

BOARD HOLDS 4 MEETINGS

Many Cases of Assistance
to State Departments
Recorded in Two Years

Four times during the biennium now closing the state emergency board has been called to authorize the incurring of deficiencies in various state departments and institutions, and the aggregate of such deficiencies which must be met by the next legislature when its appropriations are made is now \$459,765. The largest amount authorized

at one time was on June 4, 1920, when the board authorized a deficiency of \$225,000 under the soldiers' educational aid act. The dates of the emergency board meetings and the amounts that were allowed by each follow:
November 25, 1919 — Public service commission, grain inspection department, \$10,000; executive office, salaries of special agents, \$10,000.
June 4, 1920 — Soldiers' educational aid, \$225,000; executive office, salaries of special agents, \$3,000.
September 18, 1920 — Public service commission for general purposes, \$4,200; state board of health, \$14,816; state hospital for the insane, \$1,500; state hospital for transportation of non-resident insane, \$2,000; livestock

sanitary board, \$5,000; Oregon Social Hygiene society, \$5,000; state training school for maintenance, \$15,000; supreme court library, \$3,000; child labor commission, \$650; department of state, for clerks, \$7,500; for upkeep of capitol building and grounds, janitors, etc., \$5,200; state school for the blind, maintenance, \$4,000.
November 22 — State penitentiary, for maintenance, \$20,000; state penitentiary, for rebuilding flume, \$4,350; industrial school, for girls, \$5,000; state board of control, \$1,500; secretary of state for expense of compiling, editing and distributing election pamphlets, etc., \$25,000; state treasurer, to pay cost of biennial report, \$550; secretary of state, to pay expenses of circuit judges going outside their regular dis-

tricts to hold court, \$500; secretary of state, to apply to care of capitol buildings and grounds, \$500; state school for the deaf, \$6,500.

KLEMM TO TALK ABOUT BOYS TODAY

(Continued from page 1)

things within our reach. A girl makes a better help-meet in the home if she knows Latin and Greek, but she makes a very sad helper if she cannot cook. The honeymoon ends where the soggy biscuit begins.

Baby Lives Wasted
"A girl should know child welfare, a subject that has not yet been touched in the schools. Professor Wiley says: 'There are thousands of children in our graveyards who ought to be in our schools.' Preventable diseases and the ignorance of parents are serious causes of infant mortality. Volumes have been written about the tragic death of 1200 men on the Titanic, but not a line about the 43,000 babies dying each day, mainly from the two causes mentioned above."

"Mothers can easily make belles of their daughters—nothing is needed but brass and a tongue. Be sure to train for efficiency. Learn to do something well, be industrious."
"We must have independent girls. The suffragist has a wishbone, the suffragist a backbone. Sensible men look for real independent girls who can meet emergencies. Look beneath the features at the character. It is a wise man who will ask his wife before making an investment."

Parental Friendship Needed
"Train the intuition of girls. Mothers, be chums with your girls. We expect the girl to be the inspiration of childhood. 'Give to the world the best you have, and the best will come back to you.'"

The afternoon session opened with assembly singing led by Miss Tartar. A cello solo was given by Avery Hicks and a double trio selection was sung by the Salem Woman's club chorus.

George W. Hug, superintendent of the Salem school, spoke on the State Teachers' association, giving credit for many of the beneficial laws that have been passed relative to the welfare of teachers and the school life of the state. He mentioned the \$75 minimum salary law and the county high school tuition fund law, which he said gives every child in the state an opportunity to have a high school education. The two-half tax law also was mentioned.

Professor Klemme spoke on "Keeping Teachers," an address devoted mainly to the profession. He touched on the financial and social reasons at some length.

"With better salaries we must render better service," he declared. "We want people who will meet the needs of communities."

Demonstration Interesting
R. G. Coleman addressed the teachers on physical training, declaring that this department in school life has come forward because of the recent emphasis

THINGS THAT NEVER HAPPEN

placed on physical training by the army.

Miss Emily De Vore of Oregon Normal school was in charge of the primary department. The morning session was devoted to a discussion of the subject of reading, the teachers' preparation and the method of presentation. In the afternoon Miss De Vore demonstrated the Terman intelligence tests with little Naomi Hewitt of Independence.

