WHEN Warren G. Harding received the news of his election as president of the United States his pleasure was duplicated by that of seven-year-old Charles Kay Bishop, youngest son of Chauncey Bishop, and grandson of Mr. and Mrs. C. P. Bishop and Mr. and Mrs. C. D. Gabrielson.

And Charles Kay, who comes of a long line of staunch Republicans is thoroughly convinced that although he is too young to vote, his moral support had something to do with Senator Harding's election. And also being of the turn of mind that it is a good thing to tell one's friends of their virtues and of your admiration, Charles Kay sent a letter to the Republican presidential nominee, telling him of his wish that he would be elected.

That was about two weeks ago and the youthful political enthusi-

"What was the trouble?"

"Chiefly the fact that his whiskers would not grow fast. It took him about four years to raise a respectable Vandeyke beard." Birmingham Age-Herald.

# BUDGETS HAVE BOARD'S EYE

## Proposed New Buildings Likely to be Frowned on by State Officials

At a special meeting of the state board of control yesterday to pass on budget estimates of the ten state institutions that have been filed for the general state budget to go before the legislature, it became apparent that new building operations at the institutions will be discouraged.

The board succeeded in getting through only a part of the estimates of Dr. R. E. Lee Steiner, superintendent of the state hospital for the insane. Dr. Steiner's budget was accompanied by his biennial report in which he recommended appropriations for several new buildings at the Salem plant and also a new wing at the Eastern Oregon hospital for the insane. Apparently the board did not look favorably upon these recommendations, although no action was taken, and probably will not be until other budgets are perused.

Figures With-hold.

The board refuses to make public the tentative estimates submitted by the superintendents of the institutions, preferring to wait until they are passed on by the board. Information is, however, that the total asked for by Superintendent Steiner is \$1,119,216. His recommendations cover a new wing for the Eastern Oregon hospital, a cold storage plant at the Salem hospital to cost an estimated \$6835; an industrial building to cost about \$40,475; a machinery building to cost \$10,206; a storage building for fruit and vegetables at the Cottage farm to cost \$8100, and a feed-barn at the Cottage farm to cost

of operation, from the following sources: Dairy, \$28,529.86; fruit and garden, \$78,718.98; hogs, \$21,004.01; orchard, \$30,120.61; poultry, \$26,920.94.

The net increase in population in the two years has been 112. There were 157 persons discharged as recovered, 349 discharged as almost recovered. Forty per cent of those received were discharged as cured.

Makes Curls or "Ear Muffs" Stay in Place

You will be glad to learn that you can keep your hair beautifully wavy and curly by using a perfectly harmless liquid known as "alimimine." You need only apply a little with a clean tooth brush just before doing up the hair and in three hours or so you will be most agreeably surprised with the effect. And this effect lasts for quite a considerable time, so a small bottle goes a long way and is quite economical to use. Pure alimimine is really beneficial to the hair and there is no greasiness, stickiness nor anything unpleasant about it. It is a good idea to divide the hair into strands and separate these one at a time, drawing the brush down the full length.

With the aid of liquid alimimine it is easy to shape the prettiest "ear muffs" and easy to keep them as placed all day. Just try it!

### Cosmetics Not Needed—Peel the Skin Instead

One reason mercurized wax is so strongly recommended is that it really takes the place of several expensive, irritating time-consuming cosmetics. It is better than any cleansing cream, better than any massage cream, and better than any rouge, for accomplishing the results for which such articles are used. As the wax actually absorbs an old, faded or discolored article, a little each day, the underlying skin which gradually appears, is clearer, softer, healthier and more youthful than any cosmetic-made complexion. Spreading on a thin morning, in a week or so produces a marvelous transformation. Just one course of mercurized wax, obtainable at any drug store, will do the work. There's nothing better to remove freckles, mottled patches, liver spots, sallowness, blotches, pimples or blackheads.

For wrinkles and loose, saggy skin, a face bath made by dissolving one ounce of pure powdered ascorbic acid in a half pint of witch hazel, is the best thing that can be recommended. This has remarkable astringent and tonic properties.
