

POLICE TOLD TO ENFORCE DRASTIC LAW

City Council Refuses to Repeal Prohibition of Parking Trucks

CHIEF HUTTON HEARD Two-Platoon System Presented, But Action Deferred Two Weeks

In a vote to repeal the ordinance in regard to the parking of trucks on business streets of Salem, the majority of the councilmen, defeated the motion to repeal last night. The vote for repeal lost by a small margin. Those voting against the repeal ex-

pressed a desire to give the ordinance a thorough trial before repealing. Immediately following the vote Alderman Edward Schunke made a motion to have the ordinance committee take steps for the repeal of the ordinance and report at the next regular meeting. In the meantime the chief of police is to enforce the ordinance.

Owners to Be Warned.

Chief of Police J. T. Welsh said last night that he was going to enforce the ordinance to the letter during the interim. However, he said that truck owners will first be warned concerning the parking of their trucks as prescribed by the new ordinance.

"If a truck owner is arrested," said City Recorder Earl Race, "and brought before me, there is nothing for me to do but to enforce the law."

However, he expressed his opinion that truck owners ought to have a chance to be informed. Another ordinance governing traffic, parking of cars on the streets of Salem, traffic at the intersections of streets, establishing the right-of-way of automobiles, and the observance of proper clearance in passing cars on the streets, and to give aid when

another car is in distress, was passed by the councilmen for the first and second readings at the meeting last night. The third reading of this ordinance will be at the next regular session. Any objections to the ordinance will be heard at that time.

Hutton Presents Plan.

Fire Chief Harry Hutton presented the proposed plan of adopting the two platoon system for the fire department of Salem to the councilmen. Hutton outlined his previous announcement about the feasibility of the system. His plea was for the endorsement of the plan by the councilmen, so that such a sanction by the aldermen may be helpful when the subject is put before the people on the ballot.

Councilman R. W. Simeral in extending the courtesy of the floor to Fire Chief Hutton expressed his opinion that the two platoon system is a worthy one, and that the proper step to take in the matter is to place it on the ballot for the decision of the people. This step was necessary he said because the funds for the two platoon system must come by increased taxation, as the city treasury, in its present condition, is unable to meet the added expense.

Action Deferred.

After a motion by Alderman Schunke, definite action on the two platoon system was deferred until the next meeting, so that the fire committee may report on the merits of the system and also present recommendations.

A resolution in regard to extending to the Salem Kings Products company the same privileges as obtained by the Wittenburg company concerning a building site near their present location was referred to the street committee.

Sewer Is Wanted.

John Thielsen and eleven other residents of the Oford addition presented a petition to the council for the installation of a sewer in their district. The matter was referred to the sewer committee. Another petition was presented by the residents of North High and Division streets, asking that the grade between High and Division streets be lowered so that the drainage may run in the direction of Mill creek.

The offer of Minot E. Marchand to pay \$102.94 lien which the city holds against property on Market street for improvement constructed by the city in 1913 was accepted by the council.

Engineer Cupper Will Attend Boise Meeting

Percy A. Cupper, state engineer, will leave Wednesday for Boise where on August 20 he will attend a meeting of the executive committee of the Western States Reclamation association. Business relative to new legislation to be introduced in congress will be taken up. A bill providing for an appropriation of \$250,000 for reclamation advancement is planned to take the place of a bill defeated by the recent congress. Governor Davis of Idaho is president of the association.

SILVERTON STORE SOLD

SILVERTON, Or., Aug. 16.—(Special to The Statesman)—The Benton store was sold Thursday to Z. Tasker of Portland.

The Benton store has been one of Silverton's leading merchandise stores for 20 years. Only the dry-goods department has been sold.

Reed Benton has taken over the groceries and will move into the brick building he recently rented on first street.

Gill Benton, who for years was buyer for the Benton store will take a short vacation before again taking up business.

