

SOCIETY

By MOLLY BRUNK

TONIGHT we have the big Hallowe'en dance at the Illahee club, which will not only call forth a large and smart assemblage of local folk, but out of town society as well. Visitors will arrive throughout the day, to be entertained as guests of Salem friends over the night, and

Entirely New Way to Banish Superfluous Hair

Why should any woman continue to wear an ugly, humiliating growth of hair on her face, now that it is known this can be completely and quickly removed, roots and all, by the new electrolytic process? The process is not to be compared at all with the depilatory, electrical or shaving methods. Electrolysis is non-odorous, non-irritating, non-poisonous — so harmless it could be eaten without any bad effect. Best of all, the hairs come out entire, even the roots, before one's very eyes! The skin is left as smooth and hair-free as a child's.

Anyone who purchases a stick of electrolytic from the druggist and follows the simple directions, is bound to be pleased and delighted.

DANCING FROCKS

New shipment just received at Shipley's

In a few instances, over the week-end. Altogether over 200 invitations have been issued for the affair.

Mr. and Mrs. Clark E. Nelson of Portland, will come up for the dance and during their brief stay will be the guest of Dr. and Mrs. W. H. Lytle.

Miss Lucy Roach of Victoria, B. C., is another visitor who is timing her arrival to coincide with the date of the Illahee dance. She will arrive this morning, and will remain in Salem for several weeks, the house guest of Mrs. S. E. Edwards, who plans to compliment the charming visitor with a number of social courtesies.

Driving up from Woodburn to be in attendance at the initial Shriners' dance in the Derby building Tuesday night were Mr. and Mrs. Keith Walker Powell, of Woodburn, who were the guests over the occasion for Mrs. Powell's parents Judge and Mrs. George C. Bingham.

Mrs. L. C. Hobson and little daughter, Alice Mildred, are expected to arrive today from Creswell, to remain over the week-end with Mrs. Hobson's parents, Mr. and Mrs. G. W. Gill.

Mrs. Hobson has a host of friends to welcome her upon her visits. Before her marriage sev-

eral years ago she was Miss Margaret Gill, head of the art department of Willamette university for a number of seasons, and one of the best known of local artists.

A group of Salem musicians and music lovers motored to Portland yesterday to attend the opening performance of J. the Portland Symphony orchestra at the Heilig theater and hear Russian Moise-witch, the new Russian pianist, whose phenomenal reception in the east and middle west promises to be duplicated in the west.

Among those who attended from here were Mrs. William H. Burghardt, Miss Dorothy Pearce, Mrs. Walter Denton, Miss Elma Weller and Mrs. W. Everett Anderson.

Mr. and Mrs. Walter E. Buckner and daughters, Dorothy and Ruth, spent Tuesday with friends in Portland, motoring down.

Mrs. Chester Cox returned the first of the week from Portland, where she spent several days.

Dr. and Mrs. C. A. Downs returned from a motor trip up the Columbia highway, and to the Mt. Hood country, last night. They left Salem Monday morning.

Mrs. W. Everett Anderson was in Silverton Tuesday, in the interests of the forthcoming concert to be given under the direction of the Salem Musical bureau. The bureau is being assisted in that place by Mrs. Gertrude Cameron, who reports much interest on the part of Silverton folk, and it is entirely probable that a large attendance from there will be noted at each of the concerts.

Mrs. Anderson has also received word that the entire faculty of the Monmouth Normal school will subscribe, and attend in a body.

In the nature of a family reunion was the gathering in Portland over the week-end of Mr. and Mrs. E. A. Bennett and their son Dr. N. Paul Bennett of Western, who were entertained by Mr. and Mrs. Charles B. Martin.

Mr. and Mrs. F. B. Southwick are entertaining on a brief visit, their son-in-law J. A. H. Baird, of the Bremerton navy yards, who is stopping off on a visit on his way to the Mare Island navy yard, where he goes on business for the government.

Miss Phyllis Walker, daughter of Mr. and Mrs. J. H. Walker will arrive in Salem today to spend several days with her parents, coming up from the University of Oregon, where she is a pledge of the Alpha Phi sorority.

Felicitations are being extended to Mr. and Mrs. J. D. DeLapp, upon the birth of a son Tuesday morning.

Mrs. W. H. Burnett is in Pendleton for the week, where she accompanied Judge Burnett on his trip, which was occasioned by official business.

Dr. and Mrs. O. L. Scott had as their guests from Friday until Tuesday Dr. and Mrs. J. C. Terrell of Minneapolis, Minn. Saturday Dr. and Mrs. Scott took their guests for a motor trip over the Columbia highway, being joined in Portland by friends from both Portland and Seattle, who made the sight-seeing trip with them. The visitors left for San Francisco Tuesday morning.

