

CAMPERS ENJOY LOCAL GROUNDS

Electric Lights Are Installed and Other Improvements Are in Progress.

Many new improvements are being added to the city camp grounds that will add to the convenience of the touring motorists who spend the night at the grounds. The need for this improvement has been felt since the opening of the grounds for campers, but its provision has been retarded due to lack of funds.

New cluster electric lights are to be installed at the entrance to the grounds. In addition to this, lights are to be installed along the creek that runs through the camp, as most of the campers desire to encamp along the creek. Heretofore lights were provided only for the center path and at the lavatories.

EAT LESS MEAT IF BACK HURTS

Take a glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

with the addition of these improvements the camp will become one of the best in the state. Campers say who have made the journey through Oregon, according to T. G. Albert, from the southern part of the state and eastern Oregon that Ashland has the only camp grounds that would compare with the local grounds. The grounds here excel because, according to the campers who have camped at Ashland, it is much larger and has better facilities.

The campers and the cherry growers are keeping the grounds in the way Mr. Albert, the superintendent of the grounds, describes the cherry situation at the camp. He says that many of the campers have secured employment in cherry orchards. Some leave for the orchards from the grounds by automobile and return in the evening.

The following were registered at the grounds yesterday: Mr. and Mrs. J. W. Clark, Lebanon; Mr. and Mrs. W. M. McCue, Marlin, Idaho; Mr. and Mrs. C. E. King, Jerome, Idaho; Mr. and Mrs. J. A. Johnson, Jerome; Mr. and Mrs. J. H. Haggerty, Kalispel, Mont.; Mr. and Mrs. J. S. Smith, South Bend, Wash.; Mr. and Mrs. George Roth, Seattle; Mr. and Mrs. A. Johnson, Seattle; Mr. and Mrs. C. Leitch, San Diego; Mr. and Mrs. R. Brewer, San Francisco; Mr. and Mrs. W. B. Karwan, Portland; Mr. and Mrs. J. L. Morgan, Portland; Mr. and Mrs. George Calkins, Portland; Mr. and Mrs. A. Hull, Eugene; Mr. and Mrs. J. Bowen, Moorhead, Minn.; Mr. and Mrs. W. E. Enos, Boise, Ariz.; Mr. and Mrs. R. R. Stewart, Oakland; Mr. and Mrs. L. Powell, Prosser, Wash.; Mr. and Mrs. J. Howell, Los Angeles; Mr. and Mrs. A. J. Bowman, Los Angeles; M. L. Fisher and son, Portland; Mr. and Mrs. James Hudson, Stapleton, Neb.; Mr. and Mrs. Charles Dutton, Hastings, Neb.

NATIONAL HIGHWAY ORDERED.

NOGALES, Ariz., July 6.—A great national highway has been ordered constructed by the new Mexican federal government to extend from Sonora, on the international line, along that line to Juarez, opposite El Paso, Tex., and from that point proceed on down the central tableland of Mexico into the City of Mexico. The contemplated highway when completed will be of about 2000 miles.

A projected road from Tucson, Ariz., to Port Lobos on the Gulf of California crosses from this state into Sonora, Mexico, at Sonora, where the new Mexican national highway starts. Thus according to plans, the highway from the Mexican capital will connect with the great state system of Arizona and through that state with the fine system of roadways in California.

TEACHERS IN CONVENTION

Against Affiliation with Any Religious, Economic or Political Group.

SALT LAKE CITY, July 6.—The National Education association's "commission on the emergency in education" made a clear cut recommendation against affiliation of teachers with any religious, political or economic group. In a report presented to the association today, it with others will be acted upon Friday.

The report, read by George D. Strayer of Columbia university, vice president of the association, said: "The teachers as a unit cannot federate with labor," and at the same time hope to keep the confidence of the whole people."

It described steps leading to the drafting of the Smith-Townsend bill to create a department of education with its head a member of the president's cabinet, and made an argument in behalf of the measure.

