The Universal Combination Range is absolute superlative of ranges, embodying all the conveniences of a gas range, with all the advantages of a coal and wood range, while occupying only the space of an ordinary range.

Saves Space • Saves Labor
Saves Fuel • Saves Food

A warm kitchen in cold weather! A Cool Kitchen in warm weather! Self starter for Gas—no matches! Self starter for coal and wood—no kindling.

There are other combination Ranges—and good ones; but, take our word for it, there is none approaching the "Universal" in Scientific, Efficient, Simplicity.
