OIL EXPLOITATION NOT RECONCILABLE

U. S. Possesses Only One Twelfth of Petroleum Resources of World

WASHINGTON, Nov. 25.—The American government has informed Great Britain politely, but firmly, that it does not propose to be excluded from participation in the rights and privileges secured under mandates provided in the treaties of peace.

The position of the United States is set forth in a note by Secretary Colby to Earl Curzon, British secretary of state for foreign affairs...

Attitude Toward Oil Welcomed. Mr. Colby says in his note that the American government accepts the statement of the British government that it has refrained from exploiting the petroleum resources of the mandated territories...

U. S. Can Not Be Disregarded. "It is assumed accordingly that your statements with reference to mandate A (not described) together with the statement that the draft mandates for Mesopotamia and Palestine have been prepared with a view to secure equality of treatment for the commerce and citizens of all states which are members of the league of nations..."

U. S. Interested in Mandates. "The United States is, undoubtedly, one of the powers directly interested in the terms of the mandates, and I therefore request that the draft mandates be communicated to the council of the league of nations..."

Mr. Colby goes on to say that suitable publicity should be given to the drafts of mandates which are intended to submit to the council, in order that the fullest opportunity may be offered to consider their terms in relation to the obligations assumed by the mandatory power and the respective interests of all governments which are, or deem themselves

QUIETUDE OF DAY BROKEN IN N. Y.

IRISH SYMPATHIZERS TAKE PART IN FIGHT

Union Jack Was Cause of Assault Which Took 200 Police to Stop Fracas

NEW YORK, Nov. 25.—The usual quiet observance of Thanksgiving day here was violently interrupted today when crowds who had attended a high requiem mass in memory of Terence MacSwiney rioted at the sight of a British flag decorating the facade of the Union club across Fifth avenue from St. Patrick's cathedral.

After a riot, participated in by hundreds of Irish sympathizers, during which plate glass windows of the club were shattered by missiles hurled by the mob, order was restored when a cordon of 200 police established itself around the building.

The clamor of the first onrush at the offending banner was at its height the Rt. Rev. Michael J. Lavelle, rector of St. Patrick's, clad in his ministerial robes, rushed out of the church and pleaded in vain with the leaders to quell the disturbance.

ENDURING FRATERNITY IS SOUGHT

Pledge of Brotherhood and Co-operation Between Panama and U. S. Given by President

PANAMA CITY, Panama, Nov. 25.—A pledge of enduring brotherhood and co-operation between Panama and the United States was pronounced tonight by President Porras of Panama and Warren G. Harding, president-elect of the United States.

Speaking at a banquet given by him in honor of Mr. Harding, Senator Porras declared it was the wish of the pan-American nations that the United States should continue "as the polar star of our American continent, lighting the way for other peoples that they may follow in the paths of liberty and independence."

Warm Reciprocation Voiced. In reply, Mr. Harding voiced warm reciprocation of these expressions of friendship and declared that it was one of his fondest hopes to see the Americas—North, Central and South—united in the purpose of living peacefully and in co-operation.

Mr. Harding made it clear that he spoke only as a private citizen. His carefully chosen words and his earnest demeanor, however, were taken by his auditors as plainly indicating his deep realization of the responsibility that will be inevitable in guiding pan-American relations in the coming four years.

Mr. Harding's remarks were taken up by the American officials of the canal zone and most of those in high authority in the Panamanian republic were present at the banquet which was in the nature of a love feast to cement the comity between the nation operating the great isthmian waterway and the nation whose territory it pierces.

After the banquet Mr. Harding held a public reception in the Union club and shook hands with hundreds of Panamanians. Though he made no reference in his speech to specific diplomatic policies, he had before him detailed information gathered during his visit here on many subjects affecting the canal management and relations with Panama.

KANSAS CITY, Mo., Nov. 25.—Dennis Chester, held here on a charge of murder in connection with the shooting of Florence Barton, Kansas City society girl, late tonight broke the silence he has maintained since he attempted to commit suicide last week in the jail at Broken Bow, Neb., where he was taken following his capture after a sensational escape from officers who were bringing him back from Great Falls, Mont.