"It is a sound principle which proposes that the wealth of the nation be put back to the education of all its children," the report declared. "Touching on salaries, the report asserted \$1500 was the minimum necessary for 'existence,' without provision for the future, and declared that \$1800 annually was necessary to assure the average teacher economic independence. It added that 10 to 20 per cent additional must be paid if the teacher is to have opportunity for 'cultural growth.' The report said it was an error to draft 'the ablest of our class room teachers for administrative posts.'"

The question of affiliation of teachers' organizations with labor bodies brought on a colloquy in the meeting of the national council of education, in which Mrs. Susan Dorsey, superintendent of schools of Los Angeles referred to Miss Margaret Haley of the Chicago Teachers' association as "soap box orator."

SERVICE MEN MAKE PLANS FOR SESSION

(Continued from page 1)

post, reported that over a hundred ex-service men had been given positions since that committee began work several months ago. He reported that there will be more need of this committee's work this winter than last, according to the labor market prospect. He urged that employers having jobs to let him or Paul Wallace, chairman of the committee know about their needs, and

that the committee would endeavor to fill the need with ex-service men.

Appropriation is Sought

Plans for pushing to a successful conclusion the campaign to secure the appropriation of \$10,000 by Marion county for the erection of a memorial building were talked over, and it is expected the legion will make a strenuous fight to put this objective over. It was pointed out that other communities are erecting soldier memorial buildings costing over \$500,000 and that this memorial proposed is to be about \$50,000.

After the transaction of other routine business adjournment was taken until the next regular meeting the first Tuesday in August.

LLOYD GEORGE DISTRUSTS HUN

Germans Declare They Are Not Evading Treaty Terms.

SPA, Belgium, July 6.—Whether the conference on the peace treaty breaks up tomorrow depends upon whether the Germans present a plan for disarmament, the immediate reduction of the German army from 200,000 to 100,000 men and the surrender of upwards of 1,500,000 rifles in the hands of the people, as well as other arms.

Premier Lloyd George, speaking for the allied governments at today's session, presented what may be called an ultimatum, but which Dr. Simons, the German foreign minister, termed "a very positive demand."

The German ministers are in session tonight at a villa three miles from Spa, which is picketed by gendarmes. Another meeting of the Germans will be held tomorrow. Dr. Simons said to the Associated Press this evening:

"We do not know yet what we will do. The situation is far too serious for me to make a comment on it. I would rather you did not press me."

The impression among observers is that the Germans will present a plan. The German delegates do not appear unwilling to their people to see how difficult the position is.

The most dramatic moment of the session was when Premier Lloyd George said: "I do not believe that the Germans intend to execute the treaty."

The German foreign minister immediately interrupted saying: "You have no right to make any such remark. We are trying to execute the treaty."

Chancellor Fehrenbach invoking the name of the creator, cried: "We are loyally trying to execute the treaty."

The question of execution of the military, naval and aerial clauses of the Versailles treaty was taken up immediately after the formal meeting opened at 4:30 p. m.

Minister of Defense Gessler explained the German situation, in support of the contention that the German government that it must have an armed force of 200,000 men to maintain order in the republic. He said there was little difference whether the force was labelled army or police, provided the men were under control of the central government.

Rumania Being Swept by Vast Wave of Speculation

BUCHAREST, July 6.—Rumania is being swept with a vast wave of speculation, the object of which is to overcome the high cost of living, which harrasses the richest and poorest alike. The primary cause of the advanced price of necessities is found in the fact that all manufactured products have to be imported whereas there is sufficient amount of food grown in the country to support the population and this food has not risen in proportion of dress goods.

The cost of living in Rumania has been the occasion of many strikes but as in every other country in Europe, people seem to find unexplained ways of buying fine clothes and keeping themselves well dressed.

The American Red Cross has contributed to the clothing of a good many thousands of people in Rumania. Some of this clothing found its way to the shops. It is not uncommon to find women who have converted army shirts into skirts, first dyeing them another color. Blankets have also been used for the making of cloaks and overcoats.

