West May be One of Chief Battle Grounds in Nov.

DAYTON, O., July 9.—That the West may be developed into one of the chief battle grounds early in the national political campaign was the inference drawn from today's developments here.

Governor James M. Cox, democratic candidate for president, stated that many requests that he open the campaign in the west have been received, and in his talk early with newspapermen he left the impression that he was interested in an early invasion of the west, if not in fact favorable to it. He stated, however, that campaign arrangements are in the hands of the national committee and that he could say nothing definite until he has conferred with the committee.

W. W. Blain, president of the Corn Palace, Mitchell, S. D., headed a delegation that called on the governor today urging him to accept an invitation to speak at the festival to be held September 27 to October 7. Charles E. Morris, the governor's private secretary, telegraphed from San Francisco, he was being besieged by California delegations urging that the campaign be opened there. Mr. Morris told the governor that California democrats are certain they can carry the state for him.
