35 AMERICANS PRISONERS AT SOVIET CAPITAL

All Foreigners Want to Get Out of Warsaw Before Winter Sets In

SEVERAL ARE IN PRISON

Property Was Confiscated Along With That of Russian Citizens

TERIJOKI, Finland, Aug. 9.—A thousand foreigners, including 35 Americans, at Moscow, hoping for action by their governments to get them out before winter. Five Americans are known to be imprisoned. A dozen others have been imprisoned at different times.

Many Are Imprisoned. Among those imprisoned now are Dr. A. W. Stickey, geologist, and wife, who recently arrived from Siberia.

The 35 include only those who have passports or papers proving citizenship.

Americans Lose Hope. Information sent regarding the Americans has brought no evident results and their hope for relief before winter is fading.

Corporal Arthur Prince of Detroit, Mich., an American soldier recently released from prison, has given consular officials and the Red Cross in Finland detailed information regarding the American personnel and has asked that if possible something be done.

Until two months ago a British relief organization worked in Moscow. Upon its departure its funds were given the Americans, but these are virtually exhausted.

Were Fed by French. A French relief organization sent the food to the imprisoned Americans, but this relief will end with departure of the French, expected soon.

The Americans have nothing of their own, foreigners being treated the same as Russians as to requisition and nationalization.

A trainload of foreigners reaching Finland, including Danes, Swedes and French, and many from Siberia. Another party of 100 scheduled to leave Omsk Aug. 1, comprises the last foreigners in Siberia except the German and Austrian war prisoners, estimated at 100,000, who are being evacuated at 1500 weekly.

Reds and Finns at War. Between Byelostrov and Rayo-licki, on the Russo-Finnish frontier, foreigners sent out of Russia are taken in charge by the Finns. A state of war exists between the Finns and Bolsheviks, and foreigners pass the frontier under a white flag. A mile of railway formerly connecting Finland and Russia, has been torn up and the territory is "no man's land." The town on the Russian side has been razed and firing continues.

As a result of hardships on a trip from Moscow to the frontier two foreigners died.

Thirty Thousand Checks Written in Single Year

Thirty thousand checks payable to injured workmen for time loss and first aid have been written in the industrial accident department since July, 1919, when the system of drawing direct checks was inaugurated. J. W. Ferguson, one of the accident commissioners, wrote the 30,000th check yesterday.

Prior to July, 1919, time loss and first aid were paid by warrant from the secretary of state's office. The new system was put into effect to save time.

What A Business Man Wanted

A business man, who called on us a few weeks ago, said, "We want a lady in our office; a typist who has a thorough knowledge of business and can use her own head. We want such a person as Mrs. who is secretary to Mr. I presume you know her."

"The fact is, the Mrs. referred to, took her course at this school several years ago, later attending night school to do some special work."

The business man was told that we could not then refer him to any available person. He left with instructions to keep him in mind and telephone at his expense when we found such a lady. Could you have filled this place?
