So much was the success of the recent presentation of the Queen of Hearts by the pupils of Miss Beatrice Shelton that she repeated the playlet Tuesday evening in the high school auditorium, adding some new features the most popular of which was the clever little danseuse, Doris McCartney of Portland who danced her way into the hearts of everyone present that night with her graceful little manners and her beautiful dances. She gave two numbers, the French doll and later the clown dance. She was at her best in both and was a delight to the audience. She is the pupil of H. Christensen of Portland. She was accompanied by Mrs. Bernice Clark East of that city also.

The playlet was given as a benefit to the children's ward in the new Salem hospital and the two entertainments brought in over \$150 to this cause. It was given under the auspices of the Salem Woman's club.

Miss Shelton has received much praise for her work and effort to present this and for the work of her pupils. She was successfully assisted by Miss Sarah Minzenmier, Mrs. L. S. Geer, Mrs. John Graber, Miss Genevieve Yanke and Miss Olga Kirkwood were in charge of the costumes and Mrs. Edith Kane was accompanist. Mrs. Oscar Gingrich was in charge of the dances and her work in putting on the new ones was especially creditable.

Cecil Deacon and Wayne Allen then favored the audience with Hungarian piano duet. Then St. Valentine presented the queen with a gift which proved to be Jack in the Box which was presented by Leona Geer. This was the original arrangement by Mrs. Gingrich and deserved special mention. Miss Geer won much admiration for her dancing and clever management.

Cecil Deacon is one of the most advanced students of Miss Shelton presented a beautiful variation of the old time song "Believe Me if I Tell Those Endearing Young Charms" which displayed much musical ability and talent, technique and interpretation.

Miss Bertha Clark, one of the assistants for the evening favored the audience with one of her whistling solos which are always so much liked.

## The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected. Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas. Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea. Samples to new users will be sent free on request to The Vick Chemical Company, 235 Broad Street, Greensboro, N. C.