Portland Companies Try to Relieve Ice Famine

PORTLAND, Aug. 16.—A partial ice famine held the city in its grip again today for the fifth successive day. Thousands of residences were unable to get ice delivered. Many restaurants were heavily cut in their requirements by the ice companies. The ice plant of a large brewery, idle since the state went under the prohibition law, was fixed up to help relieve the scarcity. Ice company officials differed in their explanations as to the exact cause of the shortage, but all agreed that the demands of the past few days had been unprecedentedly heavy.

TRAINLOADS OF PEARS SHIPPED OUT OF STATE

Important Step in Market Development Told by Lewis at Luncheon

MANY MEMBERS HEARD Scheduled Speaker Fails to Appear, but Meeting One of Best of Year

For the first time in the history of the Oregon fruit industry solid trainloads of pears are now being shipped out of the state to eastern markets. This information was given members of the Salem Commercial club at the Monday luncheon yesterday by C. I. Lewis of the Oregon Growers Co-operative association. Further, he said, there is an extensive export trade out of Oregon this year.

Mr. Lewis said that shipments of pears are going out of Medford every day. The successful shipment program, Mr. Lewis attributes to a shipping arrangement that has been formed by the association and growers in the southern part of the state. Indications are that the yield of pears will be 15 per cent above early estimates, Mr. Lewis said. This will mean between 4000 and 5000 tons for western Oregon.

Prune Yield Immense.

The apple yield Mr. Lewis estimates at from 1000 to 1100 carloads, or about 60 or 70 per cent of last year's yield, and a recent study of the prune situation causes him to stand by an early-season estimate that the yield for Oregon and Clark county, Wash., will be 60,000,000 pounds of the dried fruit.

Although the scheduled speaker disappointed the club members by leaving town early yesterday, the noon luncheon was turned into one of the best meetings of the year. Manager McCroskey asked several members to offer suggestions for use of the club in its administration of affairs and there were some rattling good responses.

W. I. Staley spoke in a commendatory manner of the practice inaugurated by the Cherrians and the Commercial club in visiting the tourists at the automobile camp grounds, and suggested that there should be a special committee to extend the same courtesy to all strangers coming into the city at any time of year.

Lure Them, Urges Perry.

"Don't spend too much money in advertising the city to bring people here. Our camp ground, with its swimming pool and other conveniences will attract them," was the offering of J. C. Perry.

J. B. Littler told of his recent trip to California and the "welcome" signs found on the highways approaching the cities. He suggested that a similar move should be inaugurated here. B. E. Sisson also favored a more extensive system of road signs.

H. T. Love said he had lived in New York, Pennsylvania and other places and traveled in nearly every state, and that in all cases the last town he lived in was the best. "I am now a citizen of Salem," said Mr. Love.

H. H. Haynes of the Salem Baking company commended the ability of Salem to produce fine roses, and urged competition in the beautification of different blocks of the city. He said he was willing to be one to contribute to a fund of several hundred dollars to be distributed in prizes.

Portland Corner Suggested.

Mr. Haynes suggested that a Portland corner should be arranged in the dining room and men from various Portland organizations invited to each Monday luncheon.

Manager McCroskey announced that the Portland Beavers will be the guests of the club at the luncheon next Monday. The Beavers, Portland's Coast league baseball team, will be here that day to play the Senators.

AGRICULTURE TO BE BIG TOPIC

Vocational Education Department Calls Convention at Hood River

E. E. Elliott, director and supervisor of vocational education in Oregon, announces the second annual conference on vocational agriculture which will be held at Hood River, August 25, 26 and 27. An invitation to attend is extended particularly to superintendents, principals, school board members and all school officials and agricultural instructors.

Arrangements for entertainment are being worked out by a local committee at Hood River. A banquet, excursion through the Hood River valley and ascent of Mount Hood have been suggested.

Interest is being added to vocational work in the state by a monthly publication called the News Item, which is published by the vocational department.

