAN
Editor of Portland Labor Press Seeking Place in State Senate

C. M. Ryerson, editor of the Portland Labor Press, who yesterday filed as a candidate to represent Multnomah county in the state senate, is a candidate of the Land and Labor league, which organized in Salem several months ago.
Mr. Ryerson was one of the organizers of the league at the state convention held here. The league was organized as a political party and adopted the name league instead of the name party. It adopted a policy not to nominate candidates as an organization, but to work for nomination on the Republican and Democratic tickets of men connected with the league, or who would adopt the principles of the league. It was explained that this was the method through which the Non-partisan league gained a foothold in North Dakota.
Mr. Ryerson's slogan is "A business man with practical knowledge of industrial relations."
His platform follows:
"I am a public servant to obey the public will. I believe in and will support any proper legislation looking toward the conciliation and arbitration of industrial disputes. I will work for the passage of legislation beneficial to the educational institutions of the state and favor proper remuneration of educators. Will support any measure having for its purpose the rendering of full justice without subterfuge to the soldiers of the late war. Favor good roads without graft or unnecessary royalty payments, and the building up of home industries."
