

DR. M. P. MENDELSON

I will test your eyes and give you the benefit of one third of a century's practical experience.
For over 10 years I have practiced in Salem and satisfied thousands and thousands of people in Polk and Marion counties, correcting the eyes of over 1500 children during that time. Among them were many cross-eyed children whose eyes I straightened with glasses.
I have every facility for the accurate testing of sight.
I use no "drops" or drugs.
I give you my personal attention.
I guarantee satisfaction in every respect.
I change your glasses free of charge for one year, if necessary. Lenses duplicated while you wait.
My prices are very reasonable for the service and material you receive.

MAKES FOOD TASTE
Good—Hood's Sarsaparilla Creates an Appetite.
Aids digestion and promotes assimilation so that the body secures full nutritive value, thus naturally making the weak strong and giving the vitality of health. This great medicine enables the digestive organs to perform their functions easily, keeps the stomach sweet and relieves or prevents indigestion and other digestive troubles.
When your food does taste good it is a sign of good or returning health; shows that the blood is becoming richer, routing scrofula, eczema, rheumatism and other diseases, and that the system is being built up to overcome that tired feeling, and the prostration after influenza and fevers. The one medicine that can legitimately claim to do all this—is Hood's Sarsaparilla. If a mild laxative is needed, take Hood's Pills; an active cathartic, more Hood's Pills.
