

# PORTLAND JUDGE PRODS UP SALEM

## Declares It Is Civic Duty for Citizens to Use Cars for Shriners

Judge Georget W. Stapleton of Portland spoke to the Salem Rotary club at their noon luncheon Wednesday, giving a detailed account of the Shrine meeting in Portland next week. Salem products were almost directly responsible for the Shrine deciding to come to Portland in 1920. At the meeting in the east one year ago the Portland delegation served "Piez" and Oregon was decided upon as the next meeting place for the Shriners.

Judge Stapleton stated among a great many other things that there

would come to Portland 87 Shrine patrols, two mounted patrols, 11 drum corps, two jazz bands, 19 chapters organizations, 73 visiting bands and four local bands. There will be 43 special trains coming and a great many other features too numerous to mention. He stated that every available car in Portland was to be in use Shrine week to show the visitors around Portland and vicinity. Many of these on Salem day, June 23.

Judge Stapleton said he supposed that every man in Salem who owns a car has offered it to the Salem Commercial club to bring Shriners to Salem on that date. He was told that the response was very slow here. That many of the Salem business men were not going to donate their cars because they couldn't afford to leave their business and go. Judge Stapleton stated that he was surprised that there could be a man who would refuse to offer his car for use on that date.

"What do you suppose we got the Shrine here for?" he asked. "What

do you suppose we raised over \$200,000 for? I will tell you. We wanted to advertise Oregon among the people of the United States who will become residents and investors in Oregon, once they know what there is here for them to invest in and enjoy. They have read advertisements and listened to lectures, but they have to be shown. The best way to show them is to bring them to the Willamette valley in your automobiles. Then they will see the country and will come back and send others."

The following resolution was passed by the Salem Rotary club.

"Be it hereby resolved, That the Salem Rotary club urges the business houses to remain open on June 23, but that every business man should take his car and go down to Portland and bring a load of Shriners to Salem, and that every business man allow anyone in his employ who owns a car to take that car to Portland for the same purpose."

Suppose the force is crippled. Can't you afford to cripple your force for one day for the good of your town and community? Suppose some one does have to wait a few minutes to be waited upon? Let them wait. They will understand why they are delayed. They will appreciate the fact that you are working to make this a bigger, better place to live in and that you are trying to build up Salem and Oregon and not living for the few dollars you can accumulate. It is far better to live for others than for self for the selfish people of this earth leave very few to mourn their departure. Wouldn't you prefer to be known as a public spirited man than to be known as a narrow money chaser.

The Salem Rotary club urges every business man to donate his car on June 23 and to allow his employees to donate their cars on that date and also to get as many owners of cars not in business also to list their cars with the Salem Commercial club. Call up 392 and leave your name and the Commercial club will make reservations for a place for you to sleep on the nights of June 22 and 23 and also a place to keep your cars safe.

### North Bend Lumber Plant Ceases Work

NORTH BEND, Or., June 16.—It was announced here today that owing to uncertain market conditions and the recent slackening up in the demand for lumber that the plant of the Bay Park Lumber company of this city, will suspend operations within a few days for an indefinite period. Manager L. F. Falkenstein who returned recently from a trip through California in the interests of the firm, reported that the principal lumber centers of the state were over supplied with all varieties of lumber except spruce, for which a limited demand existed. Charles K. Hudson, manager of the North Bend Mill and Lumber company; Henry Buehner, manager of the Buehner Lumber company and several other representatives from other mills throughout this section are at the present time visiting the principal buying centers of California and the middle west in an effort to find a market for their product and keep their plants in operation.

In Korea it is etiquette for a man to ignore his wife if she chance to meet on the street. How about his sweetheart?

# SACRED HEART HAS EXERCISES

## Institution Closes Fifty-Seventh Year With Commencement Program

The auditorium of the Salem high school was well filled last night by an interested crowd bent upon enjoying the commencement exercises of Sacred Heart academy at the close of its 57th year as a part of Salem's educational system.