Dr. F. L. Stetson gave a practical talk on project teaching in high school.

Y. M. C. A. Planning for Vacation Period

The Y. M. C. A. intends to take advantage of the school vacation week and is planning special activities in every department. The regular classes will continue and in addition there will be the following activities:

On Wednesday the prep and cadet classes will meet at the "Y" at 9 in the morning for a bicycle hike to Liberty. Games, races and baseball will constitute the most of the entertainment. Each boy is to bring his own lunch which will probably be eaten in the woods.

At 7 o'clock Wednesday night will be held a mixer for the older boys. Singing, motion pictures and several short talks will form the main diversions.

On Thanksgiving the "Y" will be open from 4 to 7 p. m. Pictures and competitive games will be held in the evening.

Friday night the intermediate and senior classes will go on an overnight hike to the country club where a lively evening is planned. On Saturday morning the beginners will go for a tramp after their gym class, returning in time for a joint mix with beginners and preps at 3 o'clock.

Unanimous Endorsement Is Given School Budget

The unanimous endorsement of the school budget which will be voted on at a special election held December 6, was the result of a mass meeting held last night by the patrons of the Richmond school. This action on the part of the patrons was taken following a number of addresses delivered before the meeting for the purpose of giving a full explanation as to the need of the increased school budget for the year in relieving the congested school condition in the city. George W. Hug, city superintendent of schools, in a fair and concise address, urged the need of the passage of the school budget as it will be submitted to the people.

Other speakers on the program were George E. Halvorsen and Walter Winslow, both of whom are members of the Salem school board.

Lloyd Stiffler was chairman of the meeting and addresses were interspersed with musical numbers.

Bardport Scheduled To Arrive Saturday

PORTLAND, Nov. 23.—The 3500-ton steel steamer Bardport, built by the G. M. Standifer corporation of Vancouver, Wash., is scheduled to arrive at Portland from San Francisco Saturday for loading under operation of the North China line, according to announcement by the Columbia-Pacific Shipping company, operator of the line. The steamer will increase the number of vessels on the North China line from three to four. The West Nomen-tum, West Nivaria and West Keats, all 8800-ton steel steamers, comprise the fleet now operating on the line between Portland and North China ports.

I. W. W. IS ARRESTED

PORTLAND, Or., Nov. 23.—Joe Gamman, said by the police to be a representative of William Haywood, head of the I. W. W., was arrested here today and held on suspicion of violating the state syndicalism act. Gamman was said to have been recently arrived here from Chicago.

Gamman was said by the police to have been placed in charge of I. W. W. activities throughout the Pacific northwest and numerous letters from national I. W. W. officials were found on him following his arrest. The police said that Gamman had in his possession letters empowering him to appoint district delegates in the Pacific northwest.

TEAM IS AWAY TO THE DALLES

**Coach Hendricks Takes
Twenty-two Huskies to
Battle East Oregonians**

Coach "Tubby" Hendricks with 22 Salem high gridsters will leave at 5 o'clock this morning for The Dalles where the Salem high school team will meet The Dalles high school Thanksgiving day. The lineup is practically the same as that which last week defeated Eugene high school. The Dalles eleven last week defeated the McMinnville high squad by a score of 7 to 0, and if Salem defeats The Dalles it will mean that the local team will hold the undisputed championship of the state outside of Pendleton and Portland.

The Salem men are in good shape and will no doubt put up a good fight. In commenting on the game, Coach Hendricks said: "We'll give them a battle they won't soon forget." Salem again counts much on its heavy backfield and on the marvelous toe of Rex Adolph. The backfield men weigh over 150 pounds each.

Coach Hendricks gave out the probable lineup as follows:

Let end, E. Jones, 147 pounds; left tackle, R. Reinhardt, 171 pounds; left guard, M. Jones, 160; center, Gossier, right guard, Taggart, 173; right tackle, E. White, 165; right end, Adolph, 160; quarter, Post, 150, or F. Reinhardt, 135; right half, Ashby, 154; left half, Sokolofsky, 152; fullback, Purvine, 165. Substitutes: R. White, Daily, L. Jones, Burrie, Caughill, A. Frazier, W. Frazier, Albrich, Thompson, Hamilton. Average weight to start, 157 pounds, stripped.