Chester replied affirmatively when asked by a nurse whether he was hungry. The man's silence has caused the police considerable uneasiness as it was believed he had injured himself seriously when he leaped from his bunk to the floor of the Broken Bow jail, alighting upon his head.

CHICAGO, Nov. 25.—Ole Hanson, former mayor of Seattle, Wash., while in Chicago tonight on his way home from a tour of Europe, where he investigated conditions among working men, told of a fight in Liverpool between himself and a soap box orator who was denouncing the United States.

The accident occurred while Chevrolet, O'Donnell and Joe Thomas were fighting to make up the half dozen laps they were behind the leaders at the 150-mile lap point.

BOTH TEAMS CLAIM HONOR

Salem High School to Protest as Result of Outcome at The Dalles

The Salem high school will place before the board of control of the State High School Athletic association the problem of deciding who won the football game yesterday at The Dalles.

The Dalles claims a victory of 13 to 7, and Salem claims a victory of 10 to 0 on a technical violation of 1 to 0 grounds that The Dalles left the field before the game was finished.

Before the game it appears the teams agreed to play 12-minute periods. In the first quarter there was no score, but the game was all within the 20-yard line of The Dalles.

In the second quarter The Dalles scored a touchdown which was disputed by Salem on the grounds that the 12 minutes were up. It is agreed upon by Lynn Jones, referee, that the time for the period to end and elected to run on an additional three minutes so they might score, which they did, and followed by kicking goal.

The Dalles claimed time was up according to information, and left the field with four minutes remaining unplayed.

MEXICO SEEKS RECOGNITION

Secretary Colby Expected To Give Reply Letter From Pesqueira

WASHINGTON, Nov. 25.—Secretary Colby is expected to make known before his departure for South America Sunday or Monday the nature of his reply to the recent letter of R. V. Pesqueira, confidential agent here of the provisional government of Mexico, setting forth the claims of that government to recognition by the United States.

Recent informal conferences between state department officials and Mr. Pesqueira are understood to have cleared the way for such an announcement. It was believed the Mexican agent had full knowledge of the position the American government would take when he left today on a hurried trip to Mexico City.

Mr. Pesqueira's letter was made public by the state department with comments by Mr. Colby, by which said that a few points remained to be cleared up before recognition could be granted.

Fifteen patients, on an average, were treated daily. Soldiers from this hospital were either sent back to the front or ordered for debarkation to Anconia.

TARIFF ON CHERRIES DIRE NEED

W. H. Paulhamus Shows How Northwest Growers Suffer in Attempt to Compete With Italians

PORTLAND, Ore., Nov. 25.—The need of a tariff on foreign grown cherries that are shipped into the United States for marketing purposes, particularly Italian cherries that compete with the Royal Ann, so well adapted to production in the Pacific northwest, is pointed out in an interview with W. H. Paulhamus, the well known fruit handler of Oregon and Washington.

HOPE FOR RELIEF IN NEW ADMINISTRATION

Fruit Producers Urged to Enlist Help of Senators and Representatives

The importation of Italian cherries free of duty is proving a serious handicap to the northwest growers. Mr. Paulhamus shows, and he expresses the hope that the incoming new national administration will enact the needed tariff protection.

Destorable Price Necessary. "For the past few years the price of this very desirable cherry has materially advanced until it has proven one of the most profitable under ordinary conditions, that the grower can raise. Constructive leadership will teach us the necessity of trying to maintain these desirable prices. This would necessitate investigating the use of the Royal Ann cherry and our competition."

There is a serious question whether more Royal Ann cherries are used for canning purposes or for maraschino purposes. As is well known, the maraschino cherry is put up in barrels in what is designated as S-O-2, which is a sulphur-salt solution. If the northwest states lose the market for the Royal Ann cherry used in the manufacture of maraschino it is going to materially reduce the price. Is there a possibility of our losing this market for our Royal Ann?

At the present moment I have on my desk at Puyallup a sample of Italian White cherries which have been used most extensively for maraschino purposes. This sample was submitted to me by an importer of New York City, who makes a quotation of 7 cents per pound for the drained cherry. In other words, we can get 7 cents per pound for these cherries, and the seller guarantees the weight, based upon a ten minute drain of the cherries after taken from the barrel. We are quoted 7 cents per pound for these cherries, which
