COMPLAINT ABOUT TRAFFIC

County Court Says Street Must Be Kept Open or Risk Closed

Keep the highway open or close the skating rink is the edict about to be issued by the county court against the operation of the Dreamland rink operated by Otto Klott on State street near the penitentiary. The announcement was given out by the county court yesterday afternoon in response to complaints that have been made by residents of near the end of State street and by automobile owners.

Residents near the dance hall have complained to county officials also about the noise of the automobiles. Since the pavilion is situated outside of the city limits the city authorities are of little aid to the Salem residents. This is one source of the complaints that have come to the county officials.

The other source of information may compel the county court to take action comes from automobile drivers on the Pacific highway. These complaints say that during the progress of a dance at the pavilion cars are parked on the highway to such an extent that traffic is impeded. Sometimes, says the complaint, the highway is impassable and several accidents have been narrowly averted. The city may cooperate with the county officials in regard keeping the highway open, as a portion of the highway is within the city limits.

Some of the county officials do not want to close the rink, but they said yesterday afternoon that the highway must be kept open, and unless it is the dance hall will be directed to cease its operations. The only remedy offered by the county court is to provide a private parking place for the cars that patronize the hall.

"We had raisin pie for dinner yesterday and pa got awful mad." "What's the matter? Doesn't he like raisin pie?" "Yep, but he told ma he had bought those raisins for another purpose."—Detroit Free Press.

MEET ME AT MILLER'S

Monday Is LABOR DAY

The Day the Whole Nation Takes Pleasure in Honoring

This is not the day of the nation of loafers, of skimpers and scampers, of sabotage, or seditionists. There are wolves hiding under the honored raiment of Labor that might have so thought; but not so of the true American Workingman, the man of brain and skill, who will never be the catspaw of the Bolshevik ape.

Nowhere is there any desire to reduce Labor's prosperity, except by those who are parasites on the workers; and there will be no occasion for any reduction of wages, if Labor will simply be American and give its skill and energy wholeheartedly to producing a good day's labor for a good day's pay.

That is the way true Americans will answer the problem of the day.

All Honor to American Labor and Labor's Holiday

WE ARE CLOSED ALL DAY MONDAY
