#### Letter From Mayor Baker of Portland Urges Energetic Campaign

**BANK PRESIDENT HELPS**

**Work of Organization Recognized as Important Christian Factor**

Who is backing up the Salvation Army campaign in Salem and throughout the state? Here are several of the men who are giving the Army their unequalled support. They are also the members of the state advisory board:

### ORCHESTRA MUSIC TONIGHT LIBERTY

Governor Olcott, A. L. Mills, president of the First National bank of Portland, and George L. Baker, mayor of Portland.

Mayor Baker is active chairman of the board. In a personal letter received by The Statesman yesterday, Mayor Baker says: "Allow us, as officers of the state advisory board, to thank you for your participation in this drive. We are with you heart and soul to see the full state quota raised and every activity of the army properly functioning. Interest is manifest on every hand. The Salvation Army has done and is doing the most splendid piece of constructive work it has been our good fortune to be associated with. It is lifting up the fallen and strengthening the weak."

When men so overwhelmed with official responsibilities as Mayor Baker and A. L. Mills can be persuaded to take personal charge in directing the campaign for the Salvation Army, the appeal must be very need—most urgent.

The activities of this militant Christian organization are extending along many lines. Here are a few of them: Evangelistic work, free employment bureau, searching for missing relatives or friends, work among the prisoners, young women's boarding houses, children's homes, rescue homes, slum settlement work, industrial homes, working men's hotels, work among service men, anti-slavery bureau.

Besides these, there is a vast amount of temporary relief given to individuals or families, who, through sickness or want, must have some immediate assistance.

SEATTLE, Wash., April 30.—University of Washington debaters, arguing the affirmative of the question "Resolved, That the Paris peace conference should have awarded the province of Shantung to China," won a unanimous decision over the Oregon Agricultural college team here tonight.

#### HAS THE PEAK BEEN REACHED?

SOME day conditions are going to change. Some say that it won't be long coming, or heralded in advance. The period of inflation, extravagance and speculation will pass.

In any event, carefulness is a virtue; carelessness in expenditure or investment, a crime.

### EXPORT TRADE BIG FACTOR IN OREGON MILLS

#### Orders in Last Six Weeks Aggregate Sixty Million Feet of Lumber

**ALL STATES ARE BUYERS**

#### Shipments From This Section Go Into All Parts of Continent

Export business continues an important factor in the lumber industry of western Oregon and Western Washington, as indicated by the weekly report of the West Coast Lumbermen's association.

At 126 representative mills, export orders for the week ended April 24 were 1,108,920 feet, the previous week they were 1,436,000 feet. In the last six weeks these orders have aggregated 62,000,000 feet. Much of this business goes to Australia and the orient, some to the west coast of South America and some to England; scattering cargoes and parcels are destined for nearly all parts of the globe. These 126 mills now have a total of 76,298,000 feet of export orders on their books.

**Most Moves By Rail**

The aggregate of all new business accepted by these mills within the week was 71,273,524 feet of which 47,610,000 or 1587 cars, were booked to move by rail.

At the same time they shipped 1742 cars, leaving 10,000 cars or 202,430,000 feet of unfilled rail orders on their books. The unfilled business—both rail and water shipments—is equivalent to 436,405,000 feet.

The industry is running on a high production basis. Total cut at the 126 mills for the week was 87,081,927 feet which was 3,919,073 feet or 4.31 per cent below the normal.

#### Stock Shortage Shows

The monthly stock report of the association shows that stocks at some mills are below normal and that the industry as a whole is slightly short of stocks.

Analysis of car distribution for the month of March shows that rail shipments from Oregon and Washington went into nearly every state in the union.

### LEAGUE ASKS RADICALS TO ATTEND MEETING

(Continued from page 1)

and Communist labor party organizations in January, declared as he went home for the night that late reports indicated that whatever violence might occur would be sporadic.

May "Talk Themselves Blue"

Most of these reports showed that the radicals were preparing gigantic propaganda demonstrations, but meetings are scheduled in many places, and it is at these that the trouble might develop, according to Mr. Garvan. The department, he said, would allow "those gatherings to talk themselves blue," but government agents would observe the tenor of agitation. Agents have been instructed "not to incite or excite trouble in any such assembly."

It was disclosed by Mr. Garvan that several members of congress, three federal judges and an attorney recently active in investigating radical disturbances had been marked for assassination. With the early discovery of the plots, however, Mr. Garvan believed the officials against whose lives the plots were directed now were amply protected.

#### Workers Reject Strike

Appeals of the Communist labor leaders for May day strikes appear not to have met with a kindly reception, although there were threats of strikes in some sections. Thousands of workers may lay down their tools tomorrow, but Mr. Garvan believed this would be more in the nature of a declaration of a holiday than with a malicious intent to cause a great interruption to industry.

Timber workers in Wisconsin and in Washington may remain away from work, according to reports.

