To Keep the Face Fresh, Clear, Youthful More important than the cosmetic care of the complexion is the physical care. To keep the face clear, fresh, youthful, there's nothing better than common mercolized. It absorbs the soiled or faded worn-out skin particles. Cosmetics simply add unwholesomeness to the complexion. That's the difference. By all means, acquire the mercolized wax habit. It's so easy to get an ounce of the wax at the drug-gist's apply at night like cold cream and wash it off next morning. There's no detention indoors the old skin coming off so gradually no one suspects you are using anything. When in a week or two the alluringly youthful, rose-like under skin is fully in view—well, you won't want to lose a make-up complexion after that. It must be apparent that this process means complete riddance of all cutaneous blemishes like freckles, pimples, blotches and blackheads.
