Motorists Urged to Save Gas for Coming of Elks—Motorists of Salem are being urged by dealers to follow in the footsteps of Portland and save gas for the Elks' convention which opens July 23. There will probably be about 2000 Elks in Salem at that time, 500 Portland members having already signified their intention of visiting the meeting. There is now grave danger of a gasoline shortage, which would be exceedingly embarrassing to Salem as host. The visitors will be here during the height of the berry season and it is essential that trucks and vehicles used for hauling fruit be supplied first. It seems that the idle joy rider will be forced to curtail his motoring until after the visitors leave.

Apple and Pear grading Standardized for State—Rules for the grading of apples and pears for shipment will be standard for the northwest states and will be similar for Oregon, Washington, Idaho and Montana as a result of a meeting called in Salem yesterday by the Oregon Fruit Growers' association. Standards for Oregon were adopted. Several growers of Washington, where the standard rules have lately been adopted, attended the meeting. The rules relate largely to the size of boxes and follow suggestions made by the railroad for convenience in shipping.
