"MORE TRUTH THAN FICTION"

THIS IS A GREAT USED-CAR BARGAIN SIR—

MANY EXTRAS COME WITH IT—EVEN A CARBURETOR AND GASOLINE TANK IS INCLUDED IN ITS EQUIPMENT—

HOW NICE!

AS AN ADDED FEATURE WE HAVE ALSO THROWN IN A NICE GEAR SHIFT—MY CRACK MECHANIC ONLY THIS MORNING SAID—

HEY, BOSS, I WONDER WHAT BOOB WILL FALL FOR THIS LEMON!

BITS FOR BREAKFAST

Are you ready?
 Are you in a thankful mood?
 If you can think of nothing else, perhaps you may be thankful you have no hare lip.

When you think you have to have a turkey for Thanksgiving, think of the Armenians who are still being starved to death by the Turks.

The League of Nations, so far as it is doing any good to the men, women and children being murdered by the Turks, is merely a rag-chewing match up in Switzerland, and it might as well be meeting by the side of one of the canals in Mars.

"Did you know," asks the Salem Statesman, "that Salem is the filbert center of the state?" Not exactly, but it is common knowledge that all the "nuts" are sent down there. — Eugene Register. (No, not quite all—yet. Some of them are still wandering around up the Willamette river in Eugene.)

About all the tickets are taken for the Rotarian lunch at noon tomorrow at Hotel Marion, when Dr. Wirt, the world famous lecturer, will be the speaker. If you want to be in on one of the greatest sessions of the year, you may be too late, if you do not speak up today. Some of the tickets are at the hotel.

The Puyallup bunch is after the berries, plums, cherries, grapes, pears, etc., etc., to be raised in the Salem district next year. The more the merrier.

The full dinner pail is no longer the slogan. There are no many folks who want the full dining-car service.

AN ENEMY TO GOOD HEALTH

Good health has no greater enemy than constipation. You can not "keep fit" for work or play if the bowels are irregular or clogged with a decomposed mass of undigested food from which bacteria pick up disease-causing impurities and carries them throughout the entire system. Foley's Cathartic Tablets are mild but sure in action. They banish biliousness, sick headache, sour stomach and other ills caused by indigestion. Take one tonight and you will feel better in the morning. Sold everywhere.

GARDENERS WANT TITLES

VIENNA, Nov. 17.—Cultivators of the garden plot allotments on government land near this city are agitating to secure title to their holdings. There are about 60,000 of these plots, each of about 500 square feet on the slopes of the great Vienna forest and the cultivators have organized to get title and permission to build huts.

While expressing its sympathy with them the government officials replied to a great demonstration held the other day that they were opening up the whole question of land expropriation, a delicate issue between the two dominant parties, and one on which the demonstrators themselves are divided when it comes to applying it to private estates.

WATER TRADE IS GROWING

Pacific Northwest Lumber Goes in Vessels to Atlantic Coast Ports

Aside from the tendency of mills to close on account of restricted markets, the outstanding trade feature of Pacific northwest lumber is the increase in shipments by water to Atlantic coast ports.

Since the increase in transcontinental rail freight rates, Oregon and Washington mills have shipped 45,442,268 feet of lumber through the Panama canal to Baltimore, Philadelphia, New York and Boston.

In three months, since the increased freight rates became effective this water movement has approximately equalled the Pacific-Atlantic coast lumber shipments for the entire year of 1919.

While the water movement is relatively unimportant compared with the immense production of Oregon and Washington mills, it is significant in connection with the present lack of lumber-handling facilities on the Atlantic coast; and the potential movement of lumber by water to eastern markets when the Atlantic coast lumber storage and distributing facilities are increased, as now contemplated.

Production in Oregon and Washington for the week ending November 13 was 69,368,533 feet or 22 per cent below normal.

New business for the week totaled 42,694,838 feet as against shipments of 55,827,000 feet.

Twenty-nine per cent of lumber sold during the week under review, was railroad material, which material comprised the greater part of all business received from east of the Mississippi river.

The unshipped balance of orders for transcontinental rail delivery is 3,944 cars as against a normal of 14,000 cars.

The unshipped balance in the domestic cargo trade is 109,460,748 feet; the unshipped export balance, 25,608,966 feet.

BEAR OIL for HAIR

AN INDIAN'S SECRET

One of the potent ingredients of Kotalko—for the hair—is growing bear oil. There are other active ingredients not found in any other hair preparation. Kotalko has succeeded in many cases of baldness, falling hair and dandruff when every other hair treatment has proved futile. \$3.00 Guarantee. Answered results in cases considered hopeless. You never saw a bald Indian!

Why become or remain bald if you can grow hair? If others have obtained a new growth or have recovered dandruff, or stopped falling hair through Kotalko, why may not you? Get a tube of KOTALKO at any drug store, or send 10 cents, either or stamps, for BROCHURE with "PROOF" BOX of Kotalko to J. H. Brittain, Inc., Station F, New York, N. Y.

Education in Spain is For People of Fortune

MADRID, Nov. 18.—Education in Spain continues to be a privilege of the people of fortune, declares the newspaper, La Libertad. This was evoked by the announcement that the present cabinet had stopped the first effort to open universities to the poorer people by annulling an appropriation of 500,000 pesetas by a previous Liberal cabinet to furnish scholarships for needy students in the higher schools.

The writer endeavors to show in the newspaper that universities are occupied largely by students who have no desire for knowledge or who are incapable of acquiring it while pupils of exceptional talent in the lower schools are unable to gain admission to the universities because of the cost of education and are compelled to work in the factories. The paper points out that in this way the intellect of these bright students is being lost to the Spanish nation.
