A GREAT VICTORY, A GREAT RESPONSIBILITY

The electors of the United States yesterday gave a mandate for the return of the government to the people; and they restored the Constitution as the ark of the covenant of our national life.

It was a great victory, and a great responsibility thrown upon the party of progress and prosperity.

The sentiment of Mr. Harding, that it is not a day for exultation, but that it is a time for prayerful consideration of the great duties before the men entrusted with the destinies of the country, is the sentiment that will be felt by every conscientious member of the party that must undertake the high task of bringing order out of chaos.

That must give employment at good wages to all who want to work; which is the highest duty of all; which must have the first place.

And which will involve a revision of the tariff so that it will give protection to American industry, and at the same time yield a proper share of the revenues of the federal government.

The next most important duty will be paring down of government expenses; the conduct of the business of the country on a basis of economy and efficiency.

Then must come a revision of the tax laws that hamper enterprise and place an unequal burden upon vast numbers of people.

Wilsnism and all its works must be wiped out; there must be a clean sweep, in order to make a new start with a clean slate.

Not the least of the great burdens will be the proper participation of this nation in the affairs of the world of which we are a part; and constructive efforts for a league or a combination that will guarantee permanent peace.

The victory of yesterday does not mean that we are to stand aloof; that we are to be either selfish or provincial.

The Statesman has been very sincere during the campaign in saying and repeating that a Republican victory would mean a general revival of business.

We believe this revival will begin today—That millions of enterprising and forward looking men will now go ahead unafraid—

That Liberty bonds will go toward par at once; and that they will be at par soon after March 4th, if not sooner—and indeed it has been a national disgrace that they have ever sold below par.

And The Statesman believes that the great region west of the Mississippi—

With 70 per cent of the coal and 70 per cent of the water power, and more than 70 per cent of the timber—

And with two-thirds of the people of the world just across the Pacific from this side of the country—

Will feel the thrill and the urge of this great period of enterprise more than any other part of the country.

It is a great victory and imposes a great responsibility, and it will result in great good to all the people of this country and all the people of the wide world, in the substantial leadership in higher and better ideals that the victory will give to this country.

go that far, but it is an important step and the transfer of a photographic print over the telephone seems to have been made possible. If a girl can send her picture by wire as an evidence of good faith it may help some.

TABLE STEAKS.

Some of the New York hotels have reduced the price of their table d'hote dinners from \$5 to \$3. This is a fine thing, but it doesn't mean much to the man who is still worrying through the hour on a dime's worth of beans.

A WORTHY PRECEDENT.

To the California Olive association is due the credit for setting a precedent in the manufacture of food products that, if generally heeded as it should be, will eliminate for all time the cases of ptomain that continue to add an element of despair to the pages of our daily press.

This bogie to the food consuming public has been met and overcome.

Heretofore we have been satisfied with frequently repeated warnings, in both the press and on the labels of all varieties of canned foods, to "boil contents before using."

But human nature has always suffered from its own carelessness or ignorance, and will continue so to suffer unless it is protected.

The California Olive association has gone directly to the bottom of the matter.

Last winter they helped to raise a fund of \$100,000 to investigate the cause of spoiled foods and find means to overcome it.

The ablest scientists in the country were employed to carry on extensive investigations with instructions to continue their work until they had found an effective remedy.

What these scientists discovered sounds very simple, but it is very important to the consumers of prepared foods.

One of the causes of food spoilage is a germ known as bacillus botulinus. This germ can be killed by a temperature of 240 degrees maintained for 40 minutes.

They have secured the co-operation of the California state board of health to have a ruling written into the laws of the state that no olives may be packed for sale in California that have not been sterilized at a temperature of 240 degrees for 40 minutes.

They have gone about this matter in a two-fronted he-man fashion, and they deserve the thanks and appreciation of the entire country.

They will not suffer by their action because it will not be long before the public at large will realize that what they have done is to secure the guarantee of the laws of the state of California of their product, and the confidence that will be given to ripe olives will soon repay them for their great expenditure of money and effort.

It is to be hoped that the manufacturers of other food products will not be long in profiting by the precedent set by the California Olive association and that we will be freed for all time from the old time bogie of ptomain.

