

## HOPELESS DISEASES CAN NOT BE CURED BY DOCTORS OR MEDICINE

There are some diseases which are absolutely hopeless and past cure by any physician or medicine, but they may yet be palliated and a medicine, if it does not help in one case, may help in another. To any one suffering from a disease a remission is a degree of health and a medicine that relieves or palliates a disease is of great benefit. We can not guarantee to cure any disease with Number 40 for The Blood, but we quote word for word what the ingredients in 40 are recommended for in the U. S. Dispensary and New American Materia Medica: "In the treatment of blood troubles an acknowledged remedy among all schools of physicians, removes the cause of disease, stimulates the removal of waste, thus indirectly encouraging nutrition. Disorders of the nervous system demand this remedy, such as

neuritis, chronic rheumatism, gouty conditions, auto-intoxication, constipation. Used with phenomenal success in eczema and skin diseases, lumbago, glandular swellings, ulcerations of mucous membranes and in general disorders of the stomach, liver, kidneys and spleen." Prepared by J. C. Mendenhall, Evansville, Ind. 40 years a druggist. W. S. King, 302 E. 4th St., Pueblo, makes the following statement: "I suffered for a number of years with kidney trouble, sciatic rheumatism and constipation, tried numerous remedies with little or no benefit. I was induced to try Number 40 for The Blood. I found I was benefited from the start, and after taking six bottles received such wonderful and satisfactory results, I am prompted to make this statement." Witness to signature, Edward Reiss, druggist. Sold by Perry's drug store.

### Hair Roots Come Out Before Your Very Eyes

(New Method Banishes Superfluous Hair)

The new way to remove superfluous hair, roots and all—the phelactine way—is rapidly superseding the old-fashioned electrolytic method, as well as electricity, razor and tweezers. And no wonder! Here is a product so harmless a child could safely eat it—so non-irritating and odorless it is altogether pleasant to use—and the process is so quick acting that it actually removes the hairs entire, including the roots, in just a few seconds!

You will surely have the surprise of your life if you will obtain a stick of phelactine from your druggist and follow the simple instructions which accompany it.

of the cafes of the city, and Sam Deniff is in jail under the charge, from what can be learned of the story. Mr. Parker is a detective, here for the purpose of looking up some arson cases that are supposed to have occurred in the county.

"That night he was in company with Deniff and together they went to the city cafe for a lunch, where the cutting took place. The officers and the detective have been working on the arson cases for some time and they are at a loss to know the motive in trying to do away with Parker."

This is the case in which the state of Oregon was said to have taken action, a fire company representative having been sent to Montana early this week. A representative of the office of the Montana fire marshal left for Malta last night. The fire had not been reported to Helena and authorities here had no knowledge of the cutting affair.

There is many a slip between the straw vote and the nomination.

### Nansen to Head League Russian Relief Delegation

WASHINGTON, May 5.—Dr. Fridtjof Nansen, the Norwegian explorer, probably will head the organization to be set up by the league of nations for the purpose of repatriating 200,000 German, Austrian and other war prisoners held in Russia.

Reports to be submitted to the league council at Rome this month

say that unless these men are rescued from their prison camps in Siberia before next winter, few are likely to survive. They have been in captivity for five years.

Dr. Nansen was mentioned during discussions at Paris last year of steps toward sending food relief to the captives. Word has reached Washington that he already has been asked if he would be willing to serve as the agent of the league in attempting the repatriation. He had considerable experience with food questions during the war, having headed the Norwegian mission sent to the United States in 1917 to negotiate for needed supplies for his own country.

The question of aiding the war prisoners in Russia was referred to the league by the supreme economic council last February on the theory that under article 25 of the league covenant members already had pledged themselves to take interest in the "mitigation of suffering throughout the world." Some Jugoslav and Czech-Slovak troops are among the prisoners.

### LAWYER QUILTS REDS.

PORTLAND, May 5.—George F. Vanderveer, chief defense counsel for the I. W. W. in the northwest, today withdrew from the defense of the remaining 23 alleged members of the I. W. W. arrested in Armistice day raids last year, who are yet to be tried.

Vanderveer announced that he would leave tonight for Chicago where he will appear on behalf of William Haywood and his associates when their case comes on for argument before the United States circuit court of appeals.

"I do not know who will defend the men," Vanderveer said. "In all probability it will be a Portland attorney."

Vanderveer defended Joe Laundry and Lawrence Sorlie, first of the men arrested in the raids to be tried. Laundry received two years. Sorlie will be sentenced Friday.

Sheriff Johnson asked for the arrest following receipt of a telegram from Crookston, Minn., authorities, who stated that the former teacher had attempted suicide in Minneapolis, but was at a hospital recovering.
