

WE GOT THE SHOES

WE NEED THE MONEY

We Are Going to Sacrifice the

SHOES

To Get the Money

Some of our competitors are advertising that they are not running a sale. They do not have to spend good money to tell the public things that are perfectly evident from the prices they are quoting. Every pair of shoes advertised on this page is positively below wholesale cost. We are offering you these prices because shoes are declining, but you most surely will have to wait years before you will buy shoes as cheap as we are now offering them. We are placing shoes in bins and will keep them full of this priced shoes until they are all gone. We will close out thousands of pairs at anything they will bring; all our Christmas slippers are including rubber goods.
