

TROUBLE AHEAD FOR PROFITEER

Democrats and Republicans Unite on Proposed Excess Profit Tax

WASHINGTON, May 21.—Continued outcry in the senate against profiteers brought matters to a head today when Republican leaders promised that the resolution of Senator Harris, Democrat, Georgia, calling for corporation income and excess profit tax returns would be taken up tomorrow for action. With certain amendments, Senator Lodge, majority leader, said he saw no reason why it should not pass.

Senator Harris widened the scope of his proposal which would bring the records into the senate to include 1918 and 1919 returns as well as those of 1917.

"Members of the senate," he said, "stand on the floor denouncing profiteers; here's a simple resolution

that only seeks to name them which has been waiting six months."

The house also saw legislative guns trained on the profiteers. Representative Kind, Republican, Illinois, introduced a bill to prohibit federal reserve banks renewing loans on or re-discounting commodity notes, drafts or bills which, he said, would force boarded commodities on the market.

Senator Calder, New York, Republican, urged steps to strengthen depleted plant facilities as means of increasing production and striking at high prices.
