Freak Berry Found.
P. A. Henningsen has a freak strawberry which was grown in his acre strawberry patch, five miles south of Salem, near Livesley. It has four corners, is concave in shape, about the size of four walnuts combined, weighs 3 ounces and measures about eight inches in circumference. The largest way around. The stem is large and flat. The berry is perfect in texture and is of unusual size and shape. It was grown among the Wilson variety of berries, and all who have seen it pronounce it a freak of nature.

Don't Miss Today's Show.
It's a crackerjack, at Bligh's.

Mrs. Durdall Sues.
A divorce complaint was yesterday filed by Hallie Parrish Durdall against O. B. Durdall. In her complaint she alleges cruel and inhuman treatment and that the defendant has been guilty of indignities. The plaintiff claims Mr. Durdall has failed to give her a substantial allowance though he is able to do so. She prays for attorney fees and alimony of one-third of the defendant's estimated wealth which the plaintiff claims to be between \$20,000 and \$45,000. The couple were married on June 24, 1917.