COOK OR DANCE?

A San Francisco judge rebuked the mother of a young respondent in a divorce court because she had flattered her daughter in the belief that she would do better at aesthetic dancing than plain cooking. The judge declared that the world was terribly overstocked with girls who could interpret dancing, but couldn't tell the contents of an Irish stew. It seems a bit odd that this practical reasoning should come out of San Francisco. Most folk fancied that the Bay City was wholly committed to the thought that the girls should be trained in lissome wiggling whether they could sew on buttons or not. If the courts are

FUTURE DATES.

November 6, Saturday—Football, Willamette vs. Pacific University at Forest Grove.
November 6 and 7, Saturday and Sunday—Annual convention of Marion County Christian Endeavor Union, First Congregational church.
November 11 and 12, Thursday and Friday—State penitentiary minstrel show.
November 11 to 25—Red Cross roll call.
November 11, Thursday—Football, Salem high school vs. McMinnville, at Salem.
November 15, Monday—W. C. T. U. drive for \$125,000 children's home benefit.
November 16, Tuesday—Football, Salem high school vs. Dallas high school, at Tacoma.
November 18, Thursday—Football, Willamette vs. College of Puget Sound, at Tacoma.
November 20, Saturday—Football, Salem high school vs. Eugene high school, at Eugene.
November 20, Saturday—Football, Salem high school vs. Eugene high school, at Eugene.
November 22, Thursday—Football, Willamette vs. Whitman college, at Salem.
November 23, Thursday—Football, Salem high school vs. The Dalles high school, at The Dalles.
November 25, Thursday—Thanksgiving day.
December 7, Tuesday—Annual election of Cherrans.
December 8, Wednesday—Annual election of Commercial club.
December 14, Tuesday—Annual election of Salem Business Men's League.

going to rule that plain cooking is more vital than plastic dancing; there will be revolution in many homes. But it does seem for a fact that there are more fancy dancers than good cooks; on the wrong side of the divorce courts. A wife who can make good waffles has a grip on her job that the courts can't shake loose.

SHORN OF GLORY.

A club formed of nearly 100 Evanston girls is pledged to bobbed hair. Every damsel had her ringlets sheared and they promise to wear their hair a la mowed ever after. It is a part of the new freedom that goes with the vote. At the same time, the girls are to wear square-heeled shoes, roomy skirts and easy corsets, so it may be seen that they are not clipping their locks just for a bit of notoriety. They are going to try and be as sensible as a bobbed-haired girl can possibly be. In time most women may come to clipping their locks, for it surely makes for comfort and convenience. But if a dame expects to do any vampirish she will have to cling to the good old glory that went with a bushel of carefully tousled hair. When a girl has her hair "done up" with a pair of horse clippers she ceases to be dangerous to the ordinarily susceptible man.

KEEPERS OF THRIFT.

The American Bankers' association purpose carrying on a three-year advertising campaign on the advantages of thrift—the purpose being to increase the number of small depositors and demonstrate the value of a bank account to the great army of the proletariat.

It will be effort well directed and money well spent; for the profit of the bankers and for the good of all the people of the country. It will put more and more dollars to work—and that will help everybody.

An idle dollar does neither its owner nor his neighbors nor his community any good.

CLEANING UP.

Travelers assert that London and Paris are now kept cleaner than New York and Chicago. But that isn't saying much. It is admitted that America's big cities might well endure a clean-up—political and otherwise. But it is well to know that the Old World capitals are showing a shining front. A few generations back the slums of Paris and London were the blackest and foulest spots in the world. Soap and water have helped a lot.

A SWISS MOVEMENT.

The headquarters of the League of Nations with the official staff is now permanently located in the city of Geneva. A special train bore the equipment from London. With a Swiss movement the League should now keep good time. The trouble is that Senator Borah would like to wind it up every night and holds the belief that he is quite a stem-winder himself.—Los Angeles Times.

REAL THRIFT.

One Chicago policeman is known to have made \$200,000 since prohibition became the law of the land. He must have a pretty good route.

BITS FOR BREAKFAST

The country is safe—
Now watch business go.
Millions have been waiting to see if the country was sound at heart—
And they now see that it is—
absolutely.