W. S. C. Players Arrive in Lincoln for Classic Game

LINCOLN, Neb., Nov. 23.—Twenty-two football players from Pullman, Wash., representing the Washington State college, arrived here tonight for the Thanksgiving game with Nebraska. They had a few moments of drill on Nebraska field. Coach Welsh said he did not care to make any prediction on the outcome of the game, but was optimistic. The Nebraska eleven will have the advantage in weight by a pronounced margin. Both teams will have a workout tomorrow, but there will be no scrimmage play.

A WANT AD. IN THE STATESMAN WILL BRING RESULTS

Dallas, Texas, Sunday.

DEAR OLD BOY PETE!

This corner of the U. S. mainland is so wonderful in its bigness and bustle I guess I go mouth wide open and eyes staring! Why, Pete, Texans don't talk in miles—it doesn't mean anything! They'll tell you that this place, or that, is an all-day trip, or two days and a night distant, etc. And, old yardstick, you've got the feet, just let it sink in deep that Texas is not only over 800 miles wide but it is our fifth state in population!

Heard a bird in the Adolphus Hotel say that when he comes off the west border he figures he's close home to Baltimore when he's across the Lone Star State! Talk about "jumps"! Try a few, say the one between Texarkana and El Paso!

Pete, everything grows big down here—business as well as folks' hearts! I like the way they never forget! Here I was walking on Main Street yesterday when as fine a type of man as ever wore one of those broad Texas smiles came up to me. "How are you, lieutenant?" says he. "Maybe you'll call back that day at Camp Dick when I brought over that bunch of Camel Cigarettes for the boys," he continued. Right then a Camel conference opened!

Golly, Pete, this party coins Camel compliments faster than the mint makes money! "Lieutenant," says he, "I know when I'm 'set'! I've smoked cigarettes for five years! (NOW LISTEN, PETER!) I know Camels and I know their marvellous mild, mellow body and refreshing flavor and wonderful Turkish and Domestic blend! A million Camels wouldn't tire a smoker's taste!" Now, Pete, I'll say that's some testifying!

Sincerely

Shorty.

P. S.—Between you and me I'll be gazing at tall buildings and things around 43d and Broadway—N-E-W Y-O-R-K—about the hour this note hits Boston's Back Bay! Write me at the same old stand!

THE UNIVERSAL CAR

**How Ford
Prices Are
Possible**

Since Ford wages are not reduced (and the minimum Ford wage is \$6.00 per day) and raw materials are still on a high price basis, how is the Ford cut to a pre-war price made possible?

Mr. Ford says, "It is not so much the cost of the raw material or of labor which fixes the price of our finished product. It is HOW THAT RAW MATERIAL IS HANDLED and WHAT THAT LABOR PRODUCES."

Ford profits all go back into increased efficiency of plant equipment—coal and iron mines and a Ford owned railroad to haul the ores; a new blast furnace to smelt the iron; new efficiency machinery and conveyor systems for handling materials.

Ford CUTS THE PRICE FIRST and then BY INCREASED EFFICIENCY and additional economies from the purchase of raw materials to the loading of the finished product lowers costs throughout the plant to a basis which MAKES THAT LOW PRICE POSSIBLE.

The entire energy and efficiency of the Ford Motor Company, together with the profits each year, are all working for your benefit to produce the Ford car at the lowest possible price to the customer.

Present prices are possible only because of this policy and a production of over 1,000,000 chassis of one standard model.

The present Ford cars are the best the Ford Motor Company ever made. The price is below the 1914 basis. PLACE YOUR ORDER TODAY.

"EVERY OREGON DRIVER NEEDS A FORD SEDAN"

Public Auction AT

Woodry's Store

270 NORTH COMMERCIAL STREET, SALEM, OREGON
STARTING SATURDAY, NOV. 27, 1 P. M. SHARP