The program for the Hood River conference follows:
Wednesday, August 25
1:30 p. m.—E. E. Elliott, director and supervisor presiding.
1.—Review of vocational education in Oregon.
2.—"Why Are We Here?" G. L. Jessup, Union high school No. 2, Umatilla county.
3.—Round table discussion. Practical application of the theories of the Smith-Hughes law. Led by O. F. Kilham, Newberg.
4.—The Relation of the Federal Rehabilitation Law to the Agricultural Departments. Frank H. Shep-

herd, supervisor Trades and Industries, Corvallis, August 26
9 a. m.—C. D. Thompson, Medford, presiding.
1.—Establishing a department of vocational agriculture.
(a)—The Plan and the Plant. E. J. Edwards, Cottage Grove.
(b)—The Course of Study. Jordan F. Beck, Redmond.
(c)—Adjustments of the Department to the Schedule and Administration of the School. George W. Hug, McMinnville.
(d)—The Typical Agricultural Student. Leo D. Hollenberg, Enter, Prinee.
(e)—Those Bothersome Reports. Virgil Fendall, McMinnville.
2.—Smith-Hughes Work. Three Points of View.
h (a)—The Superintendent. W. J. Mishler, Woodburn.
(b)—The Instructor. R. V. Wright, Hood River.
(c)—The Patron. F. B. Ingels, Dufur.
1:30 p. m.—Elmer F. Goodwin, Gresham, presiding.
1.—The Farm Home Project.
(a)—Plans and Objections to the Project Plan. Martin A. Schreiber, Woodburn.
(b)—Determination of the Scope and Character of Projects. H. H. White, Lebanon.
(c)—Supervision, Determining Values and Credits. The Time-Limit. G. L. Jessup.
(d)—Records and Reports.
(e)—Actual reports on Completed Projects and Illustrations of Successful Work.
2.—What is Worth While and How to Estimate It. H. M. Skidmore, Federal Regional agent for agriculture.
3.—Training Teachers in Service. E. D. Duxsee, instructor in Agricultural education, Corvallis.
Friday, August 27
9 a. m.—E. D. Duxsee, Corvallis, presiding.
1.—Coordinating Farm Mechanics in the Agricultural Course.
2.—The Class Room.
(a)—Organization and Sequence of Agricultural Courses in an Oregon High School.
(b)—Conduct of the Class Room Exercises. Illustrated.
(c)—Problems of Department.
(d)—Demonstrations of the Use of Library and Reference Material.
3.—Suggestions From the California Plan. R. V. Wright, Hood River.

BOY MISSING FROM HOME

The newspapers of this state are being asked to help to locate Manning A. Trea, 17, missing from his home in Ithaca, N. Y. He is said to be a boy of good habits and it is thought probably he was lured away by advertisements of big wages being paid boys. He is 5 feet 8 inches tall, dark, weighs about 135 pounds, plays clarinet and cornet well enough to take a position in a band or orchestra. His father, A. E. Trea, of Ithaca, N. Y., or his aunt, Mrs. A. T. Hoyt of Moravia, N. Y., will be grateful for any information concerning him.

MONTANA OIL WELL LARGEST

LEWISTON, Mont., Aug. 16.—An official measurement of the flow at the Prantz well in the Mosby field, which blew itself in Sunday, made yesterday, shows the gusher is flowing a little over 1,800 barrels per day. It is claimed this is the largest well in the world producing oil with a 51 per cent gasoline content.

"Yours for Real Tobacco" says the Good Judge

Men are getting away from the big chew idea. They find more satisfaction in a little of the Real Tobacco Chew than they ever got from a big chew of the ordinary kind.

Costs you less, too—the full, rich tobacco taste lasts so much longer. Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles
RIGHT CUT is a short-cut tobacco
W-B CUT is a long fine-cut tobacco

Be Young In Body, Mind and Looks Despite Your Years

How often you have wished that you could indulge in the strenuous exercise of out door sports with the vigor and enthusiasm of youth! But the end of the week finds you all in—you are tired, listless and lack the energy to go out for a vigorous walk or a round of the links—or any other exercise that requires much physical exertion. Many a man, even in his middle forties, has a vague feeling that he is "getting old"—and right at a time when he should be at his very best physically.

