

TRIBUTE PAID COLLEGE HEAD

Impressive Funeral Services Held for Dr. Henry James Talbot

Many friends and students of the late President Henry James Talbot, gathered at the First Methodist church yesterday afternoon at 2 o'clock to pay their last respects to the beloved leader of Kimball College of Tholozan.

Several organizations paid tribute to the life of this distinguished man by attending the services.

The Salem Ministerial association, students and alumni of Kimball, C. A. R. veterans and members of the Oregon conference occupied the center section of the church.

The services were presided over by Dr. E. E. Gilbert, district superintendent of the Salem district of the Methodist church. A double quartet sang in a very impressive way, "I Love To Tell The Story" and "Forever There My Rest Shall Be."

Dr. Doney offered prayer. Professor E. Sherwood of Kimball college read a lesson from the Old Testament and Prof. E. S. Hammond a lesson from the New Testament. Miss Gertrude Aldrich sang in tender tones, "Still, Still With Thee."

Dr. R. N. Avison, former pastor of First church, now of St. Paul's at Spokane, gave the address, eulogizing the man who had sacrificed his life in a great cause. Dr. W. W. Youngson, district superintendent of the Portland district, pronounced the benediction.

The pallbearers were students of Kimball college, and members of the alumni acted as honorary pallbearers. The former were H. O. Cooper, John McNeese, F. A. Royston, R. G. Ranton, W. D. Withers, A. Hawthorne, E. H. Derry and David Hassel. The honorary bearers were Thomas Achison, William McMicholl, J. W. Warrell, R. M. Gatke, F. M. Jaspas, Lester Shields and H. D. Yarnes.

Funeral services will be held in Portland today at 2:30 p. m., at Finley's, undertaking parlors. Dr. Youngson will preside. Personal friends of Dr. Talbot will act as pallbearers, and trustees of the school as honorary bearers. Interment will be in Riverview cemetery, Portland.

reservations was one which said: "U. S. Not Obligated."

"The United States assumes no obligation to preserve the territorial integrity or political independence of any other country by the employment of its military or naval forces, etc., unless in any particular case the congress which under the constitution has the sole power to declare war or to authorize the employment of the military or naval forces of the United States shall in the exercise of full liberty of action by act or joint resolution so provide."

"That reservation would leave congress free whenever the time came to act in accordance with its judgment and conscience, and the judgment and conscience of its constituents regarding the merits of the controversy at that time."

"Your position as you now state it would leave congress bound by the solemn pledge of faith of our country to pass the resolution for war, no matter what the merits of the controversy might be."

Cox Position Unchanged.

"If you did not mean that congress should be bound, you had an opportunity at that meeting in Providence to say 'I agree to this reservation or to this part of this reservation.' Your answer is reported to have been: 'The Lodge reservations never were seriously suggested. If they had been, Senator Lodge would have declared for them in the Republican platform adopted at Chicago.' And thus you sidestepped the question, and you sit in your telegram to me the perfectly futile thing you are willing to do upon the subject of Article 10."

"Your telegram to me undertakes to state your case, and both what you say and what you refrain from saying confirm the understanding I expressed in my speech that your position and purpose are to impose upon the United States the covenant negotiated at Paris without any real change whatever."

the corporation to handle all kinds of agricultural commodities, but leaders in the movement aimed at the relief of the cotton industry as its primary object. Speakers, however, pointed out benefits they believed would be derived by all producers of farm products. The plan provides for stock subscription on the basis of \$1 a bale on cotton produced in the various states and the payment down of half of the amount of \$6,000,000 of the incorporated capital. Under the Edge act, such corporations are permitted to handle trade acceptances or purchasers' agreements to extend to ten times the paid in capital, which would enable the corporation to deal in such commercial obligations to upwards of \$60,000,000.

Speakers indicated that establishment of the corporation would mean an early opening of sales negotiations with European manufacturers who were said to be in the market for around three million bales of cotton.

It was declared that the corporation was not proposed in any sense as a vehicle for the holding of crops but as a facility for their marketing.

not for myself, but for the people of America."

Declaring that the senator's latest pronouncement seemed "clear to Senator Johnson and that the Californian insisted that Mr. Harding stood against the league, the governor continued:

"This ought to define the issue in this campaign."

"Everyone who is against the league of nations is against me. That is the thing about which there can be no doubt. A few days ago at Columbus I called the roll of the groups which had been arrayed under the reactionary banner and defined the prejudices which had been played upon in an attempt to divide the friends of peace. Among them we have a group of Republicans, eminent men, who in their hearts and by their voices approved the league of nations and who still try to justify their support for the candidate who reiterates the state ment that 'the league has signally failed,' and of whom Senator Johnson says: 'He has put the league behind him. He is for outright rejection.'"

instatement of constitutional government to replace the false label of Democracy, which has masked an unparalleled centralization of power in the executive. I have been preaching the gospel of 1898 government in business and more business in government. I have been asking Americans to join in a policy of going forward constructively in the conservation and development of our national resources, in the upbuilding of our foreign trade and our merchant marine in the proper measures for maintaining the health of our American agriculture and in the immediate solution of the problems which disturb our industrial peace to the detriment of all of us.