Of interest to college circles is the announcement of the names of officers to head the Salem-O. A. C. club at the Oregon Agricultural college. At the recent election, La Noel Davis was selected as president; Miss Edna Magers, vice-president; Miss Grace Humphreys, secretary; Glen Ackerman treasurer; Jack Bartlett sergeant-at-arms; and Glenn Gregg, reporter for the Barometer.

All women interested will be extended a most cordial welcome at the afternoon of sewing, which the Central Circle of War Mothers will hold this afternoon in the parlors of the First Congregational church. The articles made will be used to swell the list of things already made by the various circles in the city for the bazaar, which the organization will sponsor in November.

At the regular session of the meeting of the Professional and Business Woman's club Tuesday night, Elmo White spoke upon the measures to be voted upon at the coming election. Miss Ruby Kennedy read an article on suffrage, and business pertaining to the organization was transacted.

The next meeting, which will be held in a fortnight, will feature on its program a paper by Miss Grace Smith, of the property rights of women.

Important business matters will come up for discussion this afternoon when the Mothers' club of the Y. M. C. A. meets in the association building at half past 2 o'clock. Rev. E. N. Aldrich will speak to the mothers on boys, using as a background his own varied experience. Mrs. F. L. Waters will contribute vocal numbers. A full attendance is desired.

Lodge members of the Knights of Pythias and Pythian Sisters from Independence, Dallas and Silverton were entertained as guests of the local organizations, in the lodge rooms, Tuesday evening. A banquet was a leading feature of the entertainment, 150 plate being arranged at the big table in the banquet hall. Dahlias and other autumn flowers decorated the board.

Initiation ceremonies for the Pythian Sisters were gone through and the third rank administered by the Knights. Notables of the order present were: Grand Chancellor, J. Clark of Portland; Grand vice-Chancellor, L. F. Finseth of Dallas and the Grand Keeper of Records and Seal, Walter Gleason, of Portland.

Children of the order are looking forward with the utmost pleasure to the annual Children's

PRUNE ORDERS KEEP PLANTS ALL RUNNING

Wide Distribution on Sales Reported by Oregon Growers Association

"MISTLAND" BLAZONED

Big Prune Posters Appear on Subway and Elevated Roads in New York

The Oregon Growers' Co-operative association announces that it has enough prune orders on hand unfilled to keep all its plants running to full capacity until the latter part of November.

The association has been quietly working ever since it named its opening prices and has secured an extremely wide distribution on its sales. It reports, however, that sales have not been as heavy as ordinarily, but this is being overcome to a certain extent by the making up of what is known as "pool cars." In other words, buyers who usually buy from one to four or five cars each to cover their season's requirements are this season buying from 200 to 1000 boxes each, and combining with other buyers to make what is known as a "pool car." By having these shipments come along periodically over a period of several months, they are enabled to buy the prunes and pay for them, as this gives them an opportunity to get out and sell each lot before it arrives, and they are practically cleaned up on prunes before each lot arrives. By this method they can get the money to pay for fruits which they have not been able to do heretofore on account of the tight money market.

The association shipped the first car of export prunes to be shipped out of the northwest this season. This car went to Holland. Approximately one half million pounds of small prunes have been sold by the association to go to Holland. Last Friday the association shipped its first sales of prunes to Liverpool and London, and sales of prunes to Canada have been going forward from time to time.

The sales department of the association is in charge of the festival to be given by the Yocman lodge, Saturday night in the Forrester's hall. Each year the supreme lodge awards prizes for the young folk presenting the most original and interesting contributions to the program and in consequence a friendly rivalry is evidenced on each occasion. Hallowe'en will be suggested in many details of the affair.

The committee in charge is composed of Mrs. C. Davis, Mrs. Nellie Varley and Miss Mary Phillips.

At the regular session of the meeting of the Professional and Business Woman's club Tuesday night, Elmo White spoke upon the measures to be voted upon at the coming election. Miss Ruby Kennedy read an article on suffrage, and business pertaining to the organization was transacted.

The next meeting, which will be held in a fortnight, will feature on its program a paper by Miss Grace Smith, of the property rights of women.

Important business matters will come up for discussion this afternoon when the Mothers' club of the Y. M. C. A. meets in the association building at half past 2 o'clock. Rev. E. N. Aldrich will speak to the mothers on boys, using as a background his own varied experience. Mrs. F. L. Waters will contribute vocal numbers. A full attendance is desired.

Lodge members of the Knights of Pythias and Pythian Sisters from Independence, Dallas and Silverton were entertained as guests of the local organizations, in the lodge rooms, Tuesday evening. A banquet was a leading feature of the entertainment, 150 plate being arranged at the big table in the banquet hall. Dahlias and other autumn flowers decorated the board.

