at headquarters in Washington to assist in general organization work of awakening all civic and commercial organizations to the matter of getting behind and supporting actively all progressive road legislation and development.

The objects of the federal highway council are to assist in coordinating highway transportation with the other transportation agencies of the country; to encourage the development of highways that will advance the economic life of the nation; stimulate their use in such a manner as to facilitate and lessen the cost of the transportation of food, raw materials and finished products, and to co-operate with government agencies, both state and national to the end that the highways may be of maximum service in the transportation systems of the country—and Warford hopes to be able to bring the east and the west closer together with a clearer understanding of all good roads matters, so that a great national highway system, may be pressed to an early completion.

Brings Many Inquiries As a result of advertising "Mistland" prunes in the stations of the subway and elevated railway in New York City, the Oregon Growers' Cooperative association is already receiving many inquiries from the east regarding western Oregon and its products. ALL EYES DON'T SEE ALIKE Most people can see quite clearly, but to do so many of them have to struggle. This struggling to see clearly is a severe strain. That is why there are so many headache sufferers. TAKE A LITTLE TROUBLE with your eyes, sooner or later, they will trouble you. Most pleasures and much of your capacity for work depends on your good vision.

Contracting Company May Lose at Milwaukee The Montague-O'Reilly company, by an opinion of the supreme court yesterday, written by Justice Burnett, fails to collect \$8196.14 from the town of Milwaukee, alleged to be due on a paving contract. The opinion is a reversal of Judge J. U. Campbell of the lower court.

The case hinges on irregularity of the contract award. The Milwaukee charter provides that contracts for paving must be let to the lowest responsible bidder on competitive bids according to plans and specifications prepared by the city. In this case the bidders were invited to submit their own plans and specifications, which, it is said, destroyed competition.

J. A. Pope vs. John MacDonald appellant; appeal from Grant county; suit to recover money alleged due on contract covering lease of lands and personal property. Opinion by Chief Justice McBride. Judge Dalton Biggs affirmed.

Mary Cole et al vs. Edgar Marvin, county judge Wallowa county et al, appellants, appeal from Wallowa county, appeal from order of circuit court dismissing a proceeding for admeasurement of dower. Opinion by Chief Justice McBride; Judge J. W. Knowlton affirmed.

Black-McFall company vs. Samuel P. Wilson, Eugene; Dudley and Jess; Dudley, appellants; appeal from Multnomah county; action for conversion of an Otis elevator dispute being as to whether elevator was personal property or removable fixture and part of realty. Opinion by Justice Harris. Judge C. U. Cantenbein reversed as to Dudley and affirmed as to Wilson.

Rehearing denied in city of Portland vs. O'Neill.

Warford Has Important Post at Washington The Pacific northwest has scored again in Washington, D. C., by the selection of L. E. Warford, a well-known advertising man of the northwest, by the federal highway council with nation-

of white and green, is the wording: "Mistland prunes, tart-sweet, luscious, large." Then as a special advertisement for Oregon, is the wording outside of the purple triangle in the center of the poster: "Direct from Oregon's famous orchards," and, "Ask for Mistland, the full meated, delicious prunes."
