

150 Shaves!

Every tube of Purola Shaving Cream contains the "makins" for about 150 cool, satisfying shaves. Each particle of cream multiplies itself hundreds of times with water.

We waited years before we put out a "Purola" Shaving Cream. We were not satisfied to put the "Purola" name and guarantee on record until we had a cream that represented a real improvement.

Now, make this test! Take a several days growth of beard—those boasting of tough, wiry beards, especially invited. Use hot water and a pinch or so of Purola Shaving Cream. Sixty seconds of lathering and you'll have the face covered with the creamiest, softest lather a man could want. It'll retain its creaminess without replacing until you've been over the face, and leaves a comfortable, exhilarating impression that lasts long after you shave.

Get a tube at your druggist's. Try it tomorrow, and if Purola Cream doesn't do what we say, the trial is on us. That's our guarantee.

The following clipping, taken from a recent issue of Musical America, telling of the appearance of Miss Winifred Byrd, pianist, and Jacques Thibaud, French violinist, with the Baltimore symphony orchestra, will be interesting locally because Salem folk are naturally always deeply interested in the success and each new accomplishment of this Salem girl. And it will be interesting also because Jacques Thibaud, and his accompanist, L. T. Bruenberg, are to appear in Salem in October under the auspices of the Salem Musical bureau, in a recital with Susie Fennel Pipes of Portland.

"With a brilliant presentation of the Liszt 'Fantasy on Hungarian Folk Melodies' for piano, the young American artist, Winifred Byrd, made her initial appearance. The delicate style at command became forceful and vigorous, so that the varying moods of the familiar com-

position were suggested significantly. Many recalls were earned through this individual reading of the Liszt number.

Jacques Thibaud, the French violinist, assisted by L. T. Gruenberg, pianist, gave the fifteenth Peabody recital, Friday afternoon, February 13. The refined interpretations which M. Thibaud gave to his offerings marked the splendid spiritual and intellectual style, the breadth and nobility of his art. The accompaniments of Mr. Gruenberg were highly intelligent."

Strong Sentiment Favors Heading McAdoo's Request

SAN FRANCISCO, June 28.—Strong sentiment against having William Gibbs McAdoo placed in formal nomination cropped out tonight at an informal meeting of McAdoo delegates and supporters. While the matter was not brought formally before the gathering, the subject was discussed at length by groups. The prevailing opinion appeared to be that inasmuch as Mr. McAdoo had specifically requested that he be not placed in nomination, it would be best to abide by his request. The first mention of his name under a plan under discussion would come when Alabama casts its votes for him. McAdoo supporters expect to have 12 or 13 votes from Alabama on the first ballot.

State and Government Co-operate Under Law

Under an act of congress, recently passed, Oregon will have from the federal government \$1000 this year and \$2000 for both 1921 and 1922 to be used for vocational education work for industrial cripples. The state, through the industrial accident commission, will match the amount dollar for dollar. The state board for vocational education, of which J. A. Churchill, state superintendent of schools, is executive officer, will represent the government, and will collaborate with the accident commission, representing the state, in using the funds in Oregon. This makes no change in the commission's plan of rehabilitation for men who are disabled by industrial accidents.
