

WOODBURN HAS POWERFUL TEAM

Writer From North End of County Thinks There Is Little Hope for Senators

According to the Woodburn correspondent for the evening paper, the Salem Senators are due for an awful beating when they look up with the Woodburn team at Oxford park this afternoon. But of course the Sen-

ators don't claim to be able to beat the best baseball team in the world, and the Woodburn scribe admits that Woodburn has the mightiest aggregation of ball tossers in captivity. If you don't believe it, just read the following from Woodburn: "The statement was made in the Salem Statesman that Woodburn was going to import some players to take to Salem Sunday for the ball game. That is erroneous, as the team could not import any players who would improve it. Woodburn will have its regular lineup." Dame Rumor has it one day last week that the Woodburn team was importing some baseball timber es-

pecially for today's game with the Senators. But evidently the Woodburn bunch never heard of Ty Cobb, Babe Ruth, Walter Johnson, etc., or maybe these players are all signed to Woodburn contracts already, for they admit that theirs is the mightiest team in existence. But after the game this afternoon the Woodburn manager will probably want to import nine new players and a mascot. Still, there should be a game worth witnessing, for "Old Dame Rumor" now has it that the invading team will bring a southpaw pitcher who has a habit of making windhammers of the opposing batsmen. "Old King Cole" will do the hon-

ors for the local tossers, and it's a safe bet that the boys from the tall sticks will have a hard time finding his particular brand of benders. The Senators haven't lost a game of the last six played, in fact the only games lost were to the Moose Jaw team and to the Rupert club, and at that time the Senators were in no condition to play ball on account of not having sufficient practice, due to the interference of Jupe Pluvius.

NEIGHBOR DAY SUGGESTED FOR FELLOWSHIP

Cardinal Gibbons Proposes Saturday, June 12 as Occasion to Meet Neighbor

ISSUES PROCLAMATION Governors of Several States Approve of Plan—Makes for Better Citizenship

WASHINGTON, June 5.—Cardinal Gibbons, through the national committee on community organization of which Franklin K. Lane is president, has issued a proclamation suggesting Saturday, June 12, as Neighbor day, to develop a spirit of neighborliness and friendliness.

Cardinal Gibbons' proclamation similar to others by the governors of Ohio, Wyoming, West Virginia and Arkansas, is as follows: "The celebration of a national

Neighbors' day on June 12 would be a splendid means of promoting local community organization. I regard this kind of organization as an excellent means of breaking down racial and other prejudices, and of teaching men and women in a practical way their duties of Christian charity and helpfulness toward their fellows. It should prove effective in promoting gentleness and sympathetic Americanization. "James Cardinal Gibbons." The committee on community organization is responsible for the birth of the idea of Neighbor day. It grew out of the national conference on community organization, which was held in Washington on March 19 and 20. It is planned to have Neighbor day become a nationally recognized day for the purpose of bringing the people, foreign born and native, into closer relationship in order to give them an intimate knowledge of the needs of the community. The sponsors believe that if a real spirit of community interest prevails under the stimulus of a yearly neighbor day on June 12, that no radical propaganda can withstand the welding together of local community organization.

Quick! Convenient! Thorough!

These three adjectives express almost perfectly the reasons why The Electrical Way is becoming so popular among thousands upon thousands for

mer Cooking

Oh yes! There are two other reasons—now, mark these well:

Coolness and Economy

These two we cannot write strongly enough. As a matter of fact they all seem very unattractive in print to the way they will appeal to you in reality.
