## The Story of a Honeymoon

A Wonderful Romance of Married GARRISON

CHAPTER 621

WHY MADGE CAME BACK FROM THE WALK ALONE

I heard Dicky give a sharp little intake of the breath, and realized that I must no longer postpone my answer to the question he had asked me.

I forced myself to raise my eyes to his. What I had to say to him must be said boldly. It was no time for shrinking.

"My love is strong enough to stand anything, Dicky," I said, and believed that I spoke the truth, "but, oh, my dear, I cannot make the same concession for my respect and belief in you."

My husband's face hardened. "So you're one of the jingoes," he said unpleasantly. "The trifling matter of my leaving you and my mother penniless and unprotected if I did go, of course, hasn't occurred to you. Besides, it would break mother's heart."

I shook my head. "Dicky, dear," I said softly. "Of course it would, and mine, too. But that's what we women have to face these days, the heartbreak that is the hardest of all. And as for leaving your mother penniless, you know that is foolish. There's plenty of your own money in the bank, if used solely for her spending money to last for a long time. And, you forget me."

"I earned my own living and that of my little mother for years. I could certainly do the same for your mother, to say nothing of the funds

my father left for me when he went to South America. There's no possible reason, financially, why you shouldn't feel free to go."

Dicky gave a short hard laugh. "Of course it would be so pleasant for mother to live upon your bounty," he said.

"Not in The Least."

If I hadn't caught the note of pain beneath his perverseness I should have been bitterly angry at him. But I have lived with Dicky long enough to know when he's uttering his true sentiments and when—as he often does—he's simply giving voice to anger to which he has simply worked himself up without cause. That I had hurt him cruelly, I knew, but there was no way in which I could soften the blow. I made an effort to turn his attention to something else.

"Suppose we don't refer to this again," I suggested, as soon as I could command my voice to steadiness. "It can only bring pain to both of us, and there's no way of changing things."

"Tell me more about those illustrations you're to make for the aviation serial."

Dicky gave a little irritated snort,

and I didn't blame him, for the suggestion was a banal one, although the only thing of which I could think of at the moment.

"I'm not in a mood for talking," he said shortly. "If you don't mind, go far as the edge of the woods and then slip off for a long walk. You won't mind going home by yourself?"

"Not in the least," I answered, stung by his tone, and yet yearning to comfort the little boy in him whom I could see beneath his mask of surly indifference.

The Vase Entouched.

"All right," and neither of us spoke again until at the edge of the woods Dicky raised his hat and said curtly.

"Don't bother to have Katie wait luncheon for me. I'll get something wherever I happen to stop. Good-by."

"Good-by," I returned steadily, but as I walked swiftly toward home I had hard work to keep the tears from running down my cheeks. I was glad that I met no one on the way.

My heart was heavy indeed as I hurried upstairs to my room, un-

locked the door, and entered, locking it again behind me. But I meant to spend no time in reflection. If Dicky were to be a "slacker"—how I hated the ugly word—there was all the more reason for me to do everything in my power to help my country. The work under Lillian was as distasteful to me as it could possibly be, but in the mood I was in I felt that nothing could be too hard nor too obnoxious for me to undertake.

I ate a hurried luncheon, to which, fortunately, Cousin Agatha didn't come down on the plea of a headache, and spent the afternoon getting my personal affairs and wardrobe in readiness for the coming days I expected to spend in the city doing the work Lillian had planned for me.

One thing brought me relief. The Chinese vase had not been tampered with. Either I had been mistaken about Cousin Agatha or she hadn't dared to enter my room in the face of my precautions. But I resolved to take the precious paper to Lillian's with me every day securely concealed about my person. I must prove to my own satisfaction that neither Agatha nor Katie suspected my use of the vase as a hiding place before entrusting it to for any

purpose of this important document which I was guarding.

To Remove First Signs of Old Age

The inflexible first sign of age is the sagging cheek muscle, says Mrs. Cavallari, whose fame as a beautician is widely known. These are more difficult and perhaps to treat than wrinkles, she continues. The sagging muscles indicate they have grown too weak to remain in place; they must be supported, strengthened.

The best way to strengthen them is by bathing the face in a simple lotion made by dissolving an ounce of superfine talc in a half pint of witch hazel. This creates a protective film to the parts besides causing muscle and skin to contract. Saxolite, procurable at every drug store, has long been known by complexion specialists to possess remarkable tonic and astringent properties, valuable in treating flabby tissue and wrinkles.

of the Travelers' Protective association was concluded at today's sessions, except for the election of officers and formal announcement of the selection of Louisville, Ky., as the place for holding the 1921 convention. R. J. White will be elected president without opposition, according to statements by association officers. Delegates were entertained today with automobile rides and in other ways.