The American shoe is practically the only article to be found in the shops. These shoes sell at a price of \$4 to \$8, cheaper than in the United States. Prices of clothing have been increased about ten fold as compared before the war. Women's dresses which formerly cost 200 lei or about \$35, now cost 2000 lei.

BARGAIN DAY

CRIMES ARE LESS IN PHILIPPINES

Polygamy Practice on Wane as Girls Are Taught Modern Methods in Schools.

MANILA, P. I., July 5.—Practice of polygamy in the Philippine Islands is being reduced through education of girls of the leading families of the outlying provinces, according to Frank W. Carpenter, retiring governor of the department of Mindanao and Sulu.

Mr. Carpenter is here to turn over administration of his office to the secretary of the interior who will act through the bureau of non-Christian Tribes in accordance with a new territorial law. This law leaves in effect a treaty under which the sultan of Sulu renounced all pretensions to temporal sovereignty but gained recognition as ecclesiastical head of the Mohammedan church in the Sulu archipelago. The treaty guarantees to the sultan and his people "the same religious freedom had by all adherents of all other religious creeds, the

practice of which is not in violation of the basic principles of the laws of the United States."

"It is important to note," said Carpenter in one of his messages written as governor, "that this includes a limitation as to religious practice which necessarily includes the abandonment of polygamy. There can be no question that it will disappear as the relative number of persons of the two sexes reach an approximate natural equality."

"An effort to impose upon the people of the sultan at this time the invalidation of polygamous marriages heretofore contracted, the prohibition at this time of polygamy or the discontinuance of divorce, must undoubtedly result in the active resistance of a people imbued with fanatic determination to die rather than submit to a privation of their religious liberty in matters they believe to be fundamental and sanctified by divine authority."

Mr. Carpenter said that girls of prominent families in Mindanao and Sulu are being sent to Manila public schools where they associate with Christian girls and gradually become imbued with the monogamous ideas held by Christians. The girls are advised to adhere strictly to their Mohammedan religion as their influence is said, would be destroyed if they abandoned it. When they return to their own people, according to Carpenter, who predicted that the practice will be virtually wiped out in the course of a few years.

Spanish-American War Veterans in Convention

MARSHFIELD, Or., July 6.—The Spanish-American war veterans' state convention opened here today. There are 75 delegates present and 40 women of the auxiliary. Today's session was given up entirely to business and tomorrow morning the election of officers will be held. Tonight the visitors were guests of the local post at a grand ball in the armory and Wednesday afternoon all will go to the beach and Shore Acres on an outing.

To Have Perfect Skin Throughout the Summer

This is the season when she who would have a lily-white complexion should turn her thoughts to mercerized wax, the firm friend of the summer girl. Nothing so effectively overcomes the rolling effects of sun, wind, dust and dirt. The wax, literally, absorbs the scorched, discolored, withered or congested skin, bringing forth a brand new skin, clear, soft and girlishly beautiful. It also unclogs the pores, removing blackheads and increasing the skin's breathing capacity. An ounce of mercerized wax, obtainable at any drug store, applied nightly like cold cream, and washed off mornings, will gradually improve even the worst complexion. There is nothing better for the removal of tan, freckles or blemishes.

QUALITY

QUALITY

There is no refrigerator made quite so good as the Automatic. We think you'll find that so when you investigate.

6 REASONS WHY

The Automatic Refrigerator is the best

- 1st.—The eight walls of insulation keeps cold air in; keeps warm air out. Saves a great deal of ice.
- 2nd.—The porcelain lined water cooler. Same ice cools foods and water. Ice does double duty.
- 3rd.—Wide shelves of best possible construction permit use of large platters, and so forth.
- 4th.—Patented water bottle holder. In event you wish to use bottled water. Exclusive feature with Automatic.
- 5th.—System of air circulation (air must and does keep moving in an Automatic.) Keeps foods fresh, sweet, wholesome, cold.
- 6th.—Most accessible, most easily cleaned and most sanitary trap ever invented. We have several other good lines of refrigerators.
