New Discovery Makes Superfluous Hair Leave (Roots and All Depart Instantly)

As hair or fuzz on the face is such an embarrassing thing, every woman so afflicted will welcome the information that these disfigurements can now be completely removed—roots and all—in the privacy of one's own home, without the assistance of an expert. The new method will astonish and delight you. You never saw or heard of anything like it before. It is *not* a depilatory and not electrical. Just get a stick of phelactine from your druggist and follow the simple directions at home. In a jiffy you have removed the offending hairs completely. With your own eyes you see the roots come out. Phelactine is absolutely harmless, non-poisonous and perfectly odorless.

Former Railroad Man Becomes Traffic and Assistant Sales Manager

Rapid development that has resulted from efforts of the Oregon Growers' Co-operative association to organize the fruit industry in the state and place it on a profitable footing in all sections has made necessary recently an increase in the personnel. Ramp of Salem has been employed as manager in the Dallas-Monmouth district, and J. H. Frazier of Portland has accepted a position as traffic manager and assistant sales manager.

Lemmon's Experience Wide. Mr. Lemmon has had a wide experience, particularly in growing, packing and shipping apples and pears. He is owner of an orchard near Hood River, where he spent eight years growing fruit and in the employ of the Hood River Produce company and the Peters Packing company.