### LIFT OFF CORNS!

Doesn't hurt at all and costs only a few cents

Mac! Just drop a little Freezone on that touchy corn, instantly it stops aching, then you lift the corn off with the fingers. Truly! No humming!

Try Freezone! Your druggist sells a tiny bottle for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without one particle of pain, soreness or irritation. Freezone is the discovery of a noted Cincinnati genius.

Federal agents were advised however, that their latest information disproved claims of direct collusion between these workers and the radical leaders.

### BERLIN CELEBRATES

BERLIN, April 30.—May day will be extensively celebrated by the workers of Berlin. The street cars and electric and suburban train service will be suspended. Newspapers will appear only early in the morning and no further editions will be printed until Monday. All the schools will be closed.

#### PEACEFUL IN ITALY

ROME, April 30.—Premier Nitti announced at a meeting of the cabinet today that he was able to predict May day would pass peacefully in Italy, although he believed suspension of work in all classes would be general.

### EDITORS LIKE MOLLIE BRUNK

#### Salem Woman Writes Stories With Color Accepted by Magazine

From time to time literary folk of Salem have been given space in the local papers in delightful little articles from the pen of Mollie Brunk. But never has any mention been made by this modest young woman of her own literary achievements, although the Portland press generously recognized her efforts in the recent hospital campaign, which is merely one of her activities for the betterment of her home town.

Her interest in the Salem Arts league and the eugenics society is well known, while she has been a frequent hostess and moving spirit of the Salem Woman's Press club. That she successfully conducted the society pages of both Salem's newspapers at various times is well known, but it may be news to many that Mrs. Brunk has made entrance into the short story field and is now engaged in writing a serial for that very exclusive periodical, The Ladies Home Journal.

Mrs. Brunk has just received word from Mark Skinner Watson, managing editor of the Ladies Home Journal, accepting the two stories of her serial which she calls Rivertown stories. They are a group of boys located in a little provincial western village. Nearly all of her characters are drawn from real life and all the scenes and settings are true. She has added local color to the stories with mention of the Willamette river and Rickreall. She has completed two for the Journal and is now working on others. She has named her stories "Rivertown, Its Growing Ups and a Few of Its Grown-Ups." The stories are over the name of Mollie Brunk.

Although Mrs. Brunk has been very active in literary work this is her first attempt at magazine writing. Mrs. Brunk is also in receipt of a personal letter from H. O. Davis, editor of the Ladies Home Journal, in which he praises her work as having an unusual quaintness and charm.

Several hundred men will be in the party, many coming from a considerable distance to attend.

The speakers at the banquet include M. D. Munn, president of the American Jersey Cattle club, New York, and other men of note from the east and middle west, as well as prominent men from all parts of Oregon.

### CROP PROSPECT LOOMS LARGE

#### Oregon Yield Will Equal and Probably Exceed Former Records

PORTLAND, April 30.—Reports filed by agents of the Oregon-Washington Railroad & Navigation company indicate that Oregon crops will equal or exceed former records, it was announced today.

The warm, dry weather throughout most of the state has materially aided the growing crops already planted and given farmers an opportunity to finish their spring plowing and seeding, according to the reports. The warm, sunny days have been especially beneficial to fruit production and the state is almost a solid mass of bloom.

Pastures and hay fields have also benefited from the warm weather prevailing the past week, although the ground is still soggy in some grazing districts and will not carry heavy stock.

There is no evidence of frost damage in the fruit districts at present, and reports on the condition of fall wheat is especially encouraging.

### Army Retail Meat Store Opens Today in Portland

PORTLAND, April 30.—A retail meat market will open tomorrow in the United States army retail store here, army frozen beef being the principal meat offered to consumers. It is planned to cater principally to the household consumer, it was said today, but hotels and restaurants will be supplied.

The quality of the meat, it was said at army headquarters, compares with the best obtainable. It consists of good and choice steers and heifers which have been stored in Chicago cold storage warehouses. Boiling beef is quoted at 8 cents a pound; sirloin steaks from 18 to 20 cents a pound; T-bone steaks from 20 to 22 cents.

### Soldier Relief Issue Causes Long Wrangle

WASHINGTON, April 30.—After a four hour wrangle, house Republicans late tonight abandoned plans for passing the soldier relief legislation until next Monday and adjourned their party conference at midnight without setting a date for action.

Wide differences of opinion developed in the conference, the opposition centering principally against sales tax to raise part of the \$1,800,000 needed for carrying out provisions of the bill. Representative Mondell, floor leader, announced that another party conference would be held late next week, the exact date to be fixed by Representative Towney, Iowa, conference chairman.

### Portland Bakers Decide Not to Walk Out Today

PORTLAND, Ore., April 30.—Employing bakers and their union employees had been unable to agree to-night on terms for renewal of their working agreement, and it was expected the bakers will strike tomorrow with those of several other cities of the northwest. Both sides agreed that there was little prospect of a new scale being signed in time to avert a walkout. No strike had been called up to tonight.

### QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 10c and 50c.