Initiation ceremonies for the Pythian Sisters were gone through and the third rank administered by the Knights. Notables of the order present were: Grand Chancellor, J. Clark of Portland; Grand vice-Chancellor, L. F. Finseth of Dallas and the Grand Keeper of Records and Seal, Walter Gleason, of Portland.

Children of the order are looking forward with the utmost pleasure to the annual Children's

association. Its officials claim, is being interfered with by cut prices on the part of some of the packers. Yesterday it sold a car of prunes at 2 cents above prices named by another operator. It is not to be expected, however, that the association can continue to maintain the market against this kind of competition.

The dried black pitted cherries of the association have all been sold and are being shipped. As soon as the car arrives and collections are made, final settlement of the black cherries which were pitted will be rendered to the growers.

Final arrangements for the advance for the prune growers are now being made with the banks, and as fast as receipts can be taken care of, the money will be advanced to the growers.

On November 15 the Oregon growers will inaugurate in New York city something which should be epoch making to the prune industry and to the state of Oregon, for at that time the first posters of "Mistland" prunes will be displayed on the elevated and subway stations of the great city of New York, where over 3,000,000 people will read the Oregon advertising daily. It will be the first prune poster ever put out in New York city advertising the merits of the Oregon prune.

MRS. LORD WRITES

(Continued from Page 3.)

And, friend farmers, this is up to you.

It is to you we look to put Oregon at the head of one of the greatest of the world's industries. We have made a good start, but it is only a beginning. It is useless for us to say we can grow fiber equal to any grown in Belgium or Ireland, if we don't do it.

I have before me, recently received from Belgium, three samples of flax fiber, respectively marked 20 frames per kilo; 38 frames per kilo; 45 per kilo. A kilo is 2 3/4 pounds. The

prices, in our currency, range from \$2000 to \$3000 a ton. This Belgian fiber is sold at this price today in Europe.

An average field of flax in Oregon would require three acres to make one ton of fiber.

But here is where intensive farming pays. One farmer at Turner this year harvested 5 1/2 tons of flax straw from one acre, receiving \$900 when the straw was delivered at the pententary, and 5 1/4 tons of good straw will make one ton of fiber.

This calls for careful cultivation—a field well plowed, harrowed, disced and rolled till it is over clover field is the best preparation. But a small field, well tilled, will give more and better returns than many acres carelessly handled and foul with weeds.

Hemp Also in Demand.

High grade Italian hemp is today bringing from \$1200 to \$1500 a ton for fiber at the Irish mills. Hemp fiber makes our coarse twines, bags, etc. Hemp can be grown on our beaverdam lands, or where there is irrigation. It stands to 1 1/2 degrees of frost, so it can be planted late in March or early April, to be ready for harvest in late July. Then there is the usually dry month of August to rot it and dry out, for the winter work of breaking. Hemp is not scutched and is more easily handled than flax.

A test was made at Lake Labish this season. Seeds were furnished by the chief of the fiber bureau at Washington, who made the request that a test should be made in our beaverdam land. This seed was planted May 28; on the 20th of August the hemp was pulled and retted at Turner. The

fiber was 90 inches in length. The estimate made was 12 tons per acre, and 1 1/4 tons of fiber. Hemp is a great land cleaner—even Canadian thistles vanish before it. A fine quality is used for coarse label lines, and all canvas for ships, tenting, etc.

Hard Colds — People whose blood is pure are not nearly so likely to take hard colds as are others. Hood's Sarsaparilla makes the blood pure; and this great medicine recovers the system after a cold as no other medicine does. Take Hood's.

In 1919 there were in Bulgaria 8,669,260 sheep. As a result of the three wars in which Bulgaria has been engaged since that date the number has been greatly reduced, but sheep raising is still an important Bulgarian industry.

Ladies' Silk Umbrellas

Now Greatly Reduced

A new shipment just received, bought at the low price of Silks and marked to sell accordingly.

Silk Taffeta Umbrellas, colors are navy, purple, green, taupe, brown and red. Prices are—

BEAR OIL for HAIR

AN INDIAN'S SECRET

One of the potent ingredients of Kotalko—for the hair—is genuine bear oil. It is the only oil of the kind found in any other hair preparation. It has been used in many cases of baldness, falling hair and itching scalp. It is guaranteed to give results in cases considered hopeless. You never saw a bald Indian!

Why become or remain bald if you can grow hair? If others have obtained a new growth or have conquered dandruff, or stopped falling hair through Kotalko's use, you can too. Get a bottle of KOTALKO at any drug store; or send 10 cents to J. E. Brittain, Inc., 130 Broadway, New York, N. Y. PROOF BOX of Kotalko to J. E. Brittain, Inc., Station F, New York, N. Y.
