ITALY MECCA FOR THIRSTY

786,000 Saloons For Her 40,000,000 Inhabitants Says Report

ROME, Aug. 10.—Italy can not be called the "desert of Europe" because for her 40,000,000 inhabitants she provides 186,000 places where wine and alcoholic beverages may be consumed, according to the Italian Statistical Annual which has just been published. Lombardy with a population of about 5,000,000 leads the way with 32,642 drinking places, the figures show. Piedmont follows her closely while the province of Rome, which in 1911 had a population of less than 3,127 drinking places. Less intoxicants are consumed in the south, in the island of Sardinia and in Umbria than in any other regions. Many other interesting features of Italian life are revealed by the annual. The death rate of illegitimate children, for instance is shown to be 40 per cent greater than that of those born legitimately. Tuberculosis is the most common cause of death, in Italy has more than 120,000 elementary schools, with 76,000 teachers and about 4,000,000 students although about 46 per cent of the Italian people, especially in the south, are reported illiterate. Piedmont, in the north, has only 17 per cent, the smallest number of illiterates. School enrollment shows 70,000 normal and complimentary students; 62,500 in gymnastics; 15,000 in lycées; 130,000 in technical schools; 29,000 in technical institutes; about 3,000 in nautical institutes; 35,000 in schools of mineralogy; 12,000 in industrial or commercial schools; about 3,000 in art schools; 4200 in musical schools and institutes; 4000 in boarding schools and 40,000 in the universities. For the latter there are about 1050 professors; 2,200 teachers and 400 employees.

While Italy has no regular poor law, some of its 28,614 charitable institutions, with a capital of about \$435,000,000 date from the middle ages and provide for more than 1900 hospitals, 17 lunatic asylums, 52 orphanages, 21 night refuges, 16 food kitchens and about 100 refuges for deserted children. The statistics say that in Italy annually 200,000 children are abandoned by their parents. Italy has more than 120,000 elementary schools, with 76,000 teachers and about 4,000,000 students although about 46 per cent of the Italian people, especially in the south, are reported illiterate. Piedmont, in the north, has only 17 per cent, the smallest number of illiterates. School enrollment shows 70,000 normal and complimentary students; 62,500 in gymnastics; 15,000 in lycées; 130,000 in technical schools; 29,000 in technical institutes; about 3,000 in nautical institutes; 35,000 in schools of mineralogy; 12,000 in industrial or commercial schools; about 3,000 in art schools; 4200 in musical schools and institutes; 4000 in boarding schools and 40,000 in the universities. For the latter there are about 1050 professors; 2,200 teachers and 400 employees.

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

JAPS TO BUILD BIG WARSHIPS

Government To Ask For Appropriation of \$22,199,499 For Large Navy

TOKIO, Aug. 11.—The Japanese government has decided to ask for an appropriation of approximately \$22,199,499, to be expended in the construction of new warships and other naval requirements for the current fiscal year as part of the national defense. The plan is based on the completion of the eight battleship and eight cruiser units. The whole naval repletion program is to be completed by the end of 1927, the total expenditure being fixed at over \$450,000,000, spread over ten consecutive years. Of that sum over \$375,000,000 is intended for the construction of four battleships, four battle cruisers, 12 cruisers, 37 destroyers and a number of other war craft. The original sum of this year's outlay was fixed at \$32,199,499 in the navy budget estimate, but owing to insufficient financial course that amount has been cut down by about \$11,000,000. The outlay for the army involved in the national defense completion plan has been also curtailed to the extent of about \$5,000,000, the expenditure for the present fiscal year being fixed at approximately \$11,080,000. The expenditure required for the execution of the national defense completion plan for the army is fixed at about \$12,500,000, which is spread over ten consecutive years, commencing the present year. The appropriations both for the army and navy to be introduced in the coming session of the Imperial diet.

ELECTION GIVEN PRECEDENCE.

PORTLAND, Or., Aug. 12.—The presidential election has been given precedence this year in planning for the annual food show held at the armory by Portland merchants and the date has been moved up to the week following November 4.

WILL CAN BLACKBERRIES

ALBANY, Ore., Aug. 12.—With

Evergreen blackberries no longer regarded by the farmers as a pest. Preparations are being made to handle at least 500 tons of the fruit at the Albany cannery this season. Work will begin on them as soon as the present rush of loganberries is out of the way.

Flirting Is a Dangerous Pastime

—Our spinster aunts, our dear old grandmothers, and even our own fathers and mothers denounce flirting as being dangerous.

—When a married man flirts, BEWARE of him.

—Despite all the warnings, many many men and women are flirting with trouble, sometimes serious troubles, when they neglect their eyes.

—Headaches, nervous disorders, blinding sensations, blurring of the vision—all these are nature's warnings that our eyes need attending to.

—Don't let ignorance of the real condition of your eyes stand between you and comfort and that security of future vision.