Thousands—yes millions—of people find themselves in this condition early in life. And there is no excuse for it. You can check that tendency to grow old. You can carry your youth with its joys and enthusiasm into your 70's and 80's. But you must give Nature all the help you can. The best assistance you can find—assistance of a sound, constructive character—is in the use of

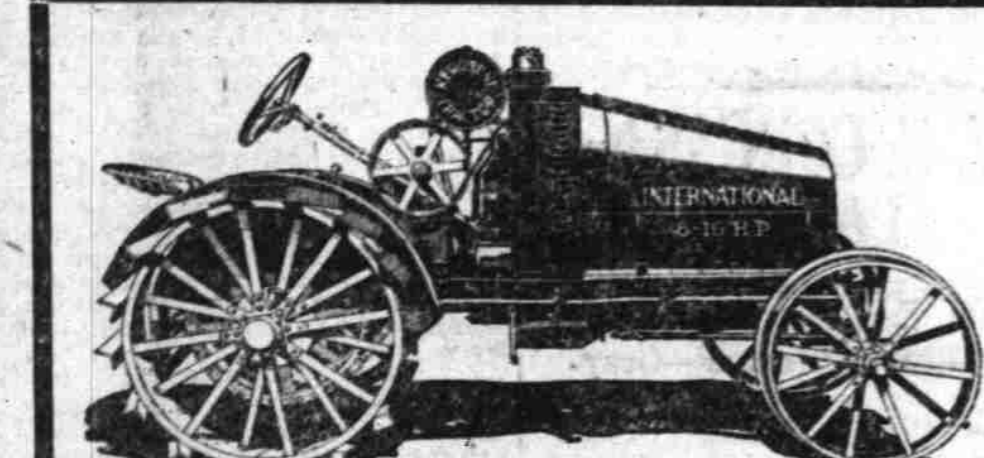

LYKO

The Great General Tonic

It enriches the blood—gently stimulates heart, liver and kidneys to normal activity—brings back your pep, punch and mental vigor—chases away that tired, worn-out feeling and replaces it with a spirit of buoyancy.

For sale by all druggists. Always in stock at Perry's Drug Store.

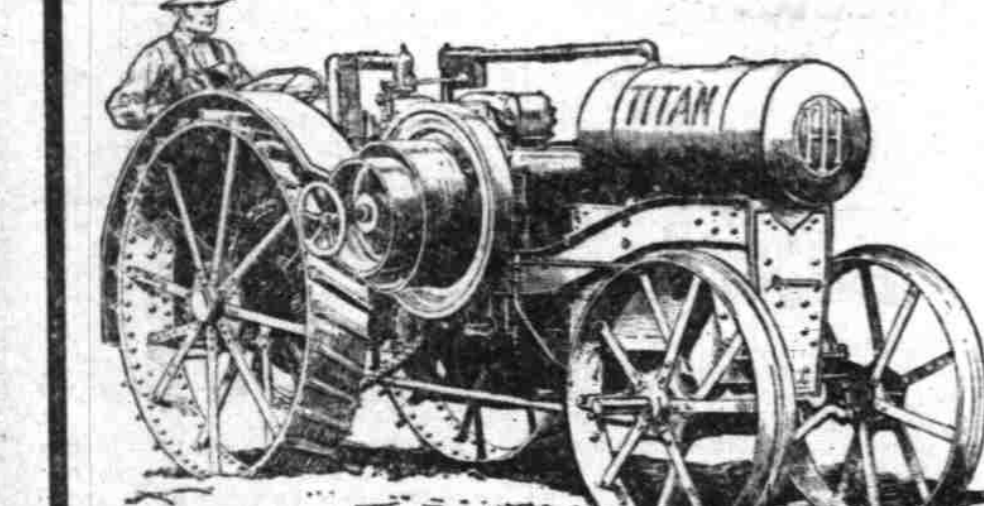

INTERNATIONAL 8-16

Special Price \$1043 F. O. B. Salem

With the high price of gasoline the cost of fuel in the operation of a tractor is an important matter. These tractors are built to use either distillate or kerosene, and the use of either of these fuels, being cheaper and more plentiful than gasoline, would reduce the cost of operation very materially.

You will soon be ready to begin your fall work. Do it with an 8-16 International or 10-20 Titan. Place your order now for this special price will be offered but a few days longer. This means a saving of \$100 to you.
