STANFORD AGAIN BEATS BEARCATS

The Stanford university baseball team again beat the Willamette nine in a lopsided game on Sweetland field yesterday, and when the last inning was finished the score stood Stanford 7, Willamette 1.

Willamette had men on the bases several times but was unable to get the necessary hits to bring them home.

Willamette used three pitchers and though Stanford only secured five hits off them, the hits came when they were needed and that combined with three errors and several walks accounts for the lopsided score.

Table with 2 columns: Team, Score. Rows for Stanford, Willamette, Batteries—Mailhot and Bundy; Dimmick, Spies, Jackson and Brown; Umpire—Hayes.

FOUR SEASONS FOR MILLINERY

Originator of Idea Rejects America's Proffered \$5000 Hat

NEW YORK, May 6.—President Deschanel of France has refused to permit Madame Deschanel to accept the \$5000 hat offered her by 3000 American milliners for her endorsement of the "four seasons for millinery."

This was announced today at the convention here of the millinery jobbers' association when a letter was read from Ambassador Jusserand declining the American creation made from material supplied by each of the 48 states and decorated with nine paradise plumes, each costing \$500.

The ambassadorial letter, addressed to Henry S. Bernhard, head of the association, read: "I am instructed by the president of the republic to inform you that he sincerely appreciates the motives of your offer, on behalf of American milliners, of a specially devised hat for Madame Deschanel.

As for the gift itself, since it is not possible for Madame Deschanel to receive, under such conditions, any gift of value, the president begs you not to realize your intention for which he begs me, however, to tender you his sincere thanks."

The milliners were then read a cable from the society for the improvement of millinery art in France, giving "fourteen points" why Madame Deschanel should not accept the gift.

- 1. Bad precedent; Paris only style center. 2. America took advantage of Paris during war. 3. Americans dangerously resourceful. 4. Paris never produced so expensive a hat as \$5000. Bib novelty as Eiffel tower. 5. Paris milliners object to acceptance of hat. 6. Such gift is like carrying coals to Newcastle. 7. South America trade stolen from Paris by New York. 8. American prohibition will help Paris regain South American trade. 9. America should not give away what it will not buy—paradise. 10. Milliners should be content to buy the dictates of Paris. 11. American buyers already act dictatorially toward Paris creators. They want what they term "American style." This must stop. 12. The label "made in Paris" must be included in all world wide styles. 13. America has no artistic atmosphere—nothing but colossal wealth.