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre At Once

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray, and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.
Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound" which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored, and it becomes thick, glossy and lustrous, and you appear years younger.

Mr. Harding takes it as all his friends might have expected. He is not exultant. He is prayerful over the great responsibility. He knows he has great work ahead.

But he will have a friendly senate and a friendly house, and he will select a cabinet of the ablest and best men he can find, and he will work in harmony with them all, and with Vice President Coolidge. It will be great team work.

Marion county did very well by Stanfield. The voters of this county are not pickers.

Mr. Moffit will give the city of Salem the very best that is in him in rendering the best possible service. He feels that way and will act that way.

Also, Salem will have a fire department that will fully protect the property of the city.

Beginning today, business all over the United States will be better; and it will grow better every day. You will feel it and see it

on all sides, and in millions of ways.

Night riders in the south are burning cotton in order to keep the prices up. They want them

maintained at 40 cents a pound when money can be made at half the price. The growers are resorting to outlawry to prevent a return to normal. We are yet technically at war with Germany and

the department of justice should act at once.—Los Angeles Times.

Captain (angrily)—Button up that coat.

Married Recruit—Yes, my dear

Using the purest and best flavored maple sugar by the thousand tons to make Karo Maple

The American home must have the best. Over five million cans of Karo Maple sold last year.

The groves of Vermont and Canada produce the purest and best flavored maple sugar. This is where Karo Maple gets its delicious flavor.

The makers of Karo Maple are the world's largest users of maple sugar.

Folks who like the delicate taste and satisfying flavor of real maple will welcome Karo Maple—for waffles, pancakes, and as a delicious spread on bread or toast.

It's reasonably priced, and economical to use for every meal—and sold everywhere.

Serve Karo Maple today—compare it for flavor and price with other maple syrups.

If you don't think it a real treat your grocer will refund your money.

Be sure to ask for Karo Maple in the GREEN CAN.

QUALITY AND SERVICE

Should Govern the Purchase of any Article of Merchandise

Were this not true, there would be no incentive for some manufacturers to build a BETTER Article than another.

When you buy a suit of clothes or a pair of shoes, why do you pay more for Some than is asked for Others? There is but one answer: "QUALITY and SERVICE." What is meant by Quality and Service? Naturally the better and Higher Priced article Lasts Longer and gives Better Satisfaction.

JUST AT THIS TIME WE ARE HEARING A LOT OF TALK ABOUT THE CUT IN PRICES OF AUTOMOBILES.

There is but one excuse for the cut in price of any article: A LESS COST TO THE MANUFACTURER TO PRODUCE IT. Labor and material costs as much, if not more, today than it did six months ago. THERE ARE JUST TWO LOGIC CONCLUSIONS TO ARRIVE AT—Either the price Before the cut was FICTITIOUS, or the QUALITY IS REDUCED to offset the cut.

CHEVROLET CARS ARE PRICED RIGHT and there is not a car in the world that equals it in Quality at any where near the price, and General Motors are the only people in the world who can produce such a car as the Chevrolet for the money.

THE CHEVROLET MOTOR COMPANY WILL REDUCE PRICES WHEN THE PRICE OF MATERIAL AND LABOR DECREASES, and every purchaser of a New Chevrolet gets a Written Agreement that in the event of a reduction in price by the Chevrolet Motor Co. on or before May 1st, 1921, the amount of SUCH REDUCTION WILL BE REFUNDED THE PURCHASER.

MOVE ON!

Houses on wheels are being built in the east and squatting on vacant lots may become a favorite sport. With the aid of a motor a man can have a different landlord every day and still pay no rent.

PICTURES BY WIRE.

A Frenchman is in this country demonstrating an invention by which portraits can be transmitted by telephone. Sending pictures by telegraph has been ac-

complished with fair results. The photograph by telephone is still more wonderful. Ever since the telephone was introduced people have commented on the joy that would come if the face as well as the voice could be brought to them over the wire. They have exclaimed how fine it would be if the lips of the caller could be seen as they gave their greeting and to look, as it were, into a mirror and behold the features and hear the voices of a loved one though miles away. This invention of the Frenchman does not