"I have been preaching the gospel of a united America under an administration and government which represents all the people; consults all the people, and, so far as is possible, is administered by those who best express the interest of all the people. More than that, I want to emphasize particularly that we must preserve here in America the opportunity for every man, woman and child who prepares for it, to take advantage of our American equal opportunity."

"It is an easy matter to talk in loose phrases about our obligations to suffering humanity or to those whom justice is done to abroad. It is much more difficult but a much more inspiring task to my mind to build an America whose tenderness for humanity and whose regard for the human resources begins at home."

one of the mildest of the mild reservationists and a Democrat who indorses the league almost without change. I deem it my duty to give all the aid I can to the independent Republican, Thompson, who is running for the senate upon an American platform."

Senator Reed explained that he had called the meeting himself and that no political party, committee or candidate was in any way responsible for what he said tonight. He declared that he never had failed for a moment to remember that as a member of the senate, his votes affected 110,000,000 American citizens and that serious mistakes might bring disaster to the republic.

"If the time ever comes when congress takes orders from the president he will be the sole ruler of the land. I decline to assist in reducing the United States senate to the level of the German reichstag."

Dallas Plans Pavement of Radiating Highways

DALLAS, Or., Oct. 21.—(Special to The Statesman)—If plans formulated at the meeting of the Dallas Commercial club carry out, the people of this city will be asked at a special election to be held perhaps early in the new year to vote bonds for the construction of permanent hard surfaced roads within the road district in which Dallas is located. The purpose of the bonding measure will be to begin the construction of roads that are now

county roads running out of Dallas and build them to the city limits thus insuring the country people coming here to trade a road that can be traveled over the entire year. It was brought forth at last night's meeting that most of the roads leading into Dallas were in very poor condition and that with a hard winter it would be impossible to navigate them in any way but on horseback.

This information awakened a number of the leading citizens and a committee was appointed by the club to look into the matter and report to the club at a future meeting their findings in regard to the purchase of road building and other data along this line.

Mammoth Potatoes Are Shown by Dr. Steiner

Dr. R. E. Lee Steiner, superintendent of the state hospital for the insane, brought to the state house yesterday a sackful of potatoes grown on the Steiner farm near Eola, Polk county. The tubers are about the biggest ever seen here. One of them weighed two pounds and 10 ounces.

Stupid Move Made When British Deport Costello

NEW YORK, Oct. 21.—Action of the British government in ordering the deportation of E. J. Costello, managing editor of the Federated Press, was denounced here today by John Nicholas Bepfel, acting business manager. Europe," said Mr. Bepfel's statement. "Having nothing to conceal, we have no anxiety concerning what papers the Scotland Yard people may have found in his quarters. They could have found only the legitimate business correspondence of a regularly functioning press association."

"This stupid move of the British authorities was undeniably actuated by a desire to halt a rapidly growing co-operative movement by working class newspapers to transmit unbiased news between the old world and the new. Undoubtedly it means that Britain fears the power of the

WHEN BREAD HELPS PAY THE BILL

Mothers—there's a new way of saving your food bills, it's to eat more **HOLSUM BREAD**. A great food authority says: "The American family spends approximately one-tenth of its food money for bread and derives more than one-fourth of its food energy therefrom."

That means out of every dollar you now spend on Food, you spend ten cents on bread—and you get more than one-quarter of food energy from BREAD.

Now **DOUBLE** the amount of BREAD you eat—eat two slices of **HOLSUM BREAD** instead of one, and this is the way you'll save money on Food.

To keep in touch with the business world--- READ ADVERTISEMENTS

You can learn more from the advertisements in your daily newspaper than you could in weeks spent in visiting stores, shops and offices.

If you did not read the advertisements, you might go to a store and come home again and never learn about some new goods in that store that would interest you. But the storekeeper knows and he publishes the news in an advertisement for you to read.

If you did not read advertisements, you might go on purchasing one article for years when a new and better article has come to take its place.

It pays to keep in touch with the business world by reading advertisements.

It pays if you have nothing to buy but your own clothes and shoes and candy and books and other personal things.

It pays even more if you are buying for a household.

By keeping in touch through reading advertisements you can buy to more advantage, find out where and when to get the things you want, and avoid regrettable expenditures.

A large part of our world of today is the world of business and commerce. And the voice by which it speaks is advertising. It has a message for you.

Keep in touch by reading this message—by reading advertisements.
