

RAILROADS SEEK MORE REVENUE

Seek Substantial Advances in Freight Rates to Get on 6 Per Cent Basis

WASHINGTON, May 4.—The nation's railroads will need an additional \$1,107,000,000 to bring their income to the 6 per cent basis provided in the transportation act.

Through the Association of Railway executives the roads proposed to the interstate commerce commission today that this sum be realized through increased freight charges, leaving the passenger rates at the present level.

The advances in freight rates proposed were:

Eastern roads, 30.4 per cent to yield an advance in all revenues of 21.1 per cent.

Southern roads, 30.9 per cent to provide 20.7 per cent larger revenue.

Western roads, 23.9 per cent to advance all revenues 17 per cent.

Presentation of the figures marked the formal opening of the railroad rate case. While detailed statements submitted to the commission today covered only the eastern lines, estimates of the needed increase of the western and southern groups accompanied the initial suggestions, upon which the commission is to determine an entire new rate structure.

TURN HAIR DARK WITH SAGE TEA

It Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy fixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

railroads fell from \$1,056,000,000 in 1916 to \$510,000,000 last year, the railroads claim, while their investment has increased more than \$2,000,000,000. These figures were given to serve as a basis from which the commission could work in developing a scale of rates to meet the government guarantee.

An estimated valuation of \$20,616,000,000 was placed on transportation systems of the country by Daniel Willard, president of the Baltimore & Ohio railway. While there has been an increase in operating expenses of 99.1 per cent since 1916, the roads' basis of revenues for the same period has been increased only 36.37 per cent, the executive statement declared and the operating expenses of the lines now are 99 per cent of the revenues, against 66 per cent in 1916.

Alaska Mines Close in Wage Dispute

ANCHORAGE, Alaska, May 4.—Two coal mines operated by the government at Esko and Chicaloon, on the railroad near here, were closed today when the Alaska Engineering commission, which manages them, announced it could not meet wage demands of the miners.

Enough coal is on hand, William Gerig, assistant chief engineer of the commission announced to supply Alaska towns until the navy department follows its plan of taking over and operating the mines.

The men wanted a wage 10 per cent above the Washington scale, which they said was raised recently. Gerig said he received no official advice that an increase had been granted in Washington. Both Gerig and the miners declared no "red" element had caused the strike. About 200 men are employed at the mines.

To Provide Penalty For Influence Women Voters

WASHINGTON, May 4.—A bill providing for federal enforcement of the woman suffrage constitutional amendment was introduced today by Senator Watson, Republican, Indiana, and referred to the judiciary committee. It proposes a fine of \$500 and one year's imprisonment for interference with women in voting in all elections, including state, territorial, county, city, parish, school district or others.

A lot of folks object to wearing overalls for the reason that it looks too much as if they were at work at something.

Error Corrected
Editor Statesman: I wish to correct an error that appeared in Wednesday morning's issue regarding an accident and runaway that occurred on East State street Tuesday afternoon. It should have read C. A. Bear of Turner instead of A. Bare of east of town. Glad to say that I am home again and will be on my feet again in a few days. My property damage was slight. I wish to thank those who so kindly assisted me Tuesday afternoon.

Summer of Inactivity For Federal Farm Loan Banks

WASHINGTON, May 4.—Federal farm loan officials, in conference here, have found no way to avoid a summer of inactivity in loaning operations. The sessions, which were practically concluded tonight, has brought convincing evidence, members said, that no further new business could be handled until the supreme court had passed on the validity of the farm loan act.

Despite the fact that the 12 land banks have borrowed approximately \$16,000,000 from private banks to loan, more than \$70,000,000 in applications for loans have accumulated. In going into the open market for funds the banks are losing one-half of 1 per cent interest, the government rate being 5 1/2 per cent, and the private rate 6 per cent. To offset this loss, however, the
