Brackett, former government physician here for a consideration of \$50,000, according to Dr. Brackett's testimony. Fred H. Anderson, another important witness for the prosecution, testified to various deals whereby the defendants were to release liquor stores to local residents and others. FUN REIGNS IN 7 STORY HOUSE Boys of New York City Enjoy Wholesome Atmosphere in Boys' Club

NEW YORK, Dec. 16.—For ten cents a year and up, 7,000 boys of New York's East Side enjoy all the fun facilities that a seven-story club house can provide. They are members of The Boys' club. It is the largest organization of its type in the world, devoted solely to furnishing wholesome recreation to the youths of the congested tenement district surrounding it. Any youngster in that part of the metropolis can be a member, if he is between 7 and 21 years of age. Annual dues are paid according to heights, beginning with a modest dime for those under four feet, four inches, and growing with the boy himself. The club has taught the East Side gamins how to be happy though clean by providing a big swimming pool. Fringed around it are gymnasiums, game rooms, billiard parlors and above, six more floors devoted to club rooms and other amusement areas. Within the Boys' club itself there are 80 separate clubs. Each with adults as leaders. Two-thirds of these leaders were army officers during the war. Dividing popularity honors with the swimming pool is a lunch room where a cup of cocoa sells for a penny and cookies to go with it for a similar sum. Pretzel peddlars and handorgan virtuoses steer clear of the neighborhood of the club, for the boys have their own eats and own music making instruments. In the daytime there frequently are only a few hundred youngsters within the clubhouse and comparative quiet exists. But after the schools release their pupils and the working boys finish the day's business duties, the roof has a hard time staying on. There are few "don't" and fewer "must do's" in the club, and each member enjoys himself as he is wont. Those desiring to "shoot a game" of pool do so, and those with penchants for painting, dabbling in the canvas to their heart's content. Several of the boys study in the National Academy of Design and one of the portraits hanging in the Metropolitan Museum of Art was done by a member of the club.
