

Labor Board Hears Argument for Rise

WASHINGTON, April 22.—Arguments on the wage increases demanded by conductors and switchmen were made before the railroad labor board today by L. E. Sheppard, president of the Brotherhood of Railway Conductors, and Samuel Heberling, president of the Switchmen's Union of North America. Both cited the rise in the cost of living during the past few years to support the plea for higher wages.

Demands of the switchmen call for pay increases of approximately 58 per cent with time and a half for overtime, Sundays and holidays. Similar overtime allowances are asked by the conductors together with wages sufficient to enable them to live on a pre-war standard.

Final setback to the efforts of the unauthorized strikers to get their cases before the board was given today at the White House when Secre-

tary Tumulty told representatives of the wardmen's association that President Wilson would not interfere in their behalf as long as they remained away from work.

west of the city. In the alleged confession, he said he screamed when he attempted to embrace her and that he stabbed her 13 times in the neck to silence her. Later he threw her body into the stream.

committees said, would be taken this week.

Representative Rainey charged that "the Republican millionaire steering committee" sought to "tenderly care" for those made immensely rich by the war. His charge that the Republicans sought by the legislation to buy the soldier vote was termed "an insult" by Representative Campbell, Republican, Kansas.

INDIANAPOLIS, Ind., April 22.—The American Legion will present "the strongest possible opposition" to any plan by congress to eliminate the land settlement, home aid and vocational training options from the legion's compensation plan, according to a statement today by Franklin D. O'Lier, national commander.

Mr. O'Lier's statement follows: "It has been reported that congress might possibly disregard the recommendation of the legion covering land settlement, home aid and vocational training and confine itself exclusively to the adjustment of compensation based on length of service, or the so-called cash bonus.

"Such a suggestion without question would meet with the strongest possible opposition from the American Legion. The American Legion has given the whole subject its most careful consideration and advanced the four-fold plan only when it was apparent that plan best meets the desires and requirements of ex-service men and women throughout the country."

"We're here because we were sent here," said Colonel Hall, who said he would have no formal statement to make until such time as he became acquainted with conditions.

The troops were requested by Governor V. S. Stewart and were dispatched by orders of the commander of the western department at San Francisco with instructions to preserve order in the Butte district.

Canadian Indians Want Natural Resources Back

OTTAWA, Ont., April 22.—A delegation of British Columbia Indians appeared today before a committee of the house considering amendments to the Indian act, to protest against the arrest of braves for taking their winter's supply of salmon from rivers running through their reservation.

"Our heavenly father, by placing salmon in our rivers, gave us food long before the white men came," said George Matheson, spokesman for the delegation. "Now the white men millionaires who can afford better food and want to make a little more money come and take our food away from us."

Matheson declared the Indians would never be at peace until their land, fishing and hunting rights were fully restored to them. Other matters, such as education and enfranchisement, could wait, he said.

Deputy Minister Scott said he sympathized with the Indians but that other food had been substituted for the salmon of which they had been deprived.

PORTLAND, Or., April 22.—A proposal to place before the voters of Portland a bond issue in the sum of \$2,500,000 with the idea of relieving the Portland Railway, Light & Power company of certain taxes, tolls and assessments in order to keep the local traction fares at seven cents or thereunder, failed of passage before the city council today. Charter Is Denied to Proposed Dalles Bank

Will H. Bennett, state superintendent of banks, has refused to grant a charter to the proposed People's bank of The Dalles. The applicants for the charter, P. J. Stadelman, H. L. Kuck and others, have appealed to the state banking board which will have a hearing of the case Tuesday, May 4. Under a recent opinion of the supreme court the decision of the board is final and there is no recourse in the supreme court. Refusal of the charter was on the grounds that the present three banks are sufficient to meet the needs of The Dalles. The Wasco County Bank was recently organized at The Dalles and will open for business between May 4 and May 15.

Whiskey Rebellion Participants Fined

MARQUETTE, Mich., April 22.—The three Scalacci brothers, on trial in federal court on a charge of illegally possessing liquor in connection with the so-called "whiskey rebellion" in Iron county, were found guilty by a jury today. In imposing fines of \$100 each, Judge C. W. Sessions blamed prosecuting Attorney Martin S. McDonough for the fact that the respondents stood convicted.

The judge asserted that notoriety, given the Iron River fiasco was the most unfortunate fact in connection with it. "A mountain has been made out of a mole hill, and there

has been foolish and boyish conduct on both sides," he said.

Testimony showed McDonough was the adviser of the Scalacci brothers and that particularly everything they did after state police began action to seize their whiskey was done under his direction.

There's No Picture Like the Picture of Health

The greatest masterpiece in the Art Gallery of Life is Nature's "Picture of Health". It is a marvelous portrayal of the human body at its best. One beholds in its composite detail a true symbol of strength. It presents a figure of striking appearance in its erect carriage, clear skin, sparkling eyes, strong limbs, steady nerves and firm muscles; fairly vibrating in animation—keen, alert, fresh, and spirited; with an air of unbounded confidence and a face radiant in color and illuminated with a glow of hope and cheerfulness.

Could Nature have taken you for her model? Suppose you study yourself in the mirror of the present and compare your looks, your feelings and your condition with the general characteristics of this picture of the human body in perfect working order, all parts of which are sound, well organized and disposed, performing their functions freely, naturally, and harmoniously. If you fail in any single point of resemblance, you are not the picture of health. It is imperative, then, that you look to a means to rebuild your strength, energy and vigor—to bring your body up to a normal state of efficiency in all of its parts.