The first number presented was a little "Morality play" in which the young girl just budding into womanhood has a difficult time in choosing the path to follow in order to realize her day dreams, and who, after deciding to follow "Idleness" and "Pleasure," found in a short time she was not satisfied to be the constant companion of "Discontent," and "Failure" and was glad to return and join in with "work," "Joy," and "Love." It was a very pretty allegory, in which the young women participants acquitted themselves splendidly.

Miss May Lebold rendered a harp solo very creditably and the same young woman, with Miss Mary Fieher, gave a piano duet that brought high praise.

Miss Lena Hucklestein demonstrated a wonderful command of the piano in the playing of a difficult selection with her left hand alone.

The crowning musical event of the evening was a cantata, "Saint Mary Magdalene," carried by the senior choral class, with Misses Leotta Noud, Viola Finney, Rosella Ryan and Gladys Dmolez as soloists.

Diplomas were bestowed on Miss Mary Ruth Dougherty and Miss Florence Virginia Blake as graduates in the Latin course; and upon Misses Lily May Blake, Mary Ann Fieher, Lena Estelle Hucklestein and Florence Elizabeth Kleeman, graduates in the modern language course.

The degrees were conferred by the Rev. L. Derouin, assistant pastor of St. Joseph's church, who also delivered the address to the graduates, which was an eloquent and earnest plea for a Christian education, for the inculcation of the ideas of obedience to lawful authority, loyalty to the nation and its government and the protection of the youth of the land from harmful influences, either through teaching, example, bad reading or immoral plays.

The front of the stage was banked with flowers, principally fine roses, brought in generous bouquets by the friends and admirers of the graduates.

### Picturesque Warfare Takes Place in Poland

WARSAW, June 16.—Picturesque warfare, strikingly similar to that of the days when the cavalier was supreme, is being carried on in the wild districts southwest of Kiev, where the Poles are fighting the Russian Bolshevik forces, who are endeavoring to regain the territory lost during the recent offensive by the Poles and Ukrainians. It is chiefly a combat between Polish lancers and Bolshevik Cossacks.

Raid by the troops of General Budenny, the Bolshevik cavalry leader, to break the right wing of the Poles protecting the Kiev communications, began several weeks ago. Budenny, who was a general

in the old Russian forces, has been using old and new tactics in ever-lasting wearing and hammering drives. His cavalry is well reinforced by infantry.

Kiev now is in Bolshevik hands, but the Poles say it is perhaps not lost forever, and the front swings back and forth from day to day. Budenny's cavalry consists entirely of crack men, and it is said each must have served at least two years in the old Russian mounted forces.

Returning Americans say that the leader or captain of Budenny's detachments wears a red shirt and leads the cavalry charge, followed closely by lieutenants wearing white shorts. Then comes the drove of Budenny's men wearing shirts of all colors, with the exception of red or white. As far as known Budenny is close by.

### Clackamas County Man Becomes Club Leader

J. E. Calavan, superintendent of schools in Clackamas county, was yesterday appointed by J. E. Church, Ill., state superintendent, as club

leader to succeed N. C. Martin. The appointment is effective July 1. Under Mr. Calavan's direction Clackamas county is one of the best organized in the state for boys' and girls' industrial club work, and he is said to enjoy the confidence of all other county superintendents.

### TIME TELLING THROUGH THE AGES

10—One Reason for Modern Efficiency

Permission of Robt. H. Ingersoll & Co.

Civilization is the product of co-operation and co-operation depends upon the ability to tell time. The cave man counted his time by days but we count ours by seconds and parts of a second. Abolish time-telling and civilization would drop to pieces. The twentieth century runs by clock work. It is the clock upon every wall and the watch in every pocket which make the parts of our complicated civilization work together and keep mankind efficient.

This picture shows one corner of a single American institution which has produced over sixty million watches in the last twenty-five years.

# Dresses For The Street

These are Gingham Wash Dresses made up in some most pretty patterns and of materials that will not fade or lose their new appearance.

They are made by manufacturers who understand the likes of discriminating women. Every pattern will please you. Nothing that Salem women could select would be more comfortable, nor give as dressy appearance in the hot summer days, than these pretty gingham dresses.
